Licensed Pharmacist (Apoteker) from Universitas Indonesia with internship experience spanning pharmaceutical distribution, supply/regulatory reporting, and quality document control. Completed coursework in Pharmaceutical Logistics Management, with hands-on experience verifying incoming shipments, tracking stock, and submitting distribution reports under GDP standards. Skilled in document control, process compliance (GMP/GDP), and cross-functional collaboration across QA, QC, Distribution, and Warehouse teams, building a strong foundation for supporting purchasing, supplier coordination, and supply operations in the pharmaceutical industry.

Education

Universitas Indonesia

Feb 2025 - Apr 2026

Pharmacist Professional Education Program (Apothecary), 3.81/4.00

- Relevant Coursework : Pharmaceutical Logistics Management (procurement, inventory control, distribution planning, vendor management, and warehousing)

Institut Teknologi Sumatera

Jul 2020 - Jul 2024

Bachelor of Pharmacy, 3.48/4.00

Work Experiences

PT. SamMarie Tramedifa - East Jakarta

Sep 2025

Pharmacy Distribution Intern

- Revised the SOP for Cold Chain Product (CCP) delivery validation, establishing a 3-run test protocol with datalogger temperature monitoring every 30 minutes, conducted annually in compliance with CDOB 2025 (Good Distribution Practice) guidelines.
- Compiled and submitted distribution data for 50+ products through BPOM's E-Was national reporting system, supporting accurate regulatory reporting under GDP-compliant operations.
- Verified 50+ incoming drug shipments against invoices, confirming accuracy and maintaining full traceability of shipment documentation.
- "Tracked and maintained daily stock records for 100+ pharmaceutical products, ensuring accurate, audit-ready distribution documentation.

PT. CKD OTTO Pharmaceuticals - Central Cikarang

May 2025 - Jul 2025

Quality Control Intern

- Standardized specifications and analytical methods for 10+ raw materials, correcting outdated references and non-conforming formats across 20+ specification, method, and work-instruction documents.
- Processed 30+ Change Request Forms end-to-end, from submission through approval and implementation, maintaining full document traceability under the site's formal change-control system.
- Revised 6 QC work instructions to implement corrective actions, closing out CAPA requirements for internally flagged non-conformances and restoring compliance.
- Diagnosed the root cause of TAMC/TYMC test failures across 3 raw materials through independent literature research and proposed corrective actions to prevent recurrence.
- Led an individually assigned capstone validation project, confirming TAMC/TYMC method suitability through positive controls and meeting USP recovery acceptance criteria.
- Completed cross- departmental training in GMP, Data Integrity (ALCOA+), Pharmacovigilance, QA, Production, and Warehouse inductions.

Apothecary Intern

- Reviewed and dispensed 10+ solid and semisolid dosage forms daily, ensuring full compliance with dispensing regulations and safety protocols.
- Performed weekly stock opname (physical inventory count) across approximately 100 products, reconciling physical counts against system records to maintain inventory accuracy.
- Counseled patients on self-medication and OTC product selection, applying clinical product knowledge to support safe, informed choices.

Rumah Sakit Universitas Indonesia - Depok

Jul 2025 - Aug 2025

Clinical Pharmacist Intern

- Delivered 200+ Drug Information Services (DIS) to healthcare professionals and patients, supporting evidence-based clinical decisions through clear, cross-professional communication.
- Performed comprehensive medication reconciliation for Emergency Unit patients, identifying and resolving discrepancies to reduce medication error risk.
- Monitored pharmacotherapy for 3 ICU patients over one-week, ensuring safe and effective drug therapy across complex comorbidities.

Puskesmas Kalideres - West Jakarta

Apr 2025 - May 2025

Apothecary Intern

- Conducted a structured drug utilization evaluation over a 3-month period using the ATC/DDD (Anatomical Therapeutic Chemical/Defined Daily Dose) methodology.
- Performed 300+ prescription reviews and delivered 50+ drug information services (DIS), including patient counseling on hypertension medication adherence and lifestyle modification.
- Developed patient education materials and delivered a hypertension health-promotion session to 30+ patients.

Skills, Achievements & Other Experience

- **Community Outreach Project** (2024): Organized Temo.tis (Teh Kelor, Kunyit, dan Kayu Manis), a herbal-intervention outreach event for osteoarthritis prevention reaching 50+ patients at Puskesmas Wayhalim II (Bandar Lampung), leading a cross-functional team to deliver evidence-based herbal health education.
- **Publications** (2025): Faktor-Faktor yang Berhubungan dengan Eksaserbasi pada Pasien Penyakit Paru Obstruksi Kronik (PPOK) di RSUD Dr. H. Abdul Moeloek : Journal of Clinical and Pharmaceutical Innovation
- **Soft Skills**: Analytical Thinking · Attention to Detail · Cross-functional Collaboration · Time Management · Scientific & Patient Communication
- **Hard Skills**: Microsoft Excel (Formulas, Pivot Tables, Data Visualization) · Microsoft 365 (Word, PowerPoint, Teams) · Root Cause Analysis · Analytical Method Validation · Data Integrity Principles · GMP/GDP Compliance · Regulatory Documentation
- **Languages**: Indonesian (Native) · English (Professional working proficiency)
- **Webinars Attended** (2026): Healthcare Regulatory (Obat dan Kosmetik) sesuai Peraturan BPOM by Ioda Academy
- **Webinars Attended** (2026): Program Pengenalan Sertifikasi Halal by LPPOM MUI
