CAREER SUMMARY

Licensed Pharmacist with 4+ years of experience in Quality Assurance across the pharmaceutical, cosmetics, and dietary supplement industries. Proficient in ensuring compliance with regulatory standards such as CPOB, CPKB, and CPOTB. Experienced in reviewing and approving product documentation, conducting internal audits, and implementing corrective and preventive actions (CAPA) to maintain product quality and safety. Skilled in cross-functional collaboration to uphold quality standards throughout the product lifecycle

EDUCATION

AIRLANGGA UNIVERSITY

Professional Pharmacist Degree

Feb 2021 - Feb 2022

AIRLANGGA UNIVERSITY

Bachelor of Pharmacy

Sept 2016 - Feb 2021

Thesis : Standardisasi Ekstrak Daun Bunga Matahari (*Helianthus annuus L.*) Dari Daerah Surabaya, Kebumen Dan Bandung (2020)

PT. Vitara Nusantara Jaya

Mar 2026 - Present

Head of Quality Assurance

- Leading the development of a Quality Management System (QMS) from the ground up at a newly established liquid probiotics manufacturing facility, encompassing the preparation of Quality Manual, quality policies, and Standard Operating Procedures (SOPs) in compliance with CPOTB and Halal requirements
- Conducting a comprehensive gap analysis of facility conditions and processes against CPOTB regulatory requirements as the foundation for QMS implementation planning
- Developing and preparing QMS documentation, including quality policies, production SOPs, quality control SOPs, work instructions, and recording formats
- Designing systems for document control, deviation handling, CAPA management, and change control procedures in preparation for facility operational readiness
- Coordinating facility, production equipment, and utility qualification preparations (IQ/OQ/PQ) in collaboration with the engineering team and management
- Establishing supplier qualification procedures and acceptance criteria for raw materials as part of the incoming quality control system
- Coordinating with management and external consultants in preparation for CPOTB certification and BPOM Halal certification

PT. Agro Mitra Alimentare

Apr 2025 - Mar 2026

Head of Quality Assurance

- Develop, implement, and maintain comprehensive Quality Management Systems (QMS) in accordance with current Good Manufacturing Practices (CPOTB)
- Monitor and ensure compliance to regulations by conducting self inspections, and preparing for regulatory inspections
- Review and approve documents such as Standard Operating Procedures (SOPs), master batch records, validation protocols, deviation, and change control documentation to ensure accuracy and compliance
- Design and deliver training programs on quality standards, cGMP, and regulatory requirements to foster a culture of quality and continuous improvement
- Lead internal and external audits, manage corrective and preventive actions (CAPA), and ensure the implementation of audit findings to address non-conformances and enhance quality systems

- Oversee the release of finished goods, ensuring they meet predefined quality specifications before distribution
- Evaluate and qualify suppliers, conduct supplier audits, and ensure that supplied materials and components meet quality standards and regulatory requirements
- Identify potential quality risks, assess their impact, and implement mitigation strategies to prevent quality issues and ensure product safety and efficacy

PT. L'Essential

Feb 2024 - Apr 2025

Quality Management System Officer

- Assist in the investigation of non-conformities, deviations, and complaints, and support the implementation of Corrective and Preventive Actions (CAPA) to address root causes and prevent recurrence
- Assist in the evaluation and monitoring of suppliers to ensure they meet quality standards and regulatory requirements, including conducting supplier audits and assessments
- Support risk management activities by assisting in the identification, assessment, and mitigation of risks that could impact product quality or patient safety
- Preparation of Pharmacovigilance periodic report to Indonesian Drug Authority
- Assist in the evaluation of product recalls

PT. Etercon Pharma (Novell Pharmaceutical Group)

Apr 2022 - Jan 2024

Process Validation Specialist

- Prepare, develop and maintain a Validation Master Plan, which outlines the scope, objectives and schedule for process validation activities
- Prepare and review validation protocols in accordance with current Good Manufacturing Practices (CPOB)
- Collaborate with cross-functional teams to define critical process parameters and acceptance criteria for validation studies
- Conduct and supervise execution of process validation and equipment qualification
- Analyze process validation data using statistical tools to determine consistency, reliability, and reproducibility of manufacturing processes
- Prepare comprehensive validation reports and summarize findings, deviations, and conclusions
- Investigate deviations or non-conformances identified during validation activities and initiate Corrective and Preventive Actions (CAPA)
- Assess the impact of process changes through change control systems and determine whether revalidation is required
