## PROFESSIONAL PROFILE

Pharmacist graduate from Universitas Padjadjaran with experience across pharmaceutical manufacturing, research, healthcare services, and organizational leadership. Experienced in GMP/CPOB-compliant manufacturing operations, OEE and downtime analysis, process improvement, pharmaceutical distribution, and evidence-based research. Recognized as Most Outstanding Student of the Faculty of Pharmacy 2024, with demonstrated strengths in analytical thinking, problem-solving, project management, and cross-functional collaboration. Eager to contribute to the pharmaceutical industry through continuous improvement, innovation, and data-driven decision-making.

---

## EDUCATION

### Apothecary Profession Program / Apoteker (Cum Laude)

August 2025 - August 2026

Padjadjaran University

GPA : 3.83/4.00

### Bachelor of Pharmacy (Cum Laude)

August 2021 - June 2025

Padjadjaran University

GPA : 3.57/4.00

Selected Honors:

- Most Outstanding Student Faculty of Pharmacy 2024
- Summer Research Program Participant (Online Course) – University of Tsukuba Institute of Medicine

---

## PROFESSIONAL EXPERIENCE

### Production Internship at PT Bayer Indonesia, Cimanggis

January - February 2026

- Analyzed pharmaceutical packaging operations across blistering, coding, cartoning, bundling, and secondary packaging while reviewing manufacturing workflows, production documentation, and operational controls in compliance with GMP/CPOB standards.
- Conducted OEE and downtime analysis across two blister packaging lines using 12 months of production data, identifying key productivity losses, operational bottlenecks, and a 6.9% performance gap through Pareto Analysis and Root Cause Analysis (5 Whys).
- Developed data-driven process improvement recommendations with cross-functional production teams, focusing on manpower optimization, SMED-based changeover improvement, condition-based maintenance, and process control enhancement to support operational excellence.

### Pharmacist Intern at Apotek Kimia Farma Bandung, West Java

April 2026

- Supported pharmaceutical care services, patient counseling, drug information provision, and evidence-based health promotion activities while assisting daily pharmacy operations.

### Pharmacist Intern at PT Millenium Pharmacon International Tbk Bandung, West Java

March 2026

- Supported pharmaceutical distribution activities under Good Distribution Practice (CDOB), including inventory control, cold-chain monitoring, quality assurance, and handling of temperature-sensitive pharmaceutical products.

### Pharmacist Intern at RSUD Kota Bandung, West Java

November - December 2025

- Participated in medication therapy monitoring, identification of drug-related problems, multidisciplinary ward rounds, and antimicrobial stewardship analysis using ATC/DDD and WHO AWaRe methodologies.

### Research Internship at Herbal Research Center, Universitas Padjadjaran

August 2024 - February 2025

- Conducted toxicological and pharmacological research on herbal extracts, including biological sample preparation, safety evaluation, and in vitro anti-inflammatory assays.
- Performed literature reviews, data analysis, and scientific interpretation to support evidence-based research findings and contributed to scientific reporting and publication development.

### Laboratory Assistant of Biotechnology & Biochemistry, Universitas Padjadjaran

February - June 2025

- Supported molecular biology and biochemistry laboratory sessions, including DNA/RNA isolation, PCR, RT-PCR, agarose gel electrophoresis, SDS-PAGE, experimental preparation, troubleshooting, and biosafety compliance.
