Graha Cinere, Jl. Kuta Raya D4 No. 22, Limo, Kota Depok, Jawa Barat.

Chemical Engineering graduate with strong interest in manufacturing operations, process analysis, and industrial coordination. Equipped with knowledge in production operations, process engineering, and data analysis. Detail-oriented and analytical with experience in operational monitoring, technical reporting, and engineering analysis. Motivated to contribute to improving operational efficiency, process quality, and coordination within manufacturing environments.

Work Experiences

PT. Perusahaan Listrik Negara – Depok

Feb 2024 - Apr 2024

Staff Health Safety Environment Intern

- Assisted in monitoring operational activities and ensuring workflow compliance with safety procedures within industrial operations.
- Collected and organized operational data to support internal reporting and coordination processes.
- Supported implementation of occupational safety procedures to ensure smooth operational activities.

PT Cadfem Indonesia – Jakarta

Sep 2024 – Dec 2024

Computational Fluid Dynamics (CFD) Trainee

- Conducted engineering simulations and analysis technical data to support engineering problem solving.
- Prepared structured technical reports and ensured accurate documentation of simulation results.
- Collaborated with project teams to complete engineering tasks according to project timelines.

PT Dompot Anak Bangsa (GoPay) – Semarang

Jan 2023

Part-Time Field Staff

- Supported field operational activities and ensured tasks were completed according to company procedures.
- Delivered accurate information to customers while maintaining service and performance standards.
- Worked in a target-oriented environment requiring coordination and responsibility.

Education

Universitas Negeri Semarang – Semarang

Aug 2021 – Jul 2025

Bachelor of Chemical Engineering

- GPA : 3.50/4.00
- Areas of knowledge : Process Engineering, Industrial Management, Engineering Economics.

Organisation Experiences

Chemical Engineering Research Club – Semarang

Jun 2022 – Jul 2023

- Assisted in budget planning and maintained financial documentation.
- Coordinated with internal teams and external partners to support sponsorship activities.

Ability

- **Hard Skills** : Production planning & scheduling (basic understanding), Inventory monitoring, Proses analysis, Operational data, Microsoft Excel (pivot, basic formula, VLOOKUP, IF, SUMIF)
- **Soft Skills** : Analytical thinking, Detail-oriented and reliable, Good communication and coordination, Problem solving.

Training & Certification

Production Planning & Inventory Control (PPIC) Training - Online

Mar 2026
