

SHAULI NUR SAVITRI

Pharmacist | Analytical Development

Bandung, Indonesia | +62 89-9227-5556 | shauli.nur.savitri@gmail.com

PROFESSIONAL SUMMARY

Licensed pharmacist with more than 4 years of experience analytical development. Skilled in method development for sterile dosage forms and instrumental analysis (GC, LC, AAS, spectrophotometry, Conventional Analysis), and cross-functional project coordination.

EXPERIENCE

Research and Development Analytical Staff, *PT. Sanbe Farma*

Aug 2021 – Present

- Lead literature reviews and method-selection discussions (pharmacopeial compendia and peer-reviewed research) to determine analytical methods for raw materials and sterile dosage forms, including infusions, injections, dry injections, and ophthalmic preparations.
- Support a portfolio in the range of 30 development projects, of which 10 are under active analytical development
- Coordinate with formulation, quality control, purchasing, and external suppliers to keep projects on schedule.
- Supervise a team of 2 analysts running experimental analyses on HPLC, UPLC, potentiometry, AAS, GC, LC, polarimetry, and spectrophotometry instrumentation, delivering results against project deadlines.
- Authored around 10 Standard Operating Procedures for equipment operation and finished-product/raw-material inspection per year, improving consistency and audit-readiness across the analytical lab.
- Maintain calibration and documentation for close to 10 laboratory instruments, ensuring 100% compliance with internal quality guidelines.

Quality Staff, *PT. Sterilyn Halal Indonesia*

Oct 2020 – Aug 2021

- Reviewed and updated Standard Operating Procedures, ensuring alignment with quality standards for 1 product lines.
- Verified incoming raw materials and monitored in-process production quality, supporting on-time release of finished products.
- Prepared documentation for new product registration and Halal certification, contributing to 3 successful submissions.

Intern, Solid Production, *PT. Caprifarmindo Laboratories*

Oct 2019 – Nov 2019

- Mapped personnel and material flow in the production area to reduce contamination risk; assessed clearance-line safety and hygiene standards.
- Studied granulation, coating, and tablet-press operations, including punch/die maintenance, and produced a Quality Risk Management analysis for solid-dosage production as part of the Professional Pharmacist Practice Internship.
- Created Change Control documentation for SOP modifications to support consistency and compliance.

SHAULI NUR SAVITRI

Pharmacist | Analytical Development

Bandung, Indonesia | +62 89-9227-5556 | shauli.nur.savitri@gmail.com

Intern, PT. Kimia Farma Trading and Distribution, Jakarta 1

Aug 2019

- Analysis stock-taking and sales-flow processes to improve inventory accuracy and demand alignment.
- Validated cold-chain delivery systems and mapped storage temperature conditions to protect product quality.
- Proposed an electronic documentation tool to streamline workflows and enable real-time process tracking.

Intern, PT. Kimia Farma Apotek

Jul 2019

- Screened prescriptions for legal and medical compliance and managed stock inventory to prevent shortages.
- Delivered drug information and counselling services to patients on proper medication use and interactions.
- Conducted a customer satisfaction analysis of BPJS services at Kimia Farma Pharmacy 43 (Buah Batu, Bandung), identifying service-improvement opportunities as part of the Professional Pharmacist Practice Internship.
