SUMMARY

Industrial Engineering graduate from Atma Jaya Yogyakarta University with 5 years of experience in PPIC within the manufacturing industry. Skilled in production planning, inventory management, demand forecasting, and manufacturing data analysis using ERP systems and excel. Proven ability to enhance planning accuracy and material efficiency through effective stock control and waste reduction. Experienced in cross-functional collaboration to ensure smooth production processes and achieve operational targets.

EDUCATION

Universitas Atma Jaya Yogyakarta
Bachelor of Industrial Engineering

Sleman, DI Yogyakarta
2014 - 2019

WORK EXPERIENCE

PT Prokemas Adhikari Kreasi

Bekasi, West Java

PPIC Group Leader

August 2024 - Present

- Prepare monthly manufacturing reports covering inventory levels, material requirements, and waste trim analysis using Microsoft Excel to provide analytical insights to supervisors.
- Analyze production and sales data to identify demand trends and support strategic decision-making in raw material planning.
- Collaborate with marketing and sales teams to gather market trend and customer demand data, facilitating accurate forecasting of raw material needs for efficient inventory management.
- Manage stock availability and raw material delivery schedules regularly to ensure smooth production flow and optimize factory productivity.
- Manage and monitor team operations, optimizing productivity and resources to achieve organizational goals.

Achievement:

- Implement a production performance monitoring system with periodic evaluations, increasing the utilization of lower-grade raw materials to 88%, surpassing the company target of 80%.

PT Prokemas Adhikari Kreasi

Bekasi, West Java

PPIC Staff

February 2021 - August 2024

- Managed raw material inventory for finished goods production using an ERP system, planning daily material requirements for 1-2 days of production.
- Processed raw material orders from suppliers based on production needs and customer specifications.
- Monitored and controlled warehouse stock levels to prevent shortages and excess inventory.

Achievement:

- Identified orders with trim waste exceeding 1.4% and collaborated with cross-functional teams to design and implement waste reduction strategies, successfully decreasing production waste.

PT Sarihusada Generasi Mahardika

Klaten, Central Java

Intern

June 2018 - August 2018

- Completed assigned projects within established deadlines under mentor supervision.
- Handled administrative tasks including document filing and data entry into the company system.
- Coordinated with team members to support operational activities throughout the internship.

ACADEMIC PROJECT

Uniqlo

Yogyakarta, DIY

Survey Team Member

April 2018

- Collected location and demographic data from five potential areas for a new Uniqlo outlet in Yogyakarta.
- Conducted face-to-face interviews with over 100 respondents to analyze consumer preferences in the target regions.
- Prepared a market research report with strategic location recommendations based on field data.
