ABOUT

Fresh graduate pharmacist with experience in laboratory-scale formulation development, including sterile dosage form design through academic laboratory work. Skilled in literature-based formulation planning, excipient selection, and basic formulation evaluation. Possesses understanding of GMP, GLP, and Quality by Design. Highly motivated to develop expertise and contribute as a Formulation Staff in pharmaceutical product development.

EDUCATION

Apothecary Professional Degree, Universitas Sumatera Utara - GPA: 4.00 (Dean's List Awardee) - Internships: Apotek Marita, Puskesmas Glugur Kota, Enseval Putera Megatrading Tbk, Rumah Sakit Umum Haji Medan, Lafiau Roostyan Effendie (Production, Quality Control, Quality Assurance, & Research and Development)	Aug 2024- Aug 2025
Bachelor of Pharmacy, Universitas Sumatera Utara - GPA: 3.27 - Academic Experience: Laboratory Assistant in Sterile Dosage Form Technology and Compounding Pharmacy - Awards 1st Place – National Essay Competition (RXPO USU 2023), Finalist – National Pharmacy Counseling Competition (Pharmadays UGM 2023)	Sep 2020 – July 2024

COURSE AND TRAINING

Production Supervisor, by Latih ([Link](#))
Overview of Sterile Production in the Pharmaceutical Industry, by Jadi Praktisi ([Link](#))
Penyelia Halal, by Latih
Fullstack Intensive Pharmaceutical Industry: Good Manufacturing Practice (CPOB), Quality Assurance (QA), Quality Control (QC), Production, Supply Chain/PPIC, Research & Development, by Jadi Praktisi ([Link](#))
Memahami Proses Implementasi Change Control & Corrective Action Preventive Action (CAPA), by Jadi Praktisi ([Link](#))
Strategi Uji Bioekuivalensi (Uji BE) Produk Farmasi sesuai Regulasi, Jadi Praktisi ([Link](#))

SELECTED WORK EXPERIENCES

INTERN PHARMACIST - Production, Quality Assurance, & Quality Control, Research and Development, Lembaga Farmasi Angkatan Udara Roostyan Effendie 1. Production - Conducted simulated placebo tablet production at pilot scale, including line clearance, in-process control (IPC), Master Batch Record documentation, and handling deviation - Conducted a case study in the production area and proposed Corrective and Preventive Action (CAPA) 2. Quality Assurance - Learned about pharmaceutical industry regulations, certification processes, and drug registration requirements. - Observed equipment cleaning procedures and sampling processes for cleaning validation in the cephalosporin production facility - Observed monitoring and qualification of critical utilities (HVAC, water treatment system, air compressors). 3. Quality Control - Learned sampling procedures of raw materials, intermediates, bulk, and finished products. - Conducted accelerated and long-term stability testing of the capsule dosage forms at 6 months 4. Research and Development - Learned the upscaling process from laboratory formulation to pilot and production scale - Optimized paracetamol syrup formulation; formulated and produced energy drink powder and non-pharmaceutical products	Maret - April 2025
Laboratory Assistant of Sterile Dosage Form Technology, Universitas Sumatera Utara - Coordinated and supervised laboratory scheduling for three classes, - Guided 100+ pharmacy students in designing sterile dosage form formulations (injectables & ophthalmic products) through literature-based formulation planning, including excipient selection, tonicity adjustment, and stability considerations - Supervised laboratory-scale sterile compounding activities in accordance with Good Laboratory Practice (GLP) principles, ensuring adherence to SOPs, aseptic techniques, sterilization processes, in-process evaluation, packaging, and proper documentation - Successfully coordinated the OSCE as the final laboratory exam for students.	Aug 2023 – July 2024

ORGANIZATION AND VOLUNTEERING EXPERIENCE

Data Center Team at Mini War Room Medan - Kompas TV Presidential Election Quick Count	Feb 24
Assisted 49 interviewers across Sumatra in resolving data upload issues on KoboCollect via Telkom calls	
Deputy Secretary - Islamic Student Association (UKMI), Ath-Thibb, Faculty of Pharmacy, Universitas Sumatera Utara	Feb 23 – Apr 24
- Handled 100+ incoming and outgoing official correspondences in collaboration with the Secretary - Successfully organized 5 major events involving 100+ participants	
Member of the Education Department - Islamic Student Association (UKMI), Ath-Thibb, Faculty of Pharmacy, Universitas Sumatera Utara	Apr 21 – Jan 23
- Developed and managed a question bank of 100+ items to support pharmacy students in exam preparation. - Organized and facilitated OSCE mentoring sessions for 10+ practical courses	
Member of the Education, Culture, and Sports Department - Pharmacy Student Association, Faculty of Pharmacy, Universitas Sumatera Utara	Oct 21 – Nov 22

SKILLS

- Good Manufacturing Practices (CPOB) - Good Laboratory Practice (GLP) - Quality By Design - Problem-solving - Communication skills - Teamwork
