WORK EXPERIENCE

RSUP Dr. Kariadi Semarang – Semarang, Central Java

Pharmacist Intern

Oct – Nov 2025

- Handled 200+ daily prescriptions in a fast-paced environment, prioritizing safety through direct and effective patient education.
- Assisted in clinical pharmacy services, including medication reconciliation, therapeutic drug monitoring (TDM), and ADR tracking.
- Conducted inpatient ward rounds and authored detailed Pharmacotherapy Monitoring (PTO) case studies to enhance patient care strategies.
- Executed the collection and analysis of 210 antibiotic consumption records from August to September 2025 using the ATC/DDD methodology as part of the Antimicrobial Stewardship Program (ASP) at RSUP Dr. Kariadi.

PT. Jamu Air Mancur - Karanganyar, Central Java

Pharmacist Intern – Quality Assurance

August - Sept 2025

- Gained comprehensive insight into the interdepartmental workflows of R&D, Production, QC, and QA to ensure seamless pharmaceutical operations
- Assisted in investigating production deviations and performing Root Cause Analysis (RCA) with Fishbone method to implement effective Corrective and Preventive Actions (CAPA).
- Participated in process validation activities to ensure product quality consistency and adherence to predefined manufacturing specifications.
- Assisted in analyzing stability test results for Herbal Oral products, ensuring all data met the predefined acceptance criteria in strict accordance with approved stability protocols
- Contributed the data entry from Batch Production Records (BPR) to support the quality release of oral, topical, and liquid herbal dosage forms, ensuring full compliance with CPOTB standards.
- Contributed to the preparation of the Site Master File (SMF), ensuring all technical and administrative details met regulatory compliance for facility certification

Dinas Kesehatan Kota Wonosobo – Wonosobo, Central Java

Pharmacist Intern

July 2025

- Assisted in the regulatory oversight and distribution management of pharmaceutical supplies, including Narcotics, Psychotropics, Cold-Chain Products and medical supplies for 24 public health centers (Puskesmas) across the Wonosobo region.
- Monitored warehouse inventory systems to ensure compliance with storage standards and quality assurance protocols
- Participated in on-site inspections of 3 pharmaceutical facilities in Wonosobo, ensuring strict regulatory adherence and high standards of pharmaceutical practice.

Puskesmas Kertek 2 Wonosobo – Wonosobo, Central Java

Pharmacist Intern

July 2025

- Ensured precise medication dispensing and tracked therapeutic adherence to deliver superior pharmaceutical services.
- Delivered educational sessions to patients regarding chronic disease prevention focusing on diabetes mellitus management to improve public health awareness.
- Executed prescription verification, drug dispensing, and patient education (KIE) within the Prolanis program, ensuring optimal medication therapy management for elderly patients with chronic conditions.

Apotek Permata Medika Purbalingga – Purbalingga, Central Java

Pharmacist Intern

June 2025

- Provides expert pharmaceutical counseling to enhance patient adherence, focusing on precise medication administration, dosage regimens, and the mitigation of potential adverse drug reactions.
- Executed systematic inventory audits and storage inspections to safeguard the quality, safety, and integrity of pharmaceutical stock.
- Managed the dispensing and consultation of OTC medications, ensuring optimal therapeutic outcomes and safety through diligent symptom assessment and patient education.

Pharmacist Intern

- **Gained in-depth knowledge of the PBF licensing** workflow, including CDOB (Good Distribution Practice) and CDAKB (Good Medical Device Distribution Practice) certification processes via the **OSS (Online Single Submission)** system.
- **Gained in-depth into end-to-end pharmaceutical distribution** workflows in strict accordance with GDP (Good Distribution Practice/CDOB) standards to ensure product integrity from the warehouse to the final destination.
- **Gained in-depth insight into the management of high-risk and specialized pharmaceutical products**, including Cold Chain Products (CCP), narcotics, and psychotropics, focusing on the rigorous storage and distribution protocols required for compliance

ORGANIZATIONAL EXPERIENCE

Head of Department Strategic Studies and Action (Kastrad)

- **Led a strategic team of 4 members**, ensuring high engagement levels and operational continuity through effective task delegation and professional development initiatives.
- **Spearheaded a comprehensive external study** on the Ethylene Glycol (EG) and Diethylene Glycol (DEG) contamination crisis in pediatric syrups, analyzing its link to fatal acute kidney injury (AKI) cases in hundreds of children in Indonesia (2022/2023).
- **Conducted internal review initiatives** to evaluate organizational and academic challenges within the Pharmacy Department, transforming complex issues into strategic recommendations for improvement.
