PROFESSIONAL EXPERIENCE

PT. SANBE FARMA – PADALARANG, WEST JAVA

January-February 2024

Production Intern

- Supported **sterile pharmaceutical production trials** and manufacturing activities in the Small Volume Parenteral (SVP) department in accordance with **GMP, CPOB, and ISO 9001** requirements.
- Conducted two technical studies evaluating the **maximum filter sterilization cycle** based on integrity testing and visual observation, and the **maximum sterilization cycle for jumpsuits and booties** based on garment quality.
- Analyzed study findings and contributed recommendations for **process and SOP improvement** related to filter management and garment washing in sterile production.
- Supported **flushing trials**, coordinating with **5+ sterile production operators** to ensure proper execution and adherence to established procedures.
- Reviewed and revised production **SOPs**, conducted **facility and equipment readiness checks**, and supported corrective actions to maintain process compliance.
- Conducted literature reviews on **L-Tryptophan and L-Proline** to gather data for production purposes and support **R&D development projects**.
- Implemented **5S and optimized airlock room layouts** to improve workflow efficiency and minimize contamination risks; completed cross-functional induction in **PPIC, QA, QC, and Warehouse**.

RS PUSAT ANGKATAN DARAT (RSPAD) – CENTRAL JAKARTA

March-April 2024

Clinical Pharmacist Intern

- Handled 1,000+ outpatient prescriptions daily with high accuracy in a fast-paced environment.
- Analyzed Drug-Related Problems (DRPs) and proposed solutions through collaboration with healthcare

professionals, ensuring optimized pharmacotherapy and patient safety. Findings were presented as case studies within the hospital to enhance clinical decision-making and interdisciplinary communication.

- Evaluated response times for 15+ outpatient prescription services, collaborated with healthcare colleagues to identify improvements, and implemented a new program that enhanced efficiency, optimized workflow, and improved patient service quality.
- Successfully reduced expired medicines by 50% by regularly checking the safety of medicine storage and its expiry date.

PT. RAJAWALI NUSINDO – PADANG, WEST SUMATERA

November 2023

Distribution Pharmacist Intern

- Implemented Good Distribution Practices (GDP/CDOB) directly within the distribution facility.
- Responsible for the preparation of product orders.
- Documented and organized sales and purchase invoices.

APOTEK KIMIA FARMA – PADANG, WEST SUMATERA

October 2023

Pharmacist Intern

- Provided self-medication services, patient counseling, and drug information services.
- Compounded medications, screened, and dispensed prescriptions.
- Assisted the supervising pharmacist in planning the procurement of medicines and medical devices.
- Monitored drug inventory and ensured proper storage according to standards.

LABORATORY ASSISTANT

Faculty of Pharmacy, Andalas University – PADANG, WEST SUMATERA

• **Immunology and Serology** (September-December 2022) • **Pharmacotherapy of Gastrointestinal, Respiratory, Joint, and Bone Diseases** (September-December 2022) • **Quantitative Pharmacy** (March-June 2022)

- Supervised **25 students** during weekly laboratory sessions throughout the semester, ensuring adherence to laboratory procedures, safety requirements, and scheduled activities.
- Coordinated communication between lecturers and students and evaluated student performance based on practical sessions, reports, and examinations.
- Prepared equipment and materials as needed for laboratory activities.
- Evaluated students based on their performance in practical sessions, reports, pretests, post-tests, and final exams.

ORGANIZATIONS AND COMMITTEES

BEM KM FF UNAND

2021

Treasurer, Department of Women's Empowerment

- Managed departmental finances, including budgeting, tracking income/expenses, and preparing reports to ensure transparency and accountability.
