S U M M A R Y

Experienced and dedicated apothecary with a strong background in pharmaceutical technology. Possesses expertise in drug formulation development, stability testing, and the application of pharmaceutical technology principles to create safe and effective pharmaceutical products. Proficient in laboratory management, drug quality testing, and data analysis to support innovation and process improvement in production. Well-versed in industry regulations and standards, including Good Manufacturing Practices (GMP) and Good Laboratory Practices (GLP). Enthusiastic about integrating pharmaceutical knowledge with cutting-edge technology to enhance the quality and efficiency of pharmaceutical products, while committed to contributing to the development of innovative pharmaceutical solutions.
