

apt. Jessey Nobelia Lorencia Aruan, S.Farm.

Jakarta Utara, DKI Jakarta | 081263243886 | jesseyaruan14@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented Licensed Pharmacist (GPA 4.00/4.00) with practical expertise in Quality Assurance and analytical laboratory methods. Proficient in GMP/CPOB compliance, internal quality inspections, retained sample management, and analytical techniques (UV-Vis & TLC). Certified in Good Laboratory Practice (GLP) with a proven track record in managing control documentation and batch records. Eager to drive quality compliance and product safety in a pharmaceutical QA/QC role.

EDUCATION

- **Universitas Sumatera Utara | Medan | 2026**
Professional Pharmacist Program | GPA: 4.00 / 4.00
- **Universitas Sumatera Utara | Medan | 2024**
Bachelor of Pharmacy | GPA: 3.38 / 4.00

PHARMACIST PROFESSION PRACTICE EXPERIENCE

PT. ABBOTT Indonesia (Quality Assurance) | 2025

- Evaluated manufacturing batch records (Manufacturing Orders & Finishing Orders) and controlled documentation to ensure full compliance with GMP (CPOB) standards for audit readiness. Managed batch records and control documents, ensuring all data are accurately documented for audit needs.
- Supported quality control and process integrity by conducting internal GMP inspections across production areas.
- Managed the end-to-end lifecycle of retained samples for raw materials, packaging materials, and finished goods according to regulatory and company standards.
- Developed a strong working knowledge of pharmaceutical manufacturing operational flows, quality management systems, and safety protocols.

PT. Marga Nusantara Jaya | 2025

- Good Distribution Practice Compliance: Applied Good Distribution Practice (GDP / CDOB) principles across all pharmaceutical warehouse operational workflows to maintain product quality and safety.
- Specialized Commodity Handling: Supervised the procurement, receiving, storage, and distribution procedures for Over-The-Counter (OTC) drugs, Controlled Substances (OOT), Precursors, and Medical Devices.
- Documentation & Administrative Control: Managed, verified, and systematically archived customer Purchase Orders (PO) and sales invoices to guarantee complete document traceability and audit readiness.
- Facility & Storage Monitoring: Conducted routine monitoring and logging of warehouse temperature, humidity levels, and sanitation to preserve product stability and ensure full regulatory compliance.
- Inventory & Quality Risk Management: Participated in warehouse stock opname audits and gained practical expertise in handling product returns and executing product recall protocols in accordance with GDP standards.

Murni Teguh Memorial Hospital (Managerial & Clinical) | 2025

- Performed prescription screening and dispensing services in outpatient care facilities, handling an average of 200 prescriptions daily.
- Delivered pharmaceutical care to high-risk inpatient ward patients to identify, resolve, and prevent Drug-Related Problems (DRPs).
- Managed pharmaceutical inventory, including storage and arrangement based on drug stability and dosage form, FEFO/FIFO principles, High-Alert Medications management, and routine stock opname.
- Prepared and packed pharmaceuticals, medical devices, and consumable medical supplies (BMHP) from the central pharmacy warehouse for distribution to clinical satellite units and satellite pharmacies.

ORGANIZATIONAL EXPERIENCE

Public Relations Officer| Berkala Ilmiah Mahasiswa Farmasi Indonesia (BIMFI) | 2023

- Managed external communication and publication of students' scientific information.
- Prepared and disseminated information regarding organizational programs and events
- Managed social media content and promotional materials to support event publicity
- Developed strong communication, teamwork, and interpersonal skills

Secretary of Health Division | UKM Inkubator Sains USU | 2022

- Coordinated administration of research proposals and entrepreneurship competitions.

GEPAMAS Volunteer | ISMAFARSI | 2022

- Educated of COVID-19 health protocols through creative content/posters.

Member of Education Division | IMATENSI USU | 2020

- Prepared summaries of academic material and conducting peer tutoring.

PROJECT

Thesis (Score A): “Determination of Retinoic Acid Levels in Night Cream That Sold in Medan City Using the Ultraviolet Spectrophotometry Method” | 2024

This descriptive research focused on identifying and quantifying retinoic acid in night creams sold across Medan City through a two-stage analytical approach. The study involved initial qualitative screening using Thin Layer Chromatography (TLC), followed by quantitative analysis by using Ultraviolet Spectrophotometry method at a maximum wavelength of 349 nm. The project demonstrated proficiency in chemical separation techniques, spectrophotometric validation, and data analysis using linear regression.

SKILLS

Technical Skills

- Regulatory & Quality Standards Compliance: Strong understanding and application of Good Manufacturing Practice (GMP/CPOB) and Good Distribution Practice (GDP/CDOB) regulations, alongside continuous monitoring of updated national pharmaceutical guidelines.
- Quality Control & Analytical Chemistry: Hands-on proficiency in analytical testing and equipment operation, including Thin-Layer Chromatography (TLC) and UV-Vis Spectrophotometry. Skilled in method validation, qualitative/quantitative screening, and data interpretation (e.g., linear regression) to ensure product quality.
- Good Laboratory Practice (GLP): Applied knowledge of laboratory safety protocols, quality management systems, and standardized analytical procedures to maintain data reliability and integrity.
- Manufacturing & Distribution Flow Process: Sound knowledge of pharmaceutical manufacturing processes, batch record/control document management, and distribution logistics—including procurement, inventory control, and storage supervision.

Software & Tools: Computer Literacy: Proficient in Microsoft Office Suite (Excel, Word, PowerPoint) for technical reporting, data analysis, and professional presentation.

Languages: Indonesian: Native Speaker, English: Professional Working Proficiency.

Soft Skills: High Attention to Detail, Strategic Planning, Data Analysis, Teamwork, and Effective Communication.

CERTIFICATIONS & LICENSES

- **Pharmacist Registration Certificate (STRA):** Issued by the Indonesian Health Council (Valid for life).
- **Academic Excellence Award:** Awarded for achieving the highest GPA of 4.00.
- **Good Laboratory Practice (GLP) 2026 – Makin Ahli (PT Makin Ahli Indonesia):** Gained comprehensive knowledge on laboratory safety, quality management, and standardized analytical procedures to support quality control and assurance.
- **Online Training Integrated Management System (IMS) 2026- PT Inter Strada Solutrindo:** Successfully completed awareness training covering ISO 9001:2015, ISO 14001:2026, ISO 45001:2018, and SMK3 PP No. 50 Tahun 2012. Developed a strong foundation in maintaining occupational health, workplace safety, environmental management, and overall product quality systems.
