PROFILE SUMMARY

Driven pharmaceutical sciences graduate with extensive hands-on experience in pharmaceutical manufacturing. Expert in advanced laboratory techniques, stringent quality control, and sterile production, backed by deep GMP knowledge. Precision-focused in regulatory documentation and dedicated to ensuring uncompromising product quality and safety.

PROFESSIONAL EXPERIENCES

Laboratory Instructure of Solid Dosage Forms - University of Muhammadiyah Malang

Feb 2025 - Feb 2026

- Supervised and facilitated hands-on laboratory sessions in solid dosage formulation and quality control, ensuring high levels of student engagement and technical proficiency.
- Delivered comprehensive training in pharmaceutical technology, formulation techniques, and Good Manufacturing Practice (GMP) standards.
- Authored detailed lab manuals, maintained and calibrated laboratory equipment, and upheld strict safety and compliance protocols to support an optimal learning environment.

Quality Assurance (Compliance) Internship - PT Otsuka Indonesia

Mar 2023 - Sep 2023

- Strengthened quality compliance by meticulously reviewing production and process records, ensuring alignment with regulatory and organizational standards, resulting in a 15% reduction in non-compliance incidents.
- Ensured data integrity through document verification and cross-checking for accuracy and completeness, minimizing discrepancies by 20% and supporting seamless operations.
- Enhanced audit effectiveness by actively participating in 5+ internal audits annually, identifying improvement opportunities, and driving readiness for 100% compliance in external evaluations.
- Addressed quality gaps by identifying 10+ non-conformances and collaborating on impactful corrective and preventive actions (CAPA) that led to a 25% improvement in operational excellence.
- Bolstered supplier reliability by assisting in 20+ vendor audits per year, assessing compliance, and providing critical insights that resulted in a 50% improvement in supplier performance.
- Supported halal product registration by preparing required documentation, coordinating with certification bodies, and ensuring 100% compliance with halal standards across 3 product lines.

Synthesis Laboratory Assistant - University of Muhammadiyah Malang

Oct 2022 - Jan 2023

- Delivered expert guidance and leadership to students, ensuring flawless execution of laboratory procedures and fostering a culture of safety and precision in a dynamic learning environment.
- Proactively resolved technical issues, implementing efficient solutions to prevent disruptions, enhance operational continuity, and maximize learning outcomes.
- Transformed laboratory management by maintaining a highly organized, safety-compliant environment and introducing workflow optimizations that elevated efficiency and supported hands-on educational excellence.

APOTHECARY PROFESSIONAL PRACTICES

Pharmacist Internship - PT Sakajaja Makmur Abadi

Oct 2024 - Oct 2024

- Organized and archived over 500+ invoices and purchase orders monthly, categorizing them by type, date, and invoice number to ensure data accuracy and easy retrieval.
- Verified 500+ invoice and purchase order documents each month, ensuring compliance with pharmaceutical regulations by checking drug names, quantities, and pharmacist authorization, significantly reducing administrative errors.
- Monitored warehouse workflow and handled goods receipt from suppliers by verifying the accuracy between delivered items and accompanying documents, supporting smooth pharmaceutical distribution.

Production Internship - PT Ferron Par Pharmaceuticals

Aug 2024 - Sep 2024

- Drove production efficiency by optimizing operations, enforcing rigorous GMP compliance, and proactively resolving process inefficiencies to enhance output quality.
- Integrated OEE monitoring into production workflows to identify bottlenecks, maximize equipment utilization, and minimize downtime.

- Elevated quality assurance standards through comprehensive quality control checks and precise in-process monitoring, achieving significant error reduction and consistent product excellence.
- Revolutionized documentation practices by implementing robust record-keeping systems, swiftly addressing discrepancies, and introducing improvements that boosted data integrity and audit readiness.

Pharmacist Internship - Erma Farma Pharmacy

Jun 2024 - Jul 2024

- Served an average of 10 compounded and non-compounded prescriptions daily, including prescription review, medication preparation, and patient counseling, resulting in an 85% increase in therapy adherence.
- Assisted in managing 200+ types of medications through stock card updates, routine stock opname, expiry date monitoring, and proper storage based on therapeutic category. Ensured accurate goods receipt by verifying invoices, batch numbers, and expiry dates, maintaining optimal medication availability.
- Proficient in handling narcotics and psychotropics reporting via SIPNAP, including stock recapitulation and proper disposal in compliance with regulations.
- Conducted counseling for 5+ patients on the safe use of special medications, reducing the risk of inappropriate usage.

Pharmacist Internship - UPT. Puskesmas Dinoyo

May 2024 - May 2024

- Served 60+ patients daily in prescription reception, assessment, compounding, and provided Counseling, Information, and Education (CIE) on medication use, improving patient adherence to therapy.
- Assisted in managing 40+ types of medications and medical supplies, including stock opname, temperature monitoring, stock card updates, and applying the FEFO principle, effectively reducing expired medication use and minimizing stock loss.
- Prepared and distributed medications for HIV-AIDS, TB, immunization programs, and Emergency Kits, and educated 10+ elderly patients and health communities on medication use and non-conventional therapies, enhancing patient understanding of treatment.

PROJECTS

Evaluation of Quality Management System (QMS) Implementation Related to Internal Audit at PT Otsuka Indonesia

Mar 2023 - Sep 2023

- Led the evaluation of internal quality audits at PT Otsuka Indonesia, ensuring full compliance with GMP and ISO 9001:2015 standards while leveraging trend analysis to drive impactful quality improvements and optimize performance.

Screening Activity of Resveratrol Liposome Formulation as a Tyrosinase Inhibitor via in Silico Analysis

Sep 2022 - Jan 2023

- Conducted a comprehensive in silico analysis of resveratrol's efficacy as a tyrosinase inhibitor, uncovering critical insights that advanced its potential application in groundbreaking cosmetic formulations.

International Harvest Farm Day

Oct 2021 - Oct 2021

- Contributed to a national food security campaign by designing impactful educational content for Instagram, effectively raising awareness and engaging a broad audience.

EDUCATION

Pharmacist Professional Education Program (apt.)

Feb 2024 - Apr 2025

University of Muhammadiyah Malang

- Specialization in Pharmaceutical Science

Bachelor of Pharmacy (B.Pharm)

Sep 2019 - Nov 2023

University of Muhammadiyah Malang

ADDITIONAL INFORMATION

- **Technical Skills:** GLP Standard, Laboratory Techniques, Chemical Analysis, Scientific Documentation, GMP Standard, ISO 9001, ISO 14001, Quality Audit, CAPA, UV/VIS Spectrophotometry, Chromatography, Data Integrity, Microsoft Office, Medical Writing
- **Languages:** English, Indonesia, German, Malay, Javanese, Madurese
- **Certifications:** Central Sterile Supply Department, Cosmetic Research and Development, Research and Development in Pharmaceutical Industries, Regulatory Export and Import in Industry, Medical Writing
