

About Me

I am a Pharmacy professional graduate from the University of Indonesia with a strong interest in Quality Control and pharmaceutical analytical testing. During my internship in the Research and Development Analytical Laboratory at PT Guardian Pharmatama, I gained hands-on experience in developing analytical worksheets based on pharmacopeia standards (USP, BP, and Indonesian Pharmacopoeia), analyzing pharmaceutical testing data, supporting analytical method development, and learning the operation of High-Performance Liquid Chromatography (HPLC) and UV-Visible Spectrophotometry. These experiences strengthened my understanding of laboratory practices, analytical procedures, and quality standards in the pharmaceutical industry. In addition, internships at PT Enseval Putera Megatrading, Persahabatan National Respiratory Referral Hospital, Duren Sawit Community Health Center, and Kimia Farma Pharmacy broadened my understanding of pharmaceutical distribution, healthcare services, and regulatory compliance. I am eager to apply my analytical skills, attention to detail, and commitment to quality to contribute effectively as a Quality Control professional in the pharmaceutical industry.

Education

Universitas Indonesia	Mar 2025 - Apr 2026
Profession Pharmacy, Pharmacist GPA: 3.62/4.00	
Universitas Jambi	Aug 2019 – Jul 2023
Bachelor, Pharmacy GPA: 3.52/4.00	

Working Experiences

PT. Enseval Putera Megatrading	Oct 2025 - Oct 2025
- Ensured pharmaceutical warehouse storage conditions through temperature trend analysis in compliance with CDOB/GDP requirements. - Performed calibration of temperature monitoring devices and maintained calibration documentation to support the quality management system. - Supported quality assurance activities by participating in Gemba Inspections, documenting finding, and preparing CAPA reports. - Assisted in monitoring cold chain management to ensure product integrity, quality, and stability during pharmaceutical distribution. - Applied Good Distribution Practices (CDOB) in warehouse operations, including storage, documentation, and inventory management.	
Puskesmas Duren Sawit	Sep 2025 - Sept 2025
- Provided drug information and medication counselling to outpatients to promote the safe, effective, and rational use of medicines. - Assisted in vaccine storage, handling, and distribution in accordance with immunization programs standards and public health procedures. - Conducted health education and counselling on Tuberculosis (TB) to improve patient awareness, treatment adherence, and disease prevention. - Performed prescription screening, medication dispensing, and patient counselling in accordance with pharmaceutical care standards and applicable regulation.	
RSUP Persahabatan	Jul 2025 - Aug 2025
- Delivered hospital pharmacy services in inpatient and outpatient settings in accordance with pharmaceutical care standards. - Conducted Medication Therapy Monitoring (MTM) for hospitalized patients to support safe, effective, and rational medication use - Provided drug information services and patient counselling to improve medication adherence and optimize therapeutic outcomes. - Performed prescription screening, medication dispensing, and documentation in compliance with hospital pharmacy procedures and patient safety standards. - Assisted in the preparation and sterilization of medical devices and sterile pharmaceutical products following aseptic principles and hospital protocols. - Participated in health promotion and patient education on Hepatitis prevention, treatment, and medication adherence.	
PT. Guardian Pharmatama	May 2025 - Jul 2025
- Developed analytical worksheet and testing protocols based on pharmacopeia standards (USP, BP, FI) to support pharmaceutical product analysis - Analysed pharmaceutical testing data to evaluate product quality and compliance with established specifications. - Assisted in analytical method development and experimental design for new pharmaceutical products during laboratory-scale development. - Operated and learned High Performance Liquid Chromatography (HPLC) for the analysis of pharmaceutical products in accordance with laboratory procedures. - Prepared and maintained laboratory documentation to support research activities and quality compliance.	
Kimia Farma Apotek	Apr 2025 - May 2025
- Provided drug information services and patient counseling to promote the safe, effective, and rational use of medications. - Performed prescription screening, medication dispensing, and documentation in accordance with pharmacy practice standards and applicable regulations. - Coounseled patients on proper medication use, dosage, potential side effects, drug interactions, self-medication to improve treatment outcomes and medication adherence. - Assisted in pharmaceutical inventory management, including medication planning, procurement, ordering, receiving, storage, distribution, stock control, and disposal in accordance with Good Pharmacy Practice (GPP).	
RSUD Raden Mattaher	Sep 2022 - Sep 2022
- Assisted in inpatient medication therapy review to support safe, effective, and rational drug therapy. - Provided drug information services and patient counselling for outpatients to improve medication adherence and treatment outcomes. - Supported prescription screening and medication dispensing in accordance with hospital pharmacy procedures and patient safety standards. - Observed sterile pharmaceutical services and hospital sterilization workflows, including aseptic preparation and infection control practices. - Collaborated with pharmacists and other healthcare professionals in delivering pharmaceutical care for inpatient and outpatient services.	
Kimia Farma Apotek	Aug 2025 - Aug 2025
- Assisted in providing drug information services and patient counseling to promote the safe, effective, and rational use of medications. - Support prescription screening, medication dispensing, and labelling in accordance with Good Pharmacy Practice (GPP) and standard operating procedures. - Assisted patients with self-medication consultations by recommending appropriate over-the-counter (OTC) medicines under pharmacist supervision. - Reviewed and applied pharmaceutical regulations and Good Pharmacy Practice (GPP) principles by comparing regulatory requirements with daily pharmacy operations. - Supported pharmacy services by maintaining accurate documentation and contributing to quality pharmaceutical care.	

Organizational Experience

Staff of Publication and Documantation Himpunan Mahasiswa Farmasi Universitas Jambi	Jan 2020 - Jan 2021
- Managed documentation of organizational events and academic activities to ensure accurate and organized records. - Designed digital promotional materials and social media content to increase engagement and disseminate information. - Collaborated with cross-functional committees to support the successful execution of student and professional pharmacy events.	

Staff of Community Service Himpunan Mahasiswa Farmasi Universitas Jambi	Jan 2021 - Jan 2022
- Led the planning and execution of World AIDS Day and World Pharmacist Day commemorative events as Project Leader, coordinating committees, timelines, and event implementation. - Organized community health education on Family Medicinal Plants (TOGA) to improve public awareness of rational herbal medicine use. - Participated in Pharmacy Goes to School by delivering pharmaceutical education to students in several school across Jambi City. - Collaborated with multidisciplinary teams and external stakeholders to implement community health promotion programs.	
LKMFF I Himpunan Mahasiswa Farmasi Universitas Jambi	Jun 2021
- Participated in leadership and organizational development training focused on teamwork, communication, problem-solving. - Strengthened organizational management skills through collaborative discussions and leadership activities.	
RPLF Ismafarsi Wilayah II Himpunan Mahasiswa Farmasi Indonesia	Sep 2021
- Participated in regional leadership training to enhance leadership, organizational management, and professional ethics as a future pharmacist. - Expanded professional networking through collaboration with pharmacy student and organizations across Sumatra. - Developed communication, teamwork, and leadership competencies through interactive workshops and organizational activities.	

Project Experiences

Evaluation of CDOB Self-Assesment to Improve Regulatory Compliance PT. Enseval Putera Megatrading	Oct 2025
- Evaluated the implementation of the CDOB Self-Assesment system to identify gaps in regulatory compliance within pharmaceutical distribution activities. - Analyzed compliance with BPOM regulations and Good Distribution Practives (CDOB) requirements. - Developed recommendations to improve compliance and support the company’s requirements. - Presented evaluation findings to support continuous quality improvement initiatives. - Established structured daily, monthly, and annual schedules, as well as department-specific responsibilities, to strengthen regulatory compliance and operational consistency.	
Evaluation of Rational Antibiotic Use for Non-Pneumonia Acute Respiratory Infection (ARI) Puskesmas Duren Sawit	Sept 2025
- Evaluated the rational use of antibiotic for patients with non-pneumonia Acute Respiratory Infection (ARI) based on national treatment guidelines and Rational Drug Use (RDU/POR) indicators. - Identified opportunities to optimize antibiotic prescribing and support antimicrobial stewardship in primary healthcare. - Prepared evaluation reports and recommendations to promote rational antibiotic use and improve the quality pharmaceutical services. - Concluded that antibiotic prescribing practices for non-pneumonia acute respiratory (ARI) at Duren Sawit Community Health Center Complied with Rational Drug Use indicators and national clinical guidelines.	
Medication Therapy Monitoring Persahabatan National Respiratory Hospital	Aug 2025
- Conducted Medication Therapy Monitoring (MTM) for hospitalized patients with cardiovascular diseases under pharmacist supervision. - Evaluated medication regimens by reviewing indications, dosage, potential drug interactions, adverse drug reactions, and therapeutic outcomes. - Identified potential drug-related problems (DRPs) and proposed evidence-based pharmaceutical recommendations. - Prepared case reports and presented clinical findings to support pharmaceutical care services.	
Development of Analytical Worksheet Based on ALCOA+ Principle for Method Trial Documentation PT. Guardian Pharmatama	Jul 2025
- Developed analytical worksheet for pharmaceutical method trials by implementing ALCOA+ principle in accordance with Good Documentation Practice (GDP). - Standardized laboratory documentation to improve data integrity, traceability, and regulatory compliance. - Reviewed pharmopeial references and analytical procedudres to ensure accurate documentation. - Supported quality assurance activities by promoting compliance with pharmaceutical documentation standards	

Skills
Soft Skills: Analytical Thinking, Problem Solving, Communication, Teamwork, Adaptability, Continuous Learning, Attention to Detail Tools: Spreadsheets, Microsoft Excel, Microsoft Office, AI Tools, HPLC, UV-Vis Spectrophotometer Research & Business Skills: Quantitative Research, Experimental Design, Literature Review, Problem Framing Languages: Indonesian Native, English Working Proficiency

Certifications	
Pharmacist Registration Certificate Surat Tanda Registrasi Apoteker (STRA)	Jun 2026
Good Manufacturing Practice Certificate Makin Ahli	Mar 2026
Out of Specification (OOS) and Out of Trend (OOT) Certificate Ilmu Terpadu	Mar 2026
