PROFESSIONAL SUMMARY

Licensed Pharmacist (apt.) with hands-on exposure to GMP-regulated pharmaceutical manufacturing through Quality Control and Quality Assurance internships within KALBE Group, including In-Process Control (IPC), batch record review, laboratory result evaluation, deviation and gap analysis, and quality documentation review (CoA, MSDS, Batch Record). Experienced in leading and coordinating teams as a Laboratory Teaching Assistant, supervising students across four courses, delegating tasks, briefing procedures, and monitoring workplace safety compliance. Strong analytical and problem-solving foundation backed by an international peer-reviewed publication and hands-on HPLC operation. Detail-oriented, disciplined, and comfortable working with SOPs, quality standards, and cross-functional coordination; proficient in Microsoft Office, particularly Excel, for data processing and reporting.

KEY SKILLS

- **GMP & Quality Standards:** Practical understanding of Good Manufacturing Practices (GMP/CPOB) gained through internships in raw material distribution and pharmaceutical manufacturing, including CPOTB and occupational safety (K3) principles.
- **Production & Process Compliance:** Experience with In-Process Control (IPC), batch record review, SOP/Work Instruction compliance, deviation handling, and gap analysis against regulatory guidelines.
- **Leadership & People Management:** Supervised and coached student teams as a Laboratory Teaching Assistant across four courses; briefed procedures, delegated tasks, evaluated performance, and monitored safety compliance.
- **Analytical & Problem-Solving Skills:** Strong analytical foundation demonstrated through an international peer-reviewed pharmaceutical publication, Design of Experiments (DoE) research, and root-cause-oriented gap analysis work.
- **Communication & Cross-Functional Coordination:** Effective communicator, accustomed to coordinating across laboratory, production, and distribution functions.
- **Laboratory & Analytical Instrumentation:** Hands-on experience operating HPLC (High-Performance Liquid Chromatography) and conducting microbiological, chemical, and organoleptic analysis.
- **Reporting & Computer Proficiency:** Proficient in Microsoft Office (Excel, Word, PowerPoint) for data processing, reporting, and recapitulation; familiar with Design-Expert® software.
- **Discipline & Attention to Detail:** Accustomed to structured, procedure-driven work environments with strict documentation and traceability requirements.

EDUCATION

Professional Pharmacist Program — Universitas Indonesia | Graduated 2026

GPA: 3.80 / 4.00 — BAN-PT A Accreditation

Bachelor of Pharmacy (S1) — Universitas Sebelas Maret | 2021 – 2024

GPA: 3.78 / 4.00 — BAN-PT A Accreditation

High School, Mathematics and Natural Sciences (MIPA) — SMA Negeri 1 Purworejo | 2018 – 2021

WORK & INTERNSHIP EXPERIENCE

Laboratory Teaching Assistant (4 Courses) — Universitas Sebelas Maret

Higher Education | February – December 2024

- **Team Supervision & Leadership:** Guided and supervised pharmacy students across Sterile Dosage Technology, Pharmacokinetics, Semi-Solid & Liquid Dosage Technology, and Pharmacology practicums.
- **Task Delegation & Coordination:** Led pre-practicum briefings, conducted laboratory demonstrations, delegated tasks, evaluated student performance, and monitored workplace safety compliance.

Quality Assurance Intern — PT Global Chemindo Megatrading (KALBE Group)

Pharmaceutical Raw Material Distribution | February 2026

- **Quality & Compliance Assurance:** Ensured the quality and compliance of pharmaceutical raw materials throughout the distribution process in line with GMP principles.
- **Quality Documentation Review:** Reviewed quality documentation including Certificate of Analysis (CoA), Material Safety Data Sheet (MSDS), Purchase Order, Delivery Note, and Batch Record.
- **Verification & Inspection:** Performed label and packaging verification, warehouse and storage condition inspections, and quality data logging in the internal tracking system.
- **Non-Conforming Product Handling:** Handled non-conforming products in accordance with established quality procedures, including documentation and follow-up actions.

Quality Control Intern — PT Global Onkolab Farma (KALBE Group)

Pharmaceutical Manufacturing | November – December 2025

- **Process Monitoring & Compliance:** Performed In-Process Control (IPC) and batch record review to ensure product quality met GMP standards and SOP compliance.
- **Analytical Result Evaluation:** Assisted in reviewing and evaluating laboratory test data — covering microbiological, chemical, and organoleptic testing — under mentor supervision.
- **Retained Sample & Stability Program:** Managed retained samples and ran the stability testing program, including sampling, protocol preparation, and results documentation.
- **Quality System Gap Analysis:** Conducted gap analysis between internal procedures and official regulatory guidelines to support quality system improvement.

HPLC (High Performance Liquid Chromatography) Operator — Integrated Laboratory, Universitas Sebelas Maret

Research | November 2023 – February 2025

- Operated and maintained HPLC instruments to support academic research and external analytical testing.
- Performed sample preparation, chromatographic condition optimization, preventive maintenance, quantitative-qualitative analysis, and method validation.

Pharmacist Intern — RSUD Cengkareng

Hospital | March – April 2026

- Provided pharmaceutical care services: medication dispensing, patient counseling, and medication use monitoring under pharmacist supervision.
- Participated in hospital pharmacy management, including procurement planning, storage, distribution, and administrative reporting.

Pharmacist Intern — Apotek Roxy Sawangan

Community Pharmacy | January 2026

- Conducted prescription screening, standard and compounded medication dispensing, and OTC self-medication counseling.
- Managed medication inventory using the FEFO system and expiry date monitoring; handled narcotics and psychotropics reporting through the SIPNAP system.

Pharmacist Intern — Puskesmas Kalideres

Primary Healthcare Facility | October 2025

- Delivered clinical and managerial pharmaceutical services under pharmacist supervision, including prescription screening and patient counseling.
- Managed medication receiving and storage using the FEFO principle and prepared monthly LPLPO reports for the local Health Office.

ORGANIZATIONAL EXPERIENCE

Staff, Community Service Division — Pharmacy Student Association, Universitas Sebelas Maret

January 2022 – February 2023

- Organized community health programs, including free health check-ups and health education for residents of a partner village.

PUBLICATIONS & ACADEMIC ACHIEVEMENTS

- Author of a peer-reviewed publication in the Journal of Pharmaceutical Investigation on Design of Experiments (DoE)-based formulation, pharmacokinetic studies, and in-vivo evaluation of pH-targeted microparticles for ulcerative colitis therapy. DOI: <https://doi.org/10.1080/1061186X.2025.2561211>
- Member of a university research team under a government-funded Student Creativity Program (PKM), covering experimental design, analytical testing, data collection, and scientific report writing.
