---

A highly motivated and adaptable Apothecary student at Institut Teknologi Bandung with strong interest in procurement, purchasing, quality, and pharmaceutical supply chain operations. Experienced in handling procurement documentation and quality compliance through internships in pharmaceutical distribution and manufacturing industries. Detail-oriented and analytical individual with strong communication, negotiation, and problem-solving skills. Eager to learn quickly in dynamic working environments while contributing effectively to company operations and business objectives.

## WORK EXPERIENCE

---

### PT Anugrah Argon Medica - Manggarai, Jakarta Selatan

March 2026

#### Quality Intern

- Supported pharmaceutical distribution and supply chain operations, including monitoring inventory flow and reviewing documentation related to purchase orders, delivery orders, receiving, picking, and packing activities.
- Reviewed and maintained transaction and distribution records to support documentation accuracy, product traceability, and timely order fulfillment.
- Coordinated with relevant internal teams to support the smooth flow of pharmaceutical products from order processing through warehouse and delivery activities.

### PT Kimia Farma Plant Banjaran - Banjaran, Jawa Barat

January - February 2026

#### Technical Support Intern

- Monitored pharmaceutical manufacturing processes and primary packaging performance to support production continuity, material quality, and process improvement initiatives.
- Coordinated with Production, QA, and Engineering teams to support manufacturing trials, follow up on project action items, and ensure timely completion of technical requirements.
- Analyzed tablet thickness variability contributing to packaging rejects using root-cause analysis and Minitab, providing data-driven recommendations to support process and material-related improvements.

### Balai Besar POM di Jakarta - Cipayung, Jakarta Timur

October 2025

#### Inspection & Certification Intern

- Participated in 3+ GMP/GDP-related field inspections by coordinating inspection activities, evaluating compliance, and supporting the preparation of inspection reports.
- Documented inspection findings and supported follow-up activities to ensure timely communication and completion of required actions.

### Prima Medika Laboratories (Pharos Group) - Tangerang, Banten

June - July 2024

#### Quality Assurance Intern (Quality System Division & Calibration, Qualification, and Validation Division)

- Supported cross-functional coordination for validation activities involving 15+ commercial products, including manufacturing monitoring, data review, and documentation management.
- Coordinated cleaning validation activities for 3+ products by preparing protocols, revising SOPs, and following up on project requirements with relevant stakeholders.
- Compiled and evaluated data from 50+ commercial batches for Annual Product Quality Review (PQR), supporting process trend analysis and product quality evaluation.
- Prepared IQ/OQ protocols and qualification documentation, ensuring accurate records and timely coordination of qualification activities.
- Developed standardized audit checklists and qualification templates to support supplier assessment, documentation standardization, and project coordination.

## EDUCATION

---

### Institut Teknologi Bandung

Sept 2025 - Present

#### Pharmacist Study Program (GPA : 3.88/4.00)

- Major : Production and Quality Control
- Completed professional internship rotations across pharmaceutical manufacturing, distribution, healthcare, and regulatory sectors, gaining practical experience in quality systems, GMP/GDP compliance, validation, inspections, documentation, and cross-functional collaboration.

## **B.Pharm. in Pharmaceutical Science and Technology (GPA : 3.59/4.00, 149 Credits)** *July 2021 - July 2025*

- Gained a comprehensive understanding of pharmaceutical manufacturing processes and the overall industrial pharmacy workflow through academic coursework in Industrial Pharmacy and Pharmaceutical Technology.
- Relevant Coursework
  - Industrial Pharmacy & Quality: Validation in Pharmaceutical Industry, Good Manufacturing Practice (GMP), Development & Validation of Analytical Methods, Drug Stability.
  - Pharmaceutical Technology: Technology of Solid Dosage Forms, Technology of Liquid-Semisolid Dosage Forms, Physical Pharmacy, Pharmaceutical Statistics.
- Activities : Laboratory Assistant, HMF 'Ars Praeparandi', Graduation Committee

## **ORGANIZATIONAL EXPERIENCE**

---

### **ITB Pharmaceutical Student's Association**

#### **Head of Licensing Department - BSO Pharmanova ITB**

*May 2023 - May 2024*

- Communicated and negotiated with internal and external parties regarding permits and venue utilization
- Coordinated licensing and administrative requirements for organizational events and activities

#### **Intrakampus Staff**

*April 2024 - April 2025*

- Coordinated inter-organizational networking and communication activities
- Organized event schedules and operational arrangements for organizational visits
- Managed external relations and formal presentations with various student organizations

#### **Secretary of Ars Election**

*Jan 2022 - June 2022*

- Managed organizational documentation, administrative reporting, meeting minutes, proposals, and cross-divisional document coordination to support efficient operational and administrative processes.

## **PROJECT**

---

### **Academic Thesis: Formulation of Belitung Taro Fiber Drink Product**

*July 2024 - July 2025*

- Designed and optimized a functional fiber drink formulation from Belitung taro corm through formulation trials, experimental evaluation, sensory testing, and physicochemical analysis.
- Conducted physicochemical and product quality evaluations to assess the potential of Belitung taro fiber as a bulk-forming laxative agent

## **SKILLS**

---

- **Procurement & Supply Chain:** Vendor Coordination & Negotiation, External Partnership Management, Inventory & Shipment Monitoring and Communication.
- **Pharmaceutical & Quality Operations:** GMP/CPOB Compliance, Stakeholder Communication, Pharmaceutical Distribution, and Technical Documentation.
- **Data & Operational Management:** Data Analysis, Reporting, Documentation Management, Microsoft Office, Google Workspace and Cross-Functional Coordination.
- **Languages:** Bahasa Indonesia (Native), English (Fluent).
