Depok, Jawa Barat

Fresh graduate Pharmacist with hands-on experience in operating analytical instruments and conducting data processing for pharmaceutical analysis. Proactive, highly motivated, and recognized for honesty, responsibility, and integrity, with exceptional attention to detail and discipline. Adaptable and resilient, able to work independently as well as collaboratively in cross-functional teams to achieve targets and ensure compliance with regulatory standards. Has a strong interest in analytical development, while seeking to contribute as a professional Apothecary in the pharmaceutical industry, supporting research and development, quality control, and sterile production.

Work Experiences

PT. Mersifarma Trimaku Mercusana – West Java

Jul – Aug 2025

Pharmacist Intern

Pharmaceutical Companies

- Acquired hands on understanding in sterile pharmaceutical production processes, including aseptic techniques, cleanroom operations, and compliance with CPOB standards.
- Gained practical exposure to full production workflows, documentation systems, sterilization equipment mechanisms, and Air Handling Unit (AHU) operations to ensure product quality and regulatory compliance.
- Assisted in preparing three User Requirement Specification (URS) documents for sterile production equipment in compliance with CPOB requirements.
- Participating in department inductions (QA, QC, PPIC, R&D) for cross-functional understanding.
- Authored an internship report about "Evaluation of Operational Cost Saving from the Transition of Non-Liquid Nitrogen to Liquid Nitrogen in the Sterile Production Unit of PT. Mersifarma TM (May-August 2025)".

PT. Teknologi Medika Pratama – West Java

Jun 2025

Pharmacist Intern

One of the subsidiaries of SwipeRx, specializing in general trading & pharmaceutical distributor.

- Assisted in document archiving and management processes by ensuring document organization and traceability.
- Reviewed and approved 100+ precursor drug purchase orders, ensuring regulatory document completeness and accuracy between manual submissions and system records.
- Conducted product verification and inventory control activities, including incoming goods, returned items, and stock checks, reducing stock discrepancies in compliance with SOPs.
- Supported Regulatory & Quality Assurance (RQA) activities by developing Cold Chain Product (CCP) handling materials and ensuring proper receiving and cold storage procedures.
- Designed a product recall flowchart for customer notification (pharmacies, clinics, and other stakeholders) based on BPOM-approved recall procedures.
- Documented the end-to-end recall process, covering regulatory instructions, distribution monitoring, and product return to suppliers with complete records.
- Authored an internship report about "Analysis of Storage Aspects at PT. Teknologi Medika Pratama Based on CDOB and CDAKB".

Apotek Roxy Jagakarsa - South Jakarta

May 2025

Pharmacist Intern

Community pharmacy providing prescription services and patient counseling.

- Gained hands-on experience in prescription review, dispensing, and providing drug information services.
- Managed pharmaceutical inventory through planning, procurement, receiving, storage (FIFO/FEFO), and active participation in periodic stock opname to maintain product quality and availability.
- Conducted stock movement analysis (fast-, slow-, and dead stock) and contributed to developing strategies for handling stock discrepancies to improve inventory efficiency and supply management.
- Maintained archiving, documentation, and reporting of prescriptions, narcotics, psychotropics, and pharmaceutical services in compliance with regulatory requirements, including uploading narcotics and psychotropics reports to SIPNAP under supervision.
- Authored an internship report about "Strategies for Handling Stock Discrepancies of Ethical Drugs at Apotek Roxy Jagakarsa In May 2025".

- Supported delivery of pharmaceutical analysis education and tutorials.
- Supervised laboratory practicums, guiding students in pharmaceuticals calculations and experiments using UV-Vis spectrophotometer, HPLC, and other analytical instruments.

Education Level

Universitas Indonesia – Jakarta, Indonesia

Profession Apothecary, 3,74/4.00

- Complete 5 apothecary internship at several companies for 1 year.

Universitas Lampung – Bandar Lampung, Indonesia

Bachelor of Pharmacy, 3,79/4.00

- Successfully completed a bachelor thesis entitled Total Phenolic Content, and Antibacterial Test Ethyl Acetate Fraction of Rambutan Leaves (*Nephelium lappaceum* L.) Using The Ultrasound-Assisted Extraction Method.

Organisational Experiences

Himpunan Mahasiswa Farmasi, Universitas Lampung – Bandar Lampung, Indonesia

Secretary of the Departement of Media, Communication and Information

- Managed documentation, publication, and digital media content to support organizational activities.
