A Pharmacy graduate currently pursuing a Professional Pharmacist degree at the University of Indonesia, with internship experience across manufacturing, distribution, and healthcare facilities. Familiar with working in regulated environments, documentation practices, and compliance with pharmaceutical quality standards. Detail-oriented, analytical, and motivated to build a career in pharmaceutical industry functions such as product development, regulatory affairs, quality assurance, and quality control.

Work Experiences

Puskesmas Kecamatan Cakung - Jakarta, Indonesia

Oct 2025

Apothecary Internship

- Delivered primary-care pharmacy services for 30–50 patients daily, covering prescription screening, dispensing, and patient counseling for acute and chronic conditions.
- Supported priority public health programs (TB DOTS, HIV, Hepatitis, and immunization) through patient services, education, and therapy monitoring.
- Assisted in pharmaceutical supply management, compliance screening, and pharmacovigilance, including documentation review, storage compliance, and ADR reporting via e-MESO.

Apotek Roxy - Jakarta, Indonesia

Sep 2025

Apothecary Internship

- Performed comprehensive prescription screening, including administrative, pharmaceutical, and clinical checks to ensure safe and rational medication use.
- Conducted patient counseling on proper medication use, side effects, drug interactions, storage, and adherence.
- Managed dispensing workflows, from receiving prescriptions to preparing, labeling, and delivering medications in accordance with standards.
- Supported pharmaceutical supply management, including inventory control, stock rotation, handling of high-alert medications, and managing returns/expired stock.

RSUP Persahabatan - Jakarta, Indonesia

Jul 2025 - Sep 2025

Apothecary Internship

- Gained comprehensive exposure to clinical pharmacy services, including prescription screening, medication review, drug information services, and patient counseling.
- Assisted in evaluating medication histories, laboratory results, and therapy plans, helping identify and prevent drug-related problems.
- Participated in ward-based pharmacy activities and multidisciplinary discussions to support safe and rational drug use.
- Strengthened pharmacy management skills, covering procurement, inventory control, storage, and distribution of medications in accordance with hospital standards.
- Contributed to quality and safety programs, including pharmacovigilance reporting and monitoring medication errors.

PT. Dankos Farma - Jakarta, Indonesia

May 2025 - Jul 2025

Apothecary Internship

- Assisted in the preparation and review of qualification protocols and reports for production and packaging equipment in accordance with CPOB (GMP) requirements.
- Gained hands-on exposure to the end-to-end pharmaceutical manufacturing process, including production, packaging, and quality-related activities in a regulated environment.
- Supported GMP documentation practices, including controlled documents and compliance records.
- Developed a strong understanding of GMP principles, quality systems, and regulatory compliance within pharmaceutical manufacturing operations.

PT. Teknologi Medika pratama (Swiperx) - Depok, Indonesia

Apr 2025 - May 2025

Apothecary Internship

- Gained practical experience in the pharmaceutical and medical device distribution process, from product receipt, quality checking, storage, documentation, to order fulfillment.
- Assisted in verifying incoming pharmaceutical and medical device products to ensure compliance with CDOB and CDAKB standards, including temperature monitoring, product condition inspection, and documentation accuracy.
- Supported inventory management, stock rotation, warehouse organization, and preparation of outbound deliveries to maintain product quality and traceability.
- Learned key aspects of regulatory compliance, supply chain control, and distribution quality systems in a regulated environment.

Education Level

Universitas Indonesia - Indonesia

Jan 2025 -

Bachelor Apothecary, 3.83/4.00

Universitas Islam Bandung - Indonesia

Sep 2020 - Aug 2024

Bachelor Pharmacy, 3.69/4.00

- Conducted thesis research on solid-state modification of glimepiride to improve solubility and dissolution rate; the study was published in a Scopus Q2 journal.
- 2nd Place, Indonesian Debate Competition – Inter-Faculty Debate at Universitas Islam Bandung (UNISBA).
- 1st Place, UNISBA Student Creativity Program Awards – Contributed to developing a PKM research proposal submitted to the Ministry of Education and Culture.

Organisational Experience

Pharmacy Student Association (HIMAFAR)

Oct 2022 - Sep 2023

Head of Arts and Sports Division

- Led and coordinated arts and sports programs to enhance student engagement and foster a dynamic campus environment.
- Supervised committees and collaborated with other divisions to plan and execute large-scale events and activities.
- Managed budgeting, logistics, and program evaluation to ensure effective and well-organized division operations.

Skills, Achievements & Other Experience

- Publication** (2024): Published a scientific article titled “The Solid State Modification for Solubility Enhancement of Practically Insoluble Glimepiride: A Systematic Review” in the Journal of Pharmacy and Pharmacognosy Research (Scopus Q2), demonstrating strong research capability in pharmaceutical sciences and solid-state modification techniques.
- Hard Skills:** Basic knowledge of CPOB, WHO GMP, ICH, and EU GMP guidelines, CDOB & CDAKB compliance, documentation & record control, data review & reporting, pharmaceutical manufacturing process (basic), pharmacovigilance reporting (e-MESO), supply chain & inventory control, scientific writing & data analysis
- Soft Skills:** attention to detail, analytical thinking, compliance-oriented mindset, time management, teamwork & cross-functional communication, adaptability, responsibility
