Work Experience

PT Erlangga Edi Laboratories (ERELA) | Quality Control (Juni 2024 – Now)

• Apoteker | Supervisor

- Ensuring quality compliance with supervising to ensure products meet company and regulatory standards and that testing processes follow SOP.
- Leading the QC team, collaborating with production and quality assurance department to resolve quality issues, and ensuring documentation complies with regulations.
- Conducting internal audits, addressing deviations, and enhancing testing methods to ensure product safety and effectiveness.

PT. Intijaya Meta Ratna Pharmindo | Quality Assurance (Juli 2023 – Juni 2024)

• Apoteker | Supervisor

- I am a dedicated Manufacturing Pharmacist specializing in Quality Assurance & Compliance. With a strong focus on managing documentation and reporting systems (e-WAS, ePharm), I conduct comprehensive product quality reviews and data analysis (Minitab) to ensure product excellence and identify potential issues. My expertise in implementing Corrective and Preventive Actions (CAPA) ensures continuous improvement and enhancement of quality standards. I ensure product quality through effective deviation handling, finished product destruction, and risk management processes.
- As a Risk Management & Quality Systems Specialist, I excel at identifying, assessing, and controlling production risks through thorough risk assessments. I develop and implement employee training programs aimed at enhancing competency and reducing production risks. My contributions to the Quality Management System (QMS) include authoring the Site Master File and conducting production area qualifications (Grey Area) to ensure compliance with Good Manufacturing Practice (GMP).
- An experienced contributor with strong analytical skills, I have a proven track record in document control, deviation management, finished product destruction, and auditing. I analyze data to identify root causes of issues and recommend effective solutions. I present findings clearly and effectively to teams and management, driving informed decision-making and continuous quality improvement.

PT. Global Multi Pharmalab |

Internship Profession Apothecary - (February 2023 – March 2023)

PT. Aroma Kopi Krim Indonesia (Arkof) |

Analyst Quality Control - (February 2016 - January 2018)
