PROFESSIONAL SUMMARY

Pharmacist Professional Program student at Universitas Padjadjaran with hands-on Quality Control experience through a pharmacist professional internship (PKPA) at PT Global Onkolab Farma. Supported controlled-document updates, raw-material and supplier data maintenance, analytical-method validation/verification gap analysis, chemical inventory mapping, and retention/stability sample management. Bachelor of Pharmacy from Universitas Sriwijaya (GPA 3.86/4.00); current professional-program GPA 3.60/4.00. Seeking an entry-level opportunity in the pharmaceutical industry.

PROFESSIONAL EXPERIENCE

PT GLOBAL ONKOLAB FARMA (GOF), JAKARTA

Jan 2026–Feb 2026

Quality Control Intern - Pharmacist Professional Internship (PKPA)

- Reviewed Quality Control SOPs and participated in routine departmental briefings to understand laboratory workflows and compliance requirements.
- Supported the revision of product specifications and controlled test record formats based on the latest analytical method documentation.
- Updated the List of Raw Materials from Approved Suppliers using supporting documents and Certificates of Analysis (CoA); mapped chemical inventories by department.
- Conducted a gap analysis of analytical method validation and verification implementation.
- Supported retention and stability sample management, including sample preparation and stock counts for raw materials, finished products, reagents, and reference standards.
- Assisted physical inspection of packaging materials, observed chemical testing with analysts, and prepared a special assignment on retention sample management.

ADDITIONAL PHARMACY INTERNSHIP ROTATIONS

Nov 2025–Apr 2026

- Pharmaceutical Distribution Intern, PT Millennium Pharmacon International Tbk, Bandung (Apr 2026)
- Community Pharmacy Intern, Apotek Derwati, Bandung (Mar–Apr 2026)
- Hospital Pharmacy Intern, RSUD Kota Bandung (Nov–Dec 2025).
