## PROFESSIONAL SUMMARY

Professional Pharmacist student at Universitas Indonesia with a Bachelor's Degree in Pharmacy (GPA 3.92/4.00), expected to obtain pharmacist qualification in August 2026. Possess academic and professional internship experience across pharmaceutical manufacturing and distribution, supported by leadership experience in student organizations. Demonstrated strengths in analytical thinking, problem-solving, continuous improvement, and cross-functional collaboration.

## EDUCATION

**Universitas Indonesia** | Depok, Indonesia

Professional Pharmacist Program

Aug 2025 – Now

- Expected obtain pharmacist qualification in August 2026.
- Completed professional rotation in healthcare and pharmaceutical industry.

**Universitas Sriwijaya** | Indralaya, Indonesia

Bachelor of Pharmacy

Aug 2021 – Apr 2025

- GPA: **3.92/4.00**
- Relevant coursework: Pharmaceutical Technology, Pharmaceutical Manufacturing, Quality Assurance, Pharmaceutical Analysis, Biopharmaceutics and Pharmacokinetics.

## PROFESSIONAL INTERNSHIP EXPERIENCE

**PT. FARMASIA INOVASI MEGATRAIDING** | Bogor, Indonesia

Professional Pharmacist Program Internship

Feb 2026

- Supported in the storage and distribution processes of pharmaceutical raw materials to manufacturing facilities, ensuring product integrity and traceability.
- Assisted in reviewing import documentation for pharmaceutical raw materials sourced from China and India to support regulatory compliance and supply continuity.
- Contributed to the company's halal assurance preparation by supporting the implementation of halal requirements in storage and distribution activities.
- Gained practical exposure to pharmaceutical distribution and quality management systems in compliance with Good Distribution Practices (GDP/CDOB).

**PT. SOHO INDUSTRI PHARMASI** | Jakarta, Indonesia

Professional Pharmacist Program Internship

Nov 2025 – Dec 2025

- Led an individual continuous improvement project to address bottlenecks in the packaging process to streamline production flow and improve operational efficiency.
- Conducted literature reviews and technical documentation to support product quality, process safety, and compliance with pharmaceutical manufacturing requirements.
- Coordinated and organized an internal improvement presentation event, ensuring smooth execution and effective communication among stakeholders.
- Gained exposure to pharmaceutical manufacturing workflows and production systems in compliance with Good Manufacturing Practices (GMP/CPOB).

## LEADERSHIP EXPERIENCE

---

**Student Association President** | Pharmacy Program, Universitas Sriwijaya Feb 2024 – Feb 2025

- Led the student association and coordinated multiple academic and non-academic programs.
- Oversaw planning, execution, and evaluation of organizational activities.
- Developed communication, leadership, and problem-solving skills through managing teams and organizational challenges.

## RESEARCH EXPERIENCE

---

**Undergraduate Research Project** | Pharmacy Program, Universitas Sriwijaya

Stability and Skin Permeation Evaluation of Transfersomal Serum Containing Red Onion (*Allium cepa* L.) Peel Extract

- Designed and developed transfersomal serum formulations containing red onion peel extract.
- Conducted stability testing and in vitro permeation studies using Franz Diffusion Cell to evaluate product performance.
- Performed scientific literature reviews and prepared technical documentation and research reports.

## TEACHING AND LABORATORY ASSISTANT EXPERIENCE

---

**Laboratory Assistant – Pharmacology** | Universitas Sriwijaya

Jan 2023 – Apr 2023

- Assisted in facilitating pharmacology practical sessions for undergraduate pharmacy students.
- Guided students in experimental procedures, data interpretation, and report preparation.
- Supported laboratory activities and ensured compliance with laboratory safety procedures.
- Collaborated with lecturers and fellow assistants to ensure effective practical sessions.

**Laboratory Assistant – Biopharmaceutics and Pharmacokinetics** | Universitas Sriwijaya

Aug 2024 – Dec 2024

- Facilitated practical sessions involving drug dissolution, pharmacokinetic analysis, and biopharmaceutical principles.
- Assisted students in data analysis and interpretation of experimental results.
- Supported laboratory preparation and maintained laboratory equipment and materials.
- Strengthened communication and mentoring skills through interactions with students and faculty members.

## SKILLS

---

### Technical Skills

- Good Distribution Practices (GDP/CDOB)
- Good Manufacturing Practices (GMP/CPOB)
- Warehouse Operations
- Inventory Control
- Pharmaceutical Supply Chain
- Pharmaceutical Manufacturing Principles
- Process Improvement

### Analytical Skills

- Data Analysis
- Statistical Analysis
- Experimental Design
- Scientific Literature Review

### Analytical Skills

- Microsoft Excel (Pivot table, charts, data analysis)
- Microsoft Word
- Microsoft PowerPoint
- Minitab
