

Salsabila Sumantri

Registered Pharmacist | Production Operations | GMP Compliance | Continuous Improvement
+62813 8777 2001 | shillasalsabila2@gmail.com

PROFESSIONAL SUMMARY

Registered Pharmacist with internship experience in pharmaceutical manufacturing, quality assurance, pharmaceutical distribution, hospitals, and primary healthcare. Experienced in production documentation, Master Batch Record (MBR) review, SOP compliance, CAPA implementation, and quality management systems under CPOB standards. Proposed a production process improvement by establishing Lower Control Limit (LCL) and Upper Control Limit (UCL) parameters for packaging weighing to improve process consistency and quality control. Gained hands-on exposure to end-to-end liquid pharmaceutical manufacturing, including material dispensing, mixing, in-process controls, filling, and packaging operations. Strong analytical, problem-solving, and cross-functional collaboration skills with a commitment to driving production efficiency, product quality, and regulatory compliance.

EDUCATION

Universitas Indonesia - Pharmacist Professional Program | GPA: 3.71/4.00 2025 - 2026
Universitas Pembangunan Nasional Veteran Jakarta - Bachelor of Pharmacy 2019 - 2024

- **Relevant Coursework:** Quality Management Systems | Good Manufacturing Practices (CPOB/cGMP) | Pharmaceutical Regulation & Policy | Pharmaceutical Engineering | Pharmacovigilance

PROFESSIONAL EXPERIENCE

Production Staff (Packaging) Intern - PT Kalbio Global Medika (Kalbe Farma Group), Cikarang Sep - Oct 2025

- Monitored pharmaceutical production processes to ensure compliance with CPOB standards.
- Reviewed production documentation, including Master Batch Records (MBRs), to ensure documentation accuracy and batch release readiness.
- Identified production deviations and supported Corrective and Preventive Actions (CAPA) to maintain product quality and regulatory compliance.
- Assisted in SOP review, process monitoring, and continuous improvement initiatives within the production department.
- Proposed a process improvement initiative by establishing Lower Control Limit (LCL) and Upper Control Limit (UCL) parameters for packaging weighing to improve process capability, consistency, and quality control.
- Gained hands-on exposure to end-to-end liquid pharmaceutical manufacturing, including material dispensing, mixing, in-process controls, filling, and packaging operations under CPOB standards.

Pharmaceutical Distribution Intern - PT Farmasia Inovasi Megatrading, Cibinong Aug 2025

- Applied CDOB principles while maintaining documentation accuracy and regulatory compliance.
- Supported inventory control and cold chain monitoring.
- Maintained distribution documentation to ensure traceability and audit readiness.

Pharmacy Intern - Puskesmas Kalideres, West Jakarta Jul 2025

- Supported vaccination services and monitored medicine and vaccine utilization at the primary healthcare level.
- Assisted in medication inventory monitoring and documentation to support continuous medicine availability.

Hospital Pharmacy Intern - RS Universitas Indonesia, Depok May - Jun 2025

- Conducted medication reconciliation and supported therapy monitoring to improve medication safety.
- Managed documentation and reporting of narcotics, psychotropics, and vaccines in accordance with pharmaceutical regulations.

Pharmacy Service Intern - Apotek Kimia Farma Tugu, Jakarta Apr 2025

- Delivered pharmaceutical services in accordance with pharmacy operational standards.
- Assisted in medicine dispensing and medication review under pharmacist supervision.

Audiology & Medical Device Staff - PT Nobel Audiology Center Nov 2023 - Aug 2024

- Coordinated distribution of approximately 700 medical devices within two months while maintaining service quality and documentation accuracy.
- Assisted in maintaining operational and distribution documentation to support compliance with healthcare service standards.

NON FORMAL EDUCATION

Good Manufacturing Practice (GMP) Basic Training	<i>During the Internship</i>
• Introduction to GMP principles in Pharmaceutical manufacturing operations	
Good Documentation Practice (GDP) Training	<i>During the Internship</i>
• Documentation practices and data integrity in the pharmaceutical industry	
Halal Management System Training	<i>During the Internship</i>
• Halal assurance implementation in pharmaceutical manufacturing environments	
Risk Assessment and Risk Control Training	<i>During the Internship</i>
• Risk identification, assessment, and mitigation in manufacturing process	
Pharmacovigilance Awareness Training	<i>During the Internship</i>
• Introduction to adverse event reporting and post-marketing surveillance systems	
HSSE Awareness Training (ISO 140001:2015 & ISO 450001:2018)	<i>During the Internship</i>
• Awareness of environmental, occupational health, and safety management systems	
Pharmaceutical Engineering Awareness Training	<i>During the Internship</i>
• Basic understanding of engineering support in pharmaceutical manufacturing	

ORGANIZATIONAL EXPERIENCE

Vice President of Class, Pharmacy Cohort 101, Universitas Indonesia	<i>2025 - Present</i>
• Coordinated academic activities and cohort programs by collaborating with students and faculty members to ensure smooth implementation. • Facilitated communication, problem-solving, and cross-functional coordination while supporting decision-making within the cohort.	
Steering Committee - Pharmacist Oath Ceremony Cohort 101, Universitas Indonesia	<i>2025 - 2026</i>
• Coordinated the planning and execution of the Pharmacist Oath Ceremony by collaborating with students, faculty members, and external stakeholders to ensure successful event delivery. • Managed cross-functional communication, project timelines, and problem-solving throughout the preparation and implementation phases.	
SENAT Mahasiswa UPNVJ - Commission C	<i>2021 - 2023</i>
• Collected and analyzed student feedback to identify key issues, then developed proposals and recommendations to support continuous improvement. • Collaborated with university stakeholders and coordinated communication between students and management to support program implementation and evaluation.	

SKILLS

Languages	: Bahasa Indonesia (Native) English (Professional Working Proficiency)
Software	: Microsoft Office (Word, Excel, PowerPoint) Google Workspace
Technical	: Pharmaceutical Manufacturing Production Operations Good Manufacturing Practices (CPOB/cGMP) In-Process Control (IPC) Batch Record Review Documentation Control SOP Compliance CAPA Quality Assurance Process Monitoring Continuous Improvement
Soft Skills	: Communication Coordination Teamwork Analytical Thinking Attention to Detail Problem Solving Adaptability
