SUMMARY

With 12 years of dedicated experience in the dynamic field of Pharmaceutical Sciences, I aspire to secure a pivotal role within a progressive organization that allows me to fully leverage my expertise. I am driven to practically apply my proven skills to contribute significantly to the growth and success of the company while staying at the forefront of industry innovation and compliance.

EXPERIENCE

Aja Pharmaceuticals Ltd.

Assistant Manager of Packaging Development

Saudi Arabia, Hail

May 2023 - Present

- Evaluation of packaging requests for new products, considering feasibility and standardization within the existing/new portfolio.
- Recommendations for packaging materials for new products, covering primary, secondary, and tertiary packaging.
- Development of packaging material specifications, ensuring quality and tolerance standards.
- Preparation and review of market pack analysis and benchmarking for packaging configuration development.
- Optimization of packaging components as part of continuous improvement processes.
- Design, development, and validation of change parts.
- Comprehensive understanding of the packaging development process from pre- to post-commercialization stages.
- Regulatory bodies' queries responding with justification related to packaging materials selection process in section 3.2.P.7.
- In-depth knowledge of primary packaging machinery through tertiary packaging machines for all dosage forms.
- Preparation and review of Master Packaging Cards and Bill of Materials.
- Investigation of packaging-related issues during operations in all aspects of man, material and machine.
- Coordination with Supply Chain Management (SCM) purchase, planner, production teams, and vendors.
- Support for production during Factory Acceptance Tests (FAT) and change part qualification.
- Collaborate closely with cross-functional teams (quality, manufacturing, Quality Assurance & procurement, and regulatory) to successfully drive two EPD & NPD and (TT) projects like Sugammadex and FCM vials from R&D to commercial scale.
