WORK EXPERIENCE

PT kimia Farma Trading & Distribution Bandung

PT. Kimia Farma Tbk [01/05/2025 - 21/05/2025]

Position : Internship

- Managed pharmaceutical products, medical devices, and consumable medical supplies (Bahan Habis Pakai - BHNP) within the pharmaceutical distribution division, ensuring proper storage, handling, and documentation.
- Applied Good Distribution Practice (CDOB - Cara Distribusi Obat yang Baik) standards to maintain product quality, regulatory compliance, and supply chain integrity.
- Assisted in the product recall process for defective, damaged, or expired medicines, ensuring full traceability and regulatory compliance.
- Prepared and processed purchase orders for suppliers of narcotic and psychotropic substances in accordance with government regulations.
- Handled invoice return documentation (faktur kembali) for NAPZA products, ensuring compliance with legal and internal audit requirements.
- Conducted screening and verification of customer orders to ensure adherence to pharmaceutical regulations, particularly for controlled substances.
- Supported distribution operations for narcotic, psychotropic, precursor, and non-controlled medicines, ensuring accurate documentation, traceability, and timely delivery.
- Participated in documentation preparation and regulatory reporting related to narcotic, psychotropic, and precursor medicines.

PT Kimia Farma Plant Jakarta

PT. Kimia Farma Tbk [03/02/2025 - 26/03/2025]

Position : Internship Production Division 2

- Actively involved in the end-to-end manufacturing process of sterile injections, ointments, and narcotic-psychotropic syrups, from material preparation to finished goods, in full compliance with GMP/CPOB standards.
- Supported equipment qualification activities, including ampoule selection machine qualification, and conducted in-process quality monitoring to ensure adherence to validated parameters.
- Performed quality control testing for sterile products, including clarity testing, pyrogen testing, and weight uniformity testing, in accordance with applicable pharmacopeial standards.
- Designed and implemented a Kanban system to optimize production scheduling for sterile injections and syrups, improving workflow visibility and process control from planning to final product release.
- Conducted Value Added (VA) and Non-Value Added (NVA) analysis on sterile injection production processes to identify inefficiencies, reduce waste, and improve overall manufacturing performance.

Kimia Farma Community Pharmacy

PT. Kimia Farma Tbk [02/12/2024 - 15/01/2025]

Position : Internship

- Gained hands-on experience in dispensing medications, reviewing prescriptions for accuracy and appropriateness, and providing drug information services to patients and healthcare professionals.
- Supported inventory management activities, including stock monitoring, expiry control, and documentation, ensuring compliance with pharmaceutical regulations and internal SOPs.
- Provided patient counseling and education on rational drug use, dosage instructions, potential side effects, and medication adherence.
- Conducted home pharmacy care visits, delivering medications and monitoring patient adherence, therapeutic outcomes, and potential drug-related problems.

PT Holistic Bio Medicine

PT. Holistic Indonesia [01/08/2023 - 31/08/2023]

Position : Internship

- **Quality Control (QC):** Assisted in inspection and testing activities for traditional medicine production to ensure compliance with established procedures and quality requirements. Supported documentation of testing results.
- **Quality Assurance (QA):** Assisted in verifying that products met internal quality standards prior to distribution, ensuring compliance with company procedures and regulatory requirements.
- **Production Planning and Inventory Control (PPIC):** Supported production planning activities by monitoring order processing and assisting in inventory control of raw materials and finished goods to help maintain adequate safety stock levels.
