PROFILE

Graduated from the Pharmacist Professional Program at Airlangga University with a strong interest in pursuing a career in the pharmaceutical industry. I am a detail-oriented, adaptable, and highly motivated individual who thrives in structured and fast-paced environments. I have a strong sense of responsibility, quick to learn new systems, and enjoy working both independently and as a part of a team.

My background in student leadership and organizational involvement has sharpened my communication, coordination, and problem-solving skills. I am confident under pressure, capable of managing multiple tasks effectively, and always open to constructive feedback. I value discipline, continuous improvement, and maintaining high professional standards. With a growth mindset and a commitment to excellence, I am ready to contribute positively to a dynamic pharmaceutical team.

EDUCATION

Universitas Airlangga

Pharmacist Professional Education (apt) with a GPA 3.50/4.00

Aug 2024 - Aug 2025

Universitas Airlangga

Bachelor of Pharmacy (B.Farm) with a GPA 3.14/4.00

Sep 2020 - Jul 2024

Final Project: "Profile of Adherence to Taking Thyroid Medication in Thyroid Patients Using the Picture Pill Count

WORK EXPERIENCE

PT. Supra Ferbindo Farma – The Tempo Scan Group

Cikarang, Indonesia

Tableting Foreman

Des 2025 - Feb 2026

- Directly supervise and monitor the tableting process as well as the accuracy and suitability of the Tableting process results.
- Contribute to the preparation of weekly and monthly production schedules together with the Supervisor and Production Manager.
- Create a weekly work schedule with 3 shifts for 14 Tableting personnel.
- Arrange personnel assignments before the Tableting process begins.
- Check the completeness of raw materials and production documents before the Tableting process.
- Check and ensure the cleanliness of machines, equipment, and rooms before the Tableting process is carried out.
- Check and ensure the implementation of line clearance (process line readiness) before the Tableting process is carried out correctly.
- Coordinate with other divisions and departments to ensure the smooth running of the Tableting process, such as the Granulation division, Quality Assurance (QA) department, Quality Control (QC) department, Research and Development (R&D) department, Warehouse department, and Engineering department.
- Confirm the yield, machine hours, and man hours of the Tableting process results in the SAP (Systems, Applications, and Products in Data Processing) system.
- Contribute to OEE (Overall Equipment Effectiveness) system activities on tableting machines to comprehensively measure the performance of production machines/lines, identify production losses, and provide a basis for decision making to improve efficiency, productivity, and the implementation of Lean Manufacturing.
- Contribute to internal company audits to ensure that production processes comply with standards.

Primary Packaging Foreman

Des 2025 - Feb 2026

- Directly supervise and oversee the Primary Packaging process as well as the accuracy and suitability of the Primary Packaging process results (Semi Solid Filling, Vitamin Filling, and Stripping).
- Contribute to the preparation of weekly and monthly production schedules together with the Supervisor and Production Manager.

- Create a weekly work schedule with 3 shifts for 35 Primary Packaging personnel.
- Arrange the division of tasks among personnel before the Primary Packaging process begins.
- Check the completeness of raw materials and production documents before the Primary Packaging process.
- Check and ensure the cleanliness of machines, equipment, and rooms before the Primary Packaging process is carried out.
- Check and ensure the implementation of line clearance (process line readiness) before the Primary Packaging process is carried out correctly.
- Coordinate with other divisions and departments to ensure the smooth running of the Primary Packaging process, such as the Secondary Packaging division, Quality Assurance (QA) department, Quality Control (QC) department, Research and Development (R&D) department, Warehouse department, and Engineering department.
- Confirming the yield, machine hours, and man hours of the Primary Packaging process results in the SAP (Systems, Applications, and Products in Data Processing) system.
- Improving the process by reducing the preparation time between batches in the vitamin filling process from 60 minutes to 30-40 minutes, through the optimization of personnel task distribution, where 1 of 2 personnel prepares the product and packaging materials (pots) for the next batch before the filling process for the current batch is completed.
- Contribute to internal company audits to ensure that production processes comply with standards

Puskesmas Banyu Urip

Surabaya, Indonesia

Pharmacy Intern

Apr 2025 - May 2025
