PROFILE

A passionate Apothecary graduate with strong management, communication, and leadership skills, developed through roles in the Student Executive Board and organizing a national scale event, Farmasi Cup. My experience spans various pharmaceutical fields, including both industrial and healthcare settings, where I have consistently applied my knowledge to create valuable innovations. These innovations have been recognized by preceptors for their impact. I am dedicated to advancing in the pharmaceutical industry, leveraging my skills to drive innovation, lead teams, and contribute to the advancement of the pharmaceutical field.

EDUCATION

UNIVERSITAS GADJAH MADA
(2023-2024)

Apothecary Professional Education - GPA 3.88

UNIVERSITAS GADJAH MADA
(2018-2023)

Bachelor of Pharmacy - GPA 3.05

Work Experiences

Production PT. Novartis

Internship Trainee (Aug 2023 – Sept 2023)

- Oversaw the process validation and cleaning validation to ensure adherence to GMP and regulatory requirements.
- Conducted ongoing Process Verification (OPV) by monitored critical process parameters and product quality attributes throughout the production lifecycle to ensure consistent performance.
- Kept track of packaging process qualification to confirm that they meet specifications for stability, safety, and functionality.

Manufacturing Science & Technology (MS&T) PT. Novartis

Internship Trainee (Jul 2023 – Aug 2023)

- Assisted in scaling up processes from R&D to full-scale manufacturing, ensuring the process is reproducible and reliable at different production volumes.
- Conducted investigations to identify the root cause of process failures or product quality issues and implement corrective and preventive actions (CAPAs).
- Created an innovation project, 'Compression Force Study,' to enhance tablet quality and consistency during production by determining the optimal compression force to meet desired specifications.

PT. Anugrah Pharmindo Lestari

Internship Trainee (May 2023 – May 2023)

- Developed strategies to optimize stock levels, reduce wastage, and minimize the risk of expired or obsolete products, especially with temperature-sensitive medications.
- Oversaw the distribution of temperature-sensitive medications (e.g., vaccines, biologics, insulin) by ensuring adherence to strict cold chain protocols during storage, handling, and transportation.
- Developed the 'e-ZRx Feature Enhancement and Calibration Optimization' innovation project, resulting in cost savings from in-house document archiving, improved time efficiency through automated letter generation, real-time product tracking, faster audits, and reduced discrepancies in customer orders.

Organization & Committee Experiences

Badan Eksekutif Mahasiswa Farmasi UGM

Staff of *Pengembangan Potensi Mahasiswa* (Feb 2020 – Feb 2022)

- Manage volleyball club and group band of approximately 25 active members for each club, by recruiting members, conducting regular training sessions, and managing the club budget to ensure members have the necessary resources and facilities.
- Planned and organized 5 faculty-scale events, such as sports tournaments, art exhibitions, and talent shows, to scout new talent and encourage student participation in club activities.
- Selected and prepared students from sports and arts clubs to represent the faculty in inter-faculty, regional, or national championships and competitions.

Farmasi Cup 2020

Security Division Coordinator (Mar 2020 – Nov 2020)

- Conducted security planning and strategy thorough risk assessment to identify potential security challenges, such as crowd control, emergency scenarios, and unauthorized access.
- Supervised security team of approximately 10 members, including internal staff, external security personnel, and volunteers, ensuring they were deployed effectively throughout the venue.
- Coordinated with local police, fire departments, and medical teams to ensure they were informed and prepared for the event. Worked with them to secure the venue, manage traffic, and handle any external threats.

Farmasi Cup 2019

Staff of Security Division (Mar 2019 – Nov 2019)

- Coordinated the flow of over than 5000 attendees, preventing overcrowding at key areas such as stage fronts, food stands, and emergency exits.
- Managed and monitored entry points to ensure orderly crowd movement during the concert. Checked tickets, IDs, and passes to prevent unauthorized access
- Patrolled the event area to maintain a safe environment, watching for any signs of disturbances, altercations, or safety hazards.

Certification

Introduction to GMP Annex 1 Course, Zamann Pharma Support, Certificate ID 907694388674

Introduction to GMP Course, Zamann Pharma Support, Certificate ID 527315266894

Introduction to Pharmacovigilance Course, Zamann Pharma Support, Certificate ID 596229429843

English Proficiency with TOEFL score 607, PT Wiyata Insan Bestari, 007399440

Webinar Farmasi Halal (Tantangan Sertifikasi Halal Untuk Obat dan Produk Kesehatan), LPPOM, 2025
