Bandung

A fresh graduated Apothecary with an interest in Quality Assurance (QA) and regulatory affairs. Proven experience through internships in QA Product Integrity (Product Quality Review/PQR) and at BPOM. I am a detail-oriented individual who adapts quickly and thrive both independently and within teams.

Education Level

Universitas Islam Bandung - Indonesia <i>Certificate in Apothecary, 3.91/4.00</i>	Feb 2025 - Apr 2026
Universitas Islam Bandung - Indonesia <i>Bachelor of Pharmacy, 3.67/4.00</i>	Sep 2020 - Jul 2024

Work Experiences

RS Hermina Arcamanik - Bandung <i>Intern</i> - Participated in sterile compounding (IV admixture dispensing) by applying aseptic techniques within the Laminar Air Flow (LAF) facility under the supervision of a senior pharmacist. - Evaluated and analyzed over 150 prescriptions for potential physicochemical incompatibilities, dosage accuracy, and drug interactions, demonstrating critical thinking and pre-formulation analysis skills. - Processed and analyzed data for SIPNAP and PPRA to support hospital infection control and eliminate stock discrepancies.	Oct 2025 - Nov 2025
Badan Pengawas Obat dan Makanan RI - Jakarta <i>Intern</i> - Evaluated 4 product registration dossiers, encompassing formulas, manufacturing methods, Certificates of Analysis (CoA), and safety data, to ensure compliance with pre-market regulations. - Conducted a gap analysis and comparative review of ISO 23675, ISO 23698, and ISO 24444 standards regarding clinical trial methodologies for sunscreen products to establish validation benchmarks for efficacy claims. - Evaluated 3 commercial advertising to ensure alignment between marketing messages and approved efficacy claims, thereby preventing misleading information. - Analyzed scientific journals and Real-World Data (RWD) to evaluate the completeness of clinical trial protocol elements, enhancing competencies in product trial.	Sep 2025
PT. Enseval Putera Megatrading Tbk - Bandung <i>Intern</i> - Analyzed temperature mapping data in cool and ambient rooms, evaluating thermal fluctuations to validate that storage conditions comply with product stability profiles. - Evaluated the temperature of CCP (Cold Chain Product) shipping containers by monitoring transit temperature profiles to ensure product integrity and regulatory compliance during distribution. - Screened and verified over 100 regulatory documents (invoices and purchase orders), specifically for psychotropics and precursors, ensuring compliance with pharmaceutical administrative standards. - Served as an Internal Audit Team member alongside the Pharmacist-in-Charge (APJ) to conduct risk-based compliance audits at high-volume pharmacies, mitigating the risk of drug diversion.	Aug 2025
Apotek Griya Farma - Bandung <i>Intern</i> - Conducted a Pareto (ABC) analysis on pharmaceutical inventory based on investment value and turnover rates to optimize inventory levels, mitigate stockout risks, and minimize holding costs. - Screened and reviewed 75 prescriptions to ensure compliance with administrative requirements and analyzed therapeutic trends to forecast demand. - Developed a comprehensive feasibility study for a new pharmaceutical facility, covering regulatory requirements, operational risk management, and financial projections. - Designed and produced scientific educational materials including a podcast on halal labeling for alcohol-containing medications and a poster on antihistamine safety in pregnancy to enhance drug information services.	Jul 2025
PT Darya - Varia Laboratoria Tbk - Citeureup <i>Intern</i> Compiled Product Quality Review (PQR) reports for 7 products to evaluate process consistency and compliance with starting	May 2025 - Jun 2025

materials, packaging, and finished product specifications, identifying quality trends for continuous process improvement.

- Drafted and reviewed Critical Process Parameter (CPP) forms for 8 products to ensure manufacturing processes consistently met established drug quality standards.
- Collaborated with Release Pharmacists in auditing and reviewing batch records to ensure full compliance prior to product release.
- Applied the Why-Why Analysis method to investigate and determine the root cause of manufacturing deviations for Quality Deviation Review (QDR) documentation.

Universitas Islam Bandung (UNISBA) - Bandung

Sep 2024 - Jan 2025

Laboratory Assistant – Pharmacognosy Practicum

- Prepared crude drug materials, reagents, and powder samples required for student analysis during practical sessions.
- Guided students in crude drug preparation, slide preparation, and proper microscope techniques for microscopic observation.
- Explained practical modules and facilitated group discussions to enhance student understanding.

Universitas Islam Bandung (UNISBA) - Bandung

Feb 2023 - Jul 2024

Laboratory Assistant – Pharmaceutical Botany Practicum

- Guided students in identifying the morphology, anatomy, and determination/classification of medicinal plants.
- Prepared laboratory materials, including fresh or preserved plant specimens and chemical reagents.
- Explained practical modules and facilitated group discussions to enhance student understanding.

Organisational Experience

Mitra Perpustakaan UNISBA

Sep 2022 - Feb 2024

Vice President

- Initiated and managed the 'Library On The Spot' program to effectively boost student engagement and daily library visits.
- Educated students on library facilities to optimize information dissemination and improve literacy access.
- Assisted in managing library collections to ensure the fulfillment of students' academic and literacy needs.

Skills

- **Hard Skills** : Product Quality Review (PQR) | Product Registration | Cosmetics Notification | Laboratory Instruments: HPLC, UV-Vis Spectrophotometry, FTIR | Microsoft Office (Excel, PowerPoint, Word)
