Bachelor of Pharmacy from Institut Teknologi Bandung with experience across pharmaceutical manufacturing, market access, distribution, hospital, and public healthcare sectors. Experienced in coordinating cross-functional projects, vendor onboarding, supplier collaboration, procurement-related documentation, supporting day-to-day operations, and stakeholder management. Adept at collaborating with internal teams and external partners to ensure project alignment, operational efficiency, and regulatory compliance. A detail-oriented and adaptable professional with strong analytical and communication skills.

EDUCATION

Institut Teknologi Bandung

Apothecary (3.91/4.00)

August 2025 – 2026

Institut Teknologi Bandung

Bachelor of Clinical and Community Pharmacy (3.52/4.00)

August 2020 – 2024

SMAN 1 Depok

Mathematics and Natural Science

2017 – 2020

WORK EXPERIENCE

Astrazeneca Indonesia

Dec 2024 – Jul 2025

Market Access Intern

- Supported the implementation and operational management of 9 Patient Affordability & Accessibility Programs (PAPs) across oncology from implementation, to post-launch monitoring. Coordinated with third-party distributor (APL), hospitals, and pharmacies to manage Purchase Order (PO) approvals
- Coordinated the launch of 3 new Patient Access Programs (Fasenra, Tezspire, and Koselugo) by managing implementation timelines, cross-functional deliverables, operational readiness, and stakeholder alignment.
- Collaborated with 6+ internal functions—Medical, Pricing, Procurement (Indonesia & Regional), Compliance, Legal, and Commercial—to align project objectives, obtain approvals, and resolve operational issues throughout the project lifecycle.
- Managed coordination with multiple external stakeholders, including Yayasan Kanker Indonesia (YKI), Anugerah Pharmindo Lestari (APL) as the logistics and distribution partner, Digitala as the IT solution provider, hospitals, pharmacies, and Medical Representatives.
- Supported vendor sourcing, evaluation, qualification, and onboarding for newly established Patient Access Programs by coordinating procurement requirements, commercial agreements, and implementation readiness with internal Procurement teams and external vendors.
- Contributed to the design and operational implementation of patient affordability strategies, including promotional mechanisms, discount schemes, eligibility criteria and facilitated the development and approval of program identity, including program names, logos, patient communication materials, and educational resources.
- Coordinated the preparation, review, and execution of controlled documentation, including Standard Operating Procedures (SOPs), Memoranda of Understanding (MoUs), implementation workflows, third-party agreements, operational guidelines, and supporting documents to ensure standardized program execution.
- Supported risk management activities involving Third-Party Risk Management (3PRM), vendor due diligence, and Nominated Signatory approval prior to program implementation.
- Tracked project milestones, monitored implementation progress, maintained project documentation, and prepared operational reports, stakeholder reporting, and continuous process improvement across all PAPs.

PKPA - PT Meprofarm

Sep 2025 – Oct 2025

- Conducted a Value Stream Mapping (VSM) project covering the end-to-end sterile pharmaceutical manufacturing process, from raw material sampling to finished product sampling.
- Analyzed material and process flow to identify non-value-added activities and identify process bottlenecks.
- Gained comprehensive exposure to sterile manufacturing operations, including raw material sampling, dispensing, weighing, sterile mixing, aseptic filling, sterilization, finished product sampling, and secondary packaging.
- Developed an understanding of critical quality control checkpoints in accordance with Good Manufacturing Practices (GMP/CPOB) and Standard Operating Procedures (SOPs).
- Performed batch record review and laboratory documentation in compliance with GMP/CPOB.
- Gained hands-on experience with aseptic techniques, sterile compounding, laboratory equipment, sample preparation, UV-Vis spectrophotometry, and HPLC.
- Gained exposure to sterile manufacturing support systems, including cleanroom operations, environmental controls, sterilization processes, and contamination prevention principles.

PKPA - PT Teknologi Medika Pratama SwipeRX Indonesia**March 2026**

- Performed incoming inspection of pharmaceutical products by verifying product specifications, supplier documentation, purchase documents, batch numbers, expiry dates, and packaging integrity before warehouse acceptance.
- Supported inventory reconciliation and stock verification activities by comparing physical inventory with Warehouse Management System (WMS) records to maintain inventory accuracy and product traceability.
- Coordinated with warehouse and quality teams to support receiving, storage, and inventory control activities in compliance with Good Distribution Practice (GDP/CDOB).
- Verified supplier and purchasing documentation to ensure product compliance, traceability, and timely inventory availability.

PKPA - Dinas Kesehatan Jawa Barat**November 2025**

- Developed a comprehensive understanding of Indonesia's pharmaceutical regulatory framework, including regulations issued by the Ministry of Health (MoH) and BPOM governing pharmaceutical products, medical devices, and household health products.
- Gained knowledge of regulatory compliance related to product registration, marketing authorization, labeling requirements, distribution standards, and post-market surveillance.
- Studied government policies and regulatory procedures supporting pharmaceutical procurement, supply chain management, inventory control, quality assurance, and documentation within public healthcare systems.
- Learned the regulatory principles underlying pharmaceutical governance, including risk-based licensing, regulatory reporting, and compliance monitoring for healthcare facilities.
- Developed an understanding of vaccine cold chain management, quality monitoring systems, and pharmaceutical logistics to ensure product quality, safety, and regulatory compliance.

PKPA - Rumah Sakit Immanuel**Jan 2026 – Mar 2026**

- Prepared and dispensed medications in accordance with hospital SOPs and pharmaceutical regulations.
- Performed prescription screening and medication verification to ensure dispensing accuracy and patient safety.
- Prepared extemporaneous pharmaceutical formulations while maintaining product quality and documentation accuracy.
- Conducted visual inspection of pharmaceutical products before dispensing.
- Maintained inventory records, monitored stock availability, and performed expiry date monitoring using the FEFO principle.
- Provided medication counseling and drug information to patients and healthcare professionals.

PKPA - Apotek UPT Layanan Kesehatan ITB**April 2026**

- Performed medication verification and dispensing activities in accordance with pharmacy regulations, SOPs, and Good Pharmacy Practice.
- Conducted product inspection by verifying product identity, batch numbers, expiry dates, and packaging condition prior to dispensing.
- Prepared extemporaneous pharmaceutical formulations while ensuring product quality, accuracy, and compliance with established procedures.
- Maintained inventory accuracy through stock monitoring, FEFO implementation, expiry date inspection, and routine inventory control.
- Recorded dispensing and inventory activities accurately while maintaining complete pharmaceutical documentation.

**Pharmacology & Toxicology Laboratory Assistant
Clinical Medical Biochemistry Laboratory Assistant
Pharmacology & Toxicology II Laboratory Assistant****Aug 2023 – Dec 2024**

- Prepared reagents, standards, and biological samples for pharmacology, toxicology, and clinical biochemistry experiments.
- Performed in vitro and in vivo pharmacological testing, including animal handling, drug administration, sample collection, and experimental observations.
- Operated laboratory instruments, including UV-Vis spectrophotometer, centrifuge, analytical balance, micropipettes, pH meter, water bath, vortex mixer, and hot plate stirrer.
- Conducted biochemical assays, analyzed experimental data, and interpreted test results according to laboratory protocols.
- Applied aseptic laboratory techniques, maintained laboratory documentation, and ensured compliance with GLP and laboratory safety procedures.
- Recorded, verified, and processed laboratory data with high accuracy using Microsoft Excel.
- Supported students in performing laboratory techniques and maintaining proper laboratory practices.

ORGANIZATION EXPERIENCE

Head of Licensing Division

May - July 2022

Wisuda Juli 2022 - ITB

- Coordinated licensing and administrative requirements for large-scale events
- Communicated with multiple external and internal parties to ensure smooth event execution

Cadre Development Division Staff

Jan 2023 - July 2023

Himpunan Mahasiswa Farmasi Ars Praeparandi - ITB

- Participated in evaluating member performance during recruitment and training processes

HONORS AND AWARDS

Top 3 Regional Winners in AstraZeneca Project iDEA 2023 | [Certificate](#)

Project Idea 2023 - AstraZeneca

- Recognized as a Top 3 Regional Winner for co-developing an innovative web-based platform to improve CKD awareness among Generation Z through personalized kidney health risk assessment based on lifestyle and individual risk factors. Presented the project to an international panel of judges during the regional competition.

First Winner of Astrazeneca Project iDEA 2023 | [Certificate](#)

Project Idea 2023 - Astrazeneca Indonesia

- Recognized as First Winner in Indonesia for developing an innovative web-based platform to increase CKD awareness among Generation Z through personalized kidney health risk assessment based on lifestyle and individual risk factors. Represented Indonesia at the regional competition and presented the project to an international panel of judges.

SKILLS SUMMARY

Technical Competencies

Good Manufacturing Practice (GMP/CPOB), Good Distribution Practice (GDP/CDOB), Standard Operating Procedures (SOP), Documentation & Document Control, Vendor Management, Process Improvement (Value Stream Mapping)

Professional Competencies

Vendor Sourcing & Management, Supplier Qualification, Stakeholder Management, Cross-functional Collaboration, Contract & Documentation Management, Analytical Thinking, Attention to Detail, Project Coordination, Problem Solving, Time Management

Language

Bahasa Indonesia (native), English (intermediate)

Software

Microsoft Office (advance), Minitab (intermediate), Adobe Lightroom, Adobe Photoshop, Veeva, DocuSign

Hobbies

Photography, Hiking, Traveling
