SUMMARY

Pharmacist graduate from Universitas Hasanuddin with a strong academic background in pharmacy and professional training. Experienced in pharmaceutical manufacturing, clinical, community, and distribution settings, including sterile production, aseptic processes, patient counseling, and drug therapy monitoring. Possesses strong technical competencies in GMP, GDP (CDOB), GDocP, ALCOA+, environmental monitoring, cold chain management, and pharmaceutical data systems, supported by training in Quality Assurance in the pharmaceutical industry. Seeking career opportunities in pharmaceutical production, quality assurance, and clinical pharmacy to contribute to high standards of product quality and patient care.

WORK EXPERIENCES

Siloam Hospitals Group

Pharmacy Intern

October 2025–November 2025

- Achieved optimization of clinical pharmacy services and medication distribution, improving dispensing accuracy and patient safety, by performing prescription screening, ODD UDD preparation, and medication verification in compliance with safety standards.
- Delivered improved patient therapy outcomes through identification of Drug Related Problems and monitoring PTO MESO for PROLANIS patients, by actively participating in ward rounds with clinical pharmacists.
- Ensured accurate pharmaceutical inventory control, minimizing stock discrepancies and expiration risks, by conducting integrated stock opname and implementing FIFO FEFO storage systems.

Puskesmas Tamalate

Pharmacy Intern

October 2025

- Delivered high volume pharmacy services, improving operational efficiency and patient satisfaction, by handling over 100 prescriptions per day and providing Pharmaceutical Information Services.
- Ensured accurate inventory management, reducing risk of stock errors and losses, by maintaining stock cards and implementing FIFO FEFO storage systems.
- Improved rational drug use among patients, reducing antibiotic misuse, by conducting PTO MESO and delivering antibiotic awareness counseling.

PT. Dankos Farma

Pharmacy Intern Non Beta Lactam Sterile Production

June 2025–August 2025

- Achieved compliance with GMP documentation standards, improving alignment between production plans and execution, by reviewing SOPs batch records and production master plans.
- Improved production efficiency and resource utilization, identifying process gaps, by conducting man hour and machine hour analysis and evaluating product lead times.
- Ensured aseptic process quality and data integrity, minimizing operational deviations, by monitoring environmental parameters and verifying instrument time synchronization.

PT. Rajawali Nusindo

Pharmacy Intern

May 2025

- Delivered compliant pharmaceutical distribution processes, improving order accuracy and regulatory adherence, by validating orders and performing customer and supplier qualification.
- Ensured product quality during distribution, minimizing temperature excursion risks, by conducting cold chain monitoring temperature mapping and validation.
- Resolved customer complaints effectively, increasing customer trust, by investigating issues and coordinating product recall and return processes.

PT. Kimia Farma Apotek

Pharmacy Intern

April 2025–May 2025

- Delivered safe and effective pharmacy services, improving patient outcomes, by handling over 50 prescriptions daily and providing medication counseling.
- Improved self medication services, supporting appropriate therapy selection, by guiding patients in choosing OTC medications based on clinical needs.
- Ensured accurate inventory management, reducing stock discrepancies, by maintaining stock records and implementing proper storage systems.

Laboratorium Biofarmasi Farmakologi

Research Assistant

September 2023–May 2024

- Delivered comprehensive research support, improving quality of research outputs, by conducting literature reviews and analyzing data using SPSS and spreadsheets.
- Achieved structured scientific reporting, enhancing clarity of research findings, by preparing reports presentations and publication drafts.
- Ensured timely completion of research projects, maintaining adherence to deadlines, by monitoring project progress and coordinating research activities.

EDUCATION

Universitas Muslim Indonesia

Bachelor of Pharmacy — GPA 3.53/4.00

2020–2024

- Relevant Coursework: Pharmacology, Pharmaceutical, Chemistry, Industrial Pharmacy, Biopharmaceutics.

Universitas Hasanuddin

Pharmacist Professional Program — GPA 3.82/4.00

2025–2026

- Relevant Coursework: Pharmaceutics, Sterile Dosage Form Technology, Pharmacology, Pharmaceutical, Chemistry, Industrial Pharmacy.

ORGANIZATIONAL EXPERIENCES

PERISAI Pusat Pengembangan Riset Mahasiswa

Research and Technology Staff

2023–2024

- Delivered end to end coordination of national student research programs, increasing proposal submission and quality, by managing PKM, P2MW, and PPK Ormawa programs from team formation to final reporting.
- Improved scientific writing competencies among members, producing more competitive proposals, by conducting intensive mentoring and comprehensive manuscript reviews.
- Achieved successful execution of national level academic events, increasing participation and engagement, by initiating webinars and serving as committee member and evaluator in LONTARA PERISAI 2024.

ACHIEVEMENT

- **1st Runner-Up of Pharmacon National Pharmacy Debate Competition 2024**, BEM KABAMAFAR Universitas Muslim Indonesia.
Secured 2nd place in a national pharmacy debate competition by presenting evidence-based solutions to pharmaceutical and healthcare challenges through critical analysis, scientific argumentation, and teamwork.
- **1st Winner of Pharmaceutical Debate Competition by National Student Scientific Week (PIMFI) 2023**, Ikatan Senat Mahasiswa Farmasi Indonesia (ISMAFARSI).
Achieved 1st place in a national pharmacy debate competition, demonstrating excellence in critical thinking, problem-solving, and scientific communication on contemporary pharmaceutical and healthcare issues.
- **Semifinalist of National Patient Conseling Event (PCE) 2023**, Himpunan Mahasiswa Jurusan (HMJ) Farmasi Universitas Tanjungpura.
Recognized as a semifinalist in a national patient counseling competition through effective patient communication, medication counseling, and the delivery of accurate drug-related information.
- **1st Runner-Up of Pharmacovent National Pharmacy Debate Competition 2023**, Himpunan Mahasiswa Jurusan (HMJ) Farmasi Universitas Muhammadiyah Prof. Dr. Hamka Jakarta.
Awarded 2nd place in a national pharmacy debate competition for strong analytical reasoning, evidence-based argumentation, and collaborative case-solving skills.
- **1st Runner-Up of National Essay Competition 2023**, Himpunan Mahasiswa Jurusan (HMJ) Farmasi Poltekkes Kemenkes Medan.
Received 2nd place in a national scientific essay competition by developing a research-based paper supported by literature review and critical analysis of healthcare and pharmaceutical issues.
- **1st Runner-Up of Pharmacon National Pharmacy Debate Competition 2023**, BEM KABAMAFAR Universitas Muslim Indonesia.
Earned 2nd place in a national pharmacy debate competition through analytical thinking, scientific reasoning, and effective communication of evidence-based perspectives.
- **3rd Winner of Perisai Debate Champion 2023**, Pusat Pengembangan Riset Mahasiswa (PERISAI) Universitas Muslim Indonesia.
Obtained 3rd place in a university-level scientific debate competition by demonstrating structured argumentation, critical thinking, and problem-solving abilities.

- **Finalist on National Mathematics and Natural Sciences Olympiad (ON-MIPA PT) Regional Level 2022**, Ministry of Education and Culture Republic of Indonesia.
Selected as a regional finalist in a prestigious national academic competition, demonstrating strong analytical, quantitative, and scientific problem-solving skills.

CERTIFICATION

Quality Assurance in Pharmaceutical Industry – Makin Ahli | 2026

Completed comprehensive training on pharmaceutical quality assurance systems, including GMP compliance, deviation management, CAPA implementation, documentation control, and internal audit processes to ensure product quality, regulatory compliance, and continuous improvement within pharmaceutical operations.

HARD SKILLS

Proficient in pharmaceutical quality systems GMP, GDP, CDOB, GDocP, ALCOA+, sterile production, and aseptic techniques, environmental monitoring, cold chain management, temperature mapping and validation data analysis and reporting using Microsoft Excel, IBM SPSS, eWass, eReport, and documentation control systems.

SOFT SKILLS

Strong in effective communication, teamwork, problem solving, critical thinking, analytical thinking, attention to detail time management, adaptability, leadership, and interpersonal skills.
