

APT. STEFANI NURI ALVITA, S.FARM

08977400202 | stefanialvita@gmail.com | linkedin.com/in/stefani-nuri-alvita-apt

Yogyakarta, Indonesia

Licensed Pharmacist (Apoteker), Cum Laude, seeking a Technical Support Staff role. Hands-on experience across quality assurance, process validation (OPV), CAPA & deviation handling, regulatory affairs, and sterile/parenteral compounding, with strong working knowledge of CPOB/GMP and CPKB standards. Comfortable preparing and evaluating technical documents (trial forms, memos, IK/CP) and coordinating cross-functionally to support product trial, reformulation, and technology transfer activities for solid, liquid, and sterile dosage forms.

WORK EXPERIENCE

PT Nulab Pharmaceutical Indonesia - Tangerang, Indonesia

Sep 2025 - Oct 2025

Quality Assurance — Process Validation (PKPA)

- Independently planned and executed On-going Process Verification (OPV) protocols and scheduled trial/verification activities across production batches
- Monitored and recorded Critical Process Parameters (CPP) & Critical Quality Attributes (CQA) per batch to ensure compliance with CPOB/GMP and CPKB standards
- Led OOS/OOT investigations and prepared root cause analysis and deviation reports
- Reviewed post-production batch records and identified process trends to support continuous improvement
- Prepared, compiled, and submitted CAPA reports and supporting documentation for process deviations to prevent recurrence
- Applied quality documentation principles (forms, technical memos) directly aligned with cosmetic and pharmaceutical manufacturing standards

Balai Besar Pengawas Obat dan Makanan (BBPOM) Yogyakarta - Yogyakarta, Indonesia

Jan 2025 - Feb 2025

Regulatory Affairs Intern (PKPA)

- Analyzed the regulatory framework for drugs, cosmetics, and processed food under BPOM standards, with focus on product safety requirements
- Studied CPOB/CPKB (Good Manufacturing Practice) implementation as the primary quality standard for pharmaceutical and cosmetic manufacturing in Indonesia
- Reviewed supervision mechanisms for narcotics, psychotropics, and precursors in pharmaceutical distribution
- Gained direct insight into BPOM's product registration process and post-market surveillance activities

Rumah Sakit Panti Rapih Yogyakarta - Yogyakarta, Indonesia

Nov 2025 - Dec 2025

Hospital Pharmacy Intern (PKPA)

- Performed TPN (Total Parenteral Nutrition) calculation and cytostatic compounding under aseptic conditions for sterile preparations
- Conducted parenteral preparation and sterile compounding in compliance with pharmaceutical quality standards
- Provided inpatient and outpatient pharmaceutical services, including prescription screening and Drug Use Evaluation (DUE)
- Applied K3 (Occupational Health & Safety), infection control, and patient safety quality-improvement principles

PT Kebayoran Pharma - Yogyakarta, Indonesia

May 2025 - Jun 2025

Pharmaceutical Distribution Intern (PKPA)

- Verified incoming pharmaceutical products through document checking (CoA, invoice, delivery order) to ensure product quality and authenticity
- Managed warehouse operations in compliance with GDP standards, including cold chain and temperature-controlled storage
- Processed narcotics and psychotropics reporting in accordance with BPOM regulations
- Handled product returns and damaged/expired goods management procedures

Apotek Unisia 24 Taman Sari - Yogyakarta, Indonesia

Mar 2025 - Apr 2025

Community Pharmacy Intern (PKPA)

- Performed prescription screening (administrative, pharmaceutical, and clinical aspects) and drug dispensing
- Managed drug procurement, receiving, and storage using FIFO/FEFO systems in compliance with storage standards
- Documented narcotics and psychotropics reporting through the SIPNAP system in compliance with BPOM regulations

Puskesmas Kasihan 1 - Bantul, Indonesia

Jul 2025 - Aug 2025

Primary Healthcare Pharmacy Intern (PKPA)

- Performed drug planning using consumption and epidemiology methods to ensure optimal drug availability
- Managed LPLPO (Drug Usage & Request Report) documentation and drug distribution to sub-units
- Monitored drug storage, expiry management, and distribution to healthcare sub-units
