Pekalongan, East Lampung

I am a fresh graduate in Pharmacist from Universitas Islam Indonesia with a solid foundation in pharmaceutical technology and clinical services. Proficient in pharmaceutical principles, including pharmaceuticals, pharmacology, and regulatory standards such as CPOB (GMP), CDOB (GDP), and CPOTB. During college, I consistently developed hard skills and soft skills through intensive internships and organizational roles. I am a detail-oriented professional with high integrity, analytical thinking, and the ability to excel both independently and in collaborative environments. I have a great interest and would like to start a career in the pharmaceutical industry, hospital, or pharmaceutical distribution.

Education Level

Islamic University of Indonesia – Sleman, D.I. Yogyakarta <i>Pharmacist Professional Program, (3.53)/4.00</i>	Aug 2024 - Aug 2025
