

RARA SALSA NADILLAH

Jakarta | Rarasalsa10@gmail.com | 085930227310 | www.linkedin.com/in/raraslsn

Experienced Civil Engineering professional with over 6 years in drafting, technical support, and project coordination across precast and general construction projects. Skilled in producing technical drawings, supporting tender documentation, and coordinating with site teams and consultants. Detail-oriented, proactive, and committed to ensuring quality, accuracy, and compliance with engineering standards in both design and field operations.

EDUCATION

Vocational High School in Teknik Gambar Bangunan, SMKN 26 Jakarta 2016 - 2020

- GPA: 89.47 / 100.00

Bachelor's Degree in Civil Engineering, Universitas Mercu Buana 2021 - 2025

- GPA: 3.78 / 4.00

WORKING EXPERIENCES

PT. BERCA BUANA SAKTI

Drafter Structure (On-Site Project)

Oct 2025 – Present

JIE expo - Jakarta International Expo

- Prepared primary structural drawings in accordance with approved structural designs
- Developed detailed reinforcement (rebar) drawings for foundations, beams, columns, and slabs
- Revised drawings based on site conditions, field measurements, and engineer instructions
- Coordinated with structural engineers and site teams to support construction execution
- Assisted in preparing as-built drawings reflecting actual site conditions

PT. ASKARA INOTEK INDONESIA

Technical Support – Civil Engineering

Aug 2025 – Oct 2025

- Supported civil engineering projects in design, documentation, and site coordination.
- Reviewed drawings and ensured compliance with technical standards.
- Assisted with quantity take-off, BOQ preparation, and material estimates.
- Coordinated with site teams, consultants, and contractors.
- Conducted site visits and prepared technical reports.
- Used AutoCAD and civil software for drafting and revisions.

PT. WIJAYA KARYA PRACETAK GEDUNG

Drafter - Intern

Feb 2019 – Feb 2020

- Produced shop drawings and as-built drawings for structural works.
- Created detailed structural drawings for precast construction projects using AutoCAD.
- Revised technical drawings based on engineer feedback and project specifications.
- Ensured all drawings complied with structural safety regulations and construction codes.

Staff Engineering & Drafter

Aug 2020 – Aug 2025

- Produced structural and architectural drawings for project execution.
- Assisted with structural analysis and ensured drawings met technical specifications.
- Coordinated with project teams and site staff to align designs with field conditions.
- Prepared shop drawings and as-built drawings for project documentation.
- Supported tender preparation by developing technical proposals, including structural, architectural, and MEP methods.
- Created S-curve scheduling to monitor project progress and resource allocation during tender and execution phases.

LICENSES & CERTIFICATIONS

- **Superintendent of Main Building Structural Works** - [Certificate](#)
Indonesia Professional Certification Authority
- **Geotechnical Technician** - [Certificate](#)
Indonesia Professional Certification Authority
- **SketchUp Certified User** - [Certificate](#)
SketchUp
- **Certificate of Training (Education & Training for General Occupational Health and Safety Expert)** - [Certificate](#)
Nagan Group Indonesia
- **Certificate of Completion (Basic Modelling With All Plan)** - [Certificate](#)
BIMWIKI
- **Certificate of Completion (BIM Tekla Structure)** - [Certificate](#)
Praba Engineering Services

SKILLS

Language : Indonesian, English.

Software : Microsoft Office (Word, Excel, PowerPoint, Project), SAP2000, AutoCad, Tekla, SketchUp, Revit.

Others : Good Communication, Time Management, Creative, Detail.
