PROFILE SUMMARY

Pharmacy graduate with hands on experience in Quality Assurance within the pharmaceutical industry. Experienced in handling deviations, CAPA, and quality documentation in pharmaceutical operations. Demonstrates strong critical thinking, attention to detail, and discipline in managing quality related issues. Supported by prior experience in community pharmacy, providing a well rounded understanding of pharmaceutical practices. Committed to contributing to effective quality systems and continuous improvement in the pharmaceutical industry.

WORK EXPERIENCE

Quality Assurance Staff, PT. Metiska Farma

Jan 2025 - Present

- Conducted routine CPOB inspections across production, warehouse, QC, and other related areas.
- Participated in internal audits and supported inspection activities.
- Handled and investigated deviations, complaints, OOS, and OOT events.
- Ensured proper documentation practices and maintained organized filing systems.
- Assessed quality risks related to changes in processes, equipment, facilities, and procedures.
- Supported investigations for out of limit results and documented findings.
- Followed up on non-compliances and monitored CAPA implementation to ensure timely closure and effectiveness.
- Contributed to continuous improvement initiatives through suggestion system projects, resulting in internal recognition.

Store Manager, Century Healthcare

July 2022 - July 2023

- Provided consultation on pharmaceuticals, supplements, and medical devices to support customer needs and satisfaction.
- Achieved monthly and annual sales targets by implementing strategies to increase sales and expand the customer base.
- Monitored stock levels and ensured proper handling of products to minimize expired items and maintain quality standards.
- Contributed to marketing activities by creating promotional materials, including posters and TikTok content.

INTERNSHIP EXPERIENCE

Pharmacist Intern, Puskesmas Kratonan

May 2024

- Assisted in prescription screening, dispensing, and providing basic drug information to patients.
- Delivered counseling and health education to support proper medication use and adherence.
- Supported pharmacy services in outreach settings, including Puskesmas Pembantu and Poslansia.
- Maintained pharmacy records such as stock cards and LPLPO to ensure accurate inventory tracking.
- Contributed to health promotion activities by preparing educational materials on the use of antibiotics.

Pharmacist Intern, PT. Penta Valent, Tbk

May 2024

- Learned and applied Good Distribution Practice (CDOB) in daily pharmaceutical distribution activities.
- Assisted in monitoring drug storage, distribution, and return processes in line with company procedures.
- Supported SOP development to improve clarity and consistency in operational workflows.
- Helped review documentation and observed processes to ensure compliance with distribution standards.
- Presented an overview of the distribution process flow and identified potential areas for improvement.

Pharmacist Intern, RSUD dr. Soedono

Feb 2024

- Conducted prescription screening and presented case based discussions across pharmacy service units to support appropriate therapy decisions.
- Provided patient counseling and supported clinical pharmacy activities, including medication reconciliation, drug therapy monitoring, and SOAP documentation.
- Participated in monitoring patients in the Intensive Care Unit (ICU) under pharmacist supervision, with a focus on patient safety and therapy outcomes.
- Assisted in preparing unit dose dispensing (UDD) and discharge prescriptions (IP), ensuring accuracy, proper labeling, and compliance with hospital procedures.

Production Intern, PT. Kalbe Farma, Tbk

Dec 2023 - Jan 2024

- Observed tablet manufacturing processes, with a focus on Promag production and blistering operations (Uhlmann 1880 and IMA machines).
 - Contributed to a project on reducing hazardous (B3) and non-hazardous waste in blistering processes, followed by a final presentation of findings.
 - Supported a time optimization study for Clean Up Set Up (CUSU) and Batch Number Change (GBN) procedures to improve operational efficiency.
 - Participated in basic training on CPOB and halal systems, gaining exposure to pharmaceutical production standards.
 - Assisted in documenting observations and compiling data to support project analysis and reporting.
-

ACHIEVEMENTS

2nd Place – Suggestion System Staff (Q4 2025)

Dec 2025

One Minute Document Review: Q-PASS (Quick Pre-Assessment Self Scan)

Improved efficiency and consistency in document review processes through a simple pre check method
