SUMMARY PROFILE

As a committed fresh graduate student in Marine Transportation Engineering at Institut Teknologi Sepuluh Nopember, I am passionate about advancing my skills in the maritime industry. My academic foundation in port design, shipping, logistics, and supply chain management, combined with internships has equipped me with practical experience in ship operations and port logistics. With a solid academic foundation, I bring strong adaptability and teamwork skills. I am eager to tackle new challenges, committed to continuous growth, and driven to excel in the dynamic maritime industry.
