Executive Summary

Pharmacy graduate from Universitas Padjadjaran, currently completing the Apothecary Program, with internship experience across pharmaceutical manufacturing, quality management, drug distribution, clinical pharmacy, and laboratory analysis. Strong foundation in pharmaceutical sciences and formulation, with interest in Production, Quality Assurance, and Regulatory Affairs. Familiar with CPOB, GMP, and ISO 9001 standards, and committed to delivering compliant, evidence-based pharmaceutical solutions with professionalism and attention to detail.

Education

Universitas Padjadjaran - Apothecary Profession	2025 - present
Universitas Padjadjaran - Bachelor of Pharmacy, GPA 3.69/4.00 (<i>Cum Laude</i>)	2021 - 2025

Experiences

Apotek Kimia Farma 12 - Pharmacy Intern Apr 2026

- Reviewed and dispensed prescriptions, including compounding, medication labeling, and patient drug information (PIO).
- Delivered medication counseling for polypharmacy patients and self-medication recommendations for minor ailments.
- Managed inventory, including medication storage, distributor receiving, stock reconciliation, and stock card documentation in accordance with Good Pharmacy Practice.
- Assisted pharmacists in regulatory reporting, including SIPNAP and SIMONA submissions.

PT Millennium Pharmacon International Tbk - Pharmacy Intern Mar 2026

- Managed pharmaceutical storage activities in accordance with Good Distribution Practices (GDP/CDOB).
- Performed physical inventory verification and updated stock opname records in the inventory management system.
- Reviewed and maintained distribution documents, including purchase orders and invoices, for regulatory compliance.
- Monitored and segregated near-expiry pharmaceutical products to support effective inventory control.
- Evaluated cold chain storage and distribution processes for Cold Chain Products (CCPs) to ensure compliance with quality standards.

PT Bayer Indonesia - Stability Hub Intern Jan 2026 - Feb 2026

- Supported stability studies by performing sample handling, storage, monitoring, and stability data evaluation in compliance with GMP requirements.
- Managed stability sample storage in climatic chambers and maintained accurate monitoring records for ongoing stability studies.
- Assisted Quality Control change control activities through laboratory instrument mapping and documentation review.
- Evaluated Good Weighing Practice (GWP) implementation to ensure compliance with laboratory quality standards.
- Reviewed quality documentation, including product specification master data, verification monitoring cards, analytical data review checklists, comparative dissolution studies, and product stability data compilations.
- Contributed to SOP development by reviewing technical documentation for a newly implemented titration instrument.

RSUP Fatmawati - Pharmacy Intern

Nov 2025 - Dec 2025

- Dispensed medications, medical devices, and consumable medical supplies for inpatient and outpatient services.
- Managed medication storage and inventory, including narcotics, psychotropics, and Cold Chain Products (CCPs), with daily stock reconciliation.
- Prepared non-sterile extemporaneous formulations and Unit Dose Dispensing (UDD) medications for critical care units (ICU, HCU, ICCU, NICU, and PICU).
- Screened prescriptions, provided patient drug information (PIO), and delivered medication counseling for outpatients.
- Performed clinical pharmacy services, including SOAP/CPPT documentation, medical record review, identification of Drug-Related Problems (DRPs), and Medication Therapy Monitoring (PTO) under pharmacist supervision.
- Participated in multidisciplinary ward rounds to optimize pharmacotherapy and improve patient outcomes.

APOTALKS (Community Service) - Staff of Transportation and Logistics

Oct 2025

- Coordinated transportation and logistics to support event operations.
- Organized the loading and unloading of equipment and event materials.
- Collaborated with cross-functional teams to ensure operational readiness.

PT Mustika Ratu Tbk - Quality Assurance Intern (MSIB)

Sep 2024 - Dec 2024

- Supported Quality Assurance and Quality Control activities in compliance with GMP, CPOTB, and BPOM regulations.
- Performed quality control laboratory activities, including microbiological media preparation, bacterial inoculation, and sterilization performance qualification of ovens and autoclaves.
- Conducted SPF determination for silicone-based and water-based sunscreen formulations.
- Processed and analyzed Quality Control laboratory data, including product testing and internal water quality reports.
- Performed humidity testing and data analysis for cosmetic products, including serums and moisturizers.
- Participated in verification and calibration activities for laboratory equipment, including pH meters, analytical balances, digital balances, and UV-Vis spectrophotometers.
- Participated in GMP, Halal Assurance System (HAS 23000), BPOM regulatory, and CPOTB certification readiness training to strengthen quality management and regulatory compliance.

Faculty of Pharmacy, Universitas Padjadjaran - Pharmaceutical

Aug 2023 - Dec 2023

Microbiology Laboratory Teaching Assistant

- Performed and documented a wide range of microbiological laboratory procedures, including culture media preparation, sterilization, and routine microbiological testing, in compliance with Good Laboratory Practice (GLP).
- Prepared, maintained, and managed microbial cultures while ensuring optimal growth conditions and strict adherence to aseptic techniques to prevent contamination.
- Operated and maintained microbiology laboratory equipment, including autoclaves, laminar airflow (LAF) cabinets, and incubators, to ensure accurate and reliable laboratory operations.
- Analyzed and interpreted microbiological test data, including inhibition zone measurements and microbial growth assessments, to support pharmaceutical quality control and laboratory decision-making.
- Assessed, documented, and provided constructive feedback on the laboratory performance of 25 undergraduate pharmacy students based on established evaluation criteria and academic standards.

Pharmacopeia - Staff of Publication, Documentation, and Design Division

Dec 2023

- Designed promotional and publication materials for a national pharmaceutical competition.
- Produced visual content and documented competition activities.
- Collaborated with the committee to support event branding and communication.

Jatinangor Social Festival - Staff of Medical Division

Sep 2023

- Completed first aid training for event medical support.
- Provided on-site first aid and health assistance to event participants.
- Responded to medical incidents to ensure participant safety.

Pharmafit (Community Service) - Staff of Event Division

Apr 2022

- Planned and organized community service and blood donation events.
- Developed event schedules and rundowns.
- Coordinated and supervised event execution to ensure smooth operations.

Porsenli - Staff of Event Division

Mar 2022

- Planned and organized Pekan Olahraga, Seni, dan Lingkungan (Porsenli) events.
- Developed event schedules and rundowns.
- Coordinated event execution to ensure smooth operations.

Medication - Staff of Fundraising Division

Feb 2022

- Developed fundraising strategies to achieve event funding targets.
- Collaborated with sponsors and partners to secure financial support.
- Coordinated fundraising activities with internal teams to ensure successful event execution.

Project of Action: Quinapril - Staff of Fundraising Division

Dec 2021

- Developed fundraising strategies to achieve event funding targets.
- Collaborated with sponsors and partners to secure financial support.
- Coordinated fundraising activities with internal teams to ensure successful event execution.
