<http://linkedin.com/in/fatiyahkamilahhakim/>

Detail-oriented Pharmacist (**Apoteker**) with a strong foundation in analytical chemistry and hands-on experience in API manufacturing. BNSP-certified in UV-Vis Spectrophotometry and proficient in evaluating process capabilities using Minitab. Supported by 2 years of experience as a Laboratory Teaching Assistant, ensuring strict GLP compliance. Currently holding SKL and available for immediate join.

EDUCATION

Pancasila University, Jagakarsa, South Jakarta

Pharmacist | GPA : 3.89/4.00

Pharmacist Professional Program | Graduated : September 2026

Lampung University, Bandar Lampung, Lampung

Bachelor of Pharmacy | GPA : 3.84/4.00

Thesis : "Exploration of the Antioxidant and Cytotoxic Activities of 96% Ethanol Extract of Kabau (*Archidendron bubalinum*) Seed Coat: An Anticancer Study on MCF-7 Breast Cancer Cells"

PROFESSIONAL EXPERIENCE (PKPA)

PT. United Dico Citas Jakarta 1

April 2026

Pharmacist Intern

- Followed the daily warehouse operations from receiving to distribution to understand the practical application of Good Distribution Practice (CDOB) standards.
- Recorded daily warehouse temperatures and checked data loggers specifically for Cold Chain Products (CCP) to maintain product quality.
- Supported inventory control and stock management, according to FEFO/FIFO methods.
- Verified purchase order documents and assisted in customer qualification processes to ensure regulatory compliance and legal distribution.

Apotek Askia Bukit Cimanggu City

March 2026

Pharmacist Intern

- Assisted in screening prescriptions and dispensing medications accurately under the supervision of the lead pharmacist.
- Consulted patients on OTC product selection, effectively communicating product benefits to meet patient healthcare needs.
- Delivered comprehensive drug information (PIO) and counseling to patients daily, translating complex medical terms into easily understandable instructions.
- Supported the daily inventory management of medical devices and pharmaceuticals, including identifying procurement needs based on fast-moving items.
- Participated in regular stock opname and compiled portfolio reports on pharmacy governance and community health promotion.

Puskesmas Kramat Jati

Feb 2026

Pharmacist Intern

- Assisted in processing prescriptions and dispensing medications for primary care patients under pharmacist supervision.
- Provided direct patient counseling and clear drug information (PIO) to ensure medication adherence.
- Delivered community health promotions focusing on Tuberculosis (TB) awareness and medication management during the fasting month of Ramadan.
- Participated in field inspections for local pharmacy licensing and Home Industry Food (PIRT) certifications.

Pharmacist Intern

- Observed chemical refining operations in the Production department, and assisted with stability studies and IPC sampling in the QC lab.
- Performed Statistical Process Control (SPC) and Process Capability Analysis using **Minitab** (Sixpack Reports) to evaluate In-Process Control (IPC) parameters including Assay, Yield, and Drying Temperature.
- Interpreted control charts (I-MR), normality plots, and capability indices (Cp, Cpk, Pp, Ppk) to assess process robustness and identify optimization needs for API manufacturing.
- Drafted and reviewed SOPs according to CPBBAOB (Good Manufacturing Practice for APIs) guidelines.

Rumah Sakit PELNI

Nov 2025

Pharmacist Intern

- Conducted Therapeutic Drug Monitoring (PTO) to evaluate patient medication safety and effectiveness.
- Managed in processing and dispensing over 50 prescriptions daily.
- Participated in regular stock opname and managed ward inventory using FEFO/FIFO principles, including emergency trolleys and High Alert medications.
- Operated the Hospital Information System (SIRS) to process prescriptions and update patient medication records.

CERTIFICATION AND TRAINING

Professional Certification in UV-Vis Spectrophotometry Analysis – LSP TELAPI BNSP

Dec 2024

- Credential ID: No.Reg.LAB.003.001538.2024

UV-Vis Spectrophotometry Training – TUK KIMIA FMIPA UNILA

Dec 2024

General Occupational Health and Safety (K3) Training – TUK KIMIA FMIPA UNILA

Dec 2024

ACADEMIC & RESEARCH EXPERIENCE

Laboratory Teaching Assistant – Analytical Pharmaceutical Chemistry

2023 - 2025

Lampung University | Bandar Lampung, Lampung

- Prepared chemical reagents and set up laboratory equipment for daily practical experiments.
- Supervised undergraduate students during laboratory sessions, guiding them through standard analytical procedures.
- Evaluated student lab reports and provided constructive feedback on analytical techniques and calculations.
- Maintained laboratory safety and **Good Laboratory Practice (GLP)** standards throughout all sessions.

Research Assistant

2024

Lampung University | Bandar Lampung, Lampung

- Assisted in the research project titled: "Exploration of the Anti-aging Effects of Melinjo (*Gnetum gnemon* L.) Seeds in a Face Mist Cosmetic Product: A Study of Resveratrol Compound Activity" (Funded by DIPA BLU).
- Contributed to the research project titled: "Tracing of Acacetin Compounds from the Ethyl Acetate Fraction of Melinjo (*Gnetum gnemon*) Seeds and Antioxidant and Cytotoxic Activity Assays on Breast and Colon Cancer" (Funded by DIPA Faculty of Medicine).
- Operated and maintained **UV-Vis Spectrophotometry** for quantitative analysis of active compounds (Resveratrol and Acacetin) in cosmetic and anti-cancer research.

Teaching Assistant – Organic Chemistry

2024

Lampung University | Bandar Lampung, Lampung

- Assisted in conducting laboratory sessions and facilitated tutorials to help students understand complex organic reaction mechanisms.
- Graded student assignments and lab reports accurately to support the lecturer's final evaluation.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Himpunan Mahasiswa Farmasi (HIMAFARSI) – Lampung University

2023-2024

External and Social Department Staff

- Managed partnerships and communication between the student association and external organizations.
- Organized and executed health campaigns, managing project timelines and team coordination to ensure successful event delivery.

Forum Studi Islam (FSI) Ibnu Sina Faculty of Medicine – Lampung University

2024

Study & Syiar Department Staff

- Organized regular Islamic study sessions (Kajian) and religious events for medical and pharmacy students.
- Created and distributed educational content (Syiar) to promote Islamic values within the faculty environment.
