

NARESWARI PARAMITHA RESWARA

Chemical Analyst

+62 877 5101 5020 | nares.paramitha@gmail.com | [linkedin.com/in/nareswari-paramitha-reswara](https://www.linkedin.com/in/nareswari-paramitha-reswara) | Pandan Valley Blok AB9/1, Salabenda, Bogor, Indonesia

A graduate from a 4 years Bogor Vocational High School that majors in analytical chemistry such as conventional, instrumental, and microbiology analysis. Have an eagerness to expertise and develop a career in analytical chemistry field, supported with national certified competencies issued by LSP-P1 SMK-SMAK Bogor and have experience in laboratory for professional . Actively involved in school organizations, committees, and extracurriculars, focusing on self-development and experiences to improve leadership, critical thinking and teamwork skill.

EDUCATION

Bogor Vocational High School of Chemical Analyst (SMAKBO)

2021 - 2025

Major in Analytical Chemistry

- Average knowledge score : 85.56/100
- Average skills score : 86.13/100

SKILLS AND COMPETENCIES

Technical Skills & Competencies

Certificates of Competencies from LSP-1 SMAKBO:

- HPLC
- UV-Vis Spectrophotometry
- Gas Chromatography (GC)
- FTIR
- Atomic Absorption Spectrophotometry (AAS)
- Karl Fischer Analysis
- Volumetric Analysis
- Sampling
- Microbiological Analysis
- Proximate Analysis
- Electrochemistry & Non-Instrumental Physical Analysis
- Gravimetric Analysis

International Certificate of All-Round Laboratory Technician Level III by VAPRO International (CREBO 91730)

Computer Skills

- Google Workspace
- Canva
- Microsoft Office
- Adobe Photoshop

Languages : Indonesian (native/bilingual proficiency) | **English** TOEIC ETS (810)

Soft skills : Good Laboratory Practices (GLP), Good Manufacturing Practices (GMP), leadership, team work, strategic thinking, analytical thinking, innovative, communicative, adaptive, responsible, time management, discipline, and high desire to learn.

WORKING EXPERIENCE

PT Petrokimia Gresik (Internship) - Gresik, East Java

January - April 2025

Laboratory Analyst / Quality Control Analyst

Conducted chemical and physical analysis by both conventional and instrumental methods for approximately 115 fertilizer samples each week referring to the applicable standard for the samples and perform the instrument validation.

PT Trix Indonesia - Karawang, West Java

July 2025 - Present

Laboratory Analyst

Conduct chemical and physical analysis of samples for plating formula, manage laboratory administration, data execution, equipment and instruments. Take part in some research and development within chemical analysis and perform the instrument calibration and validation referring to the international standard.

PROJECT WORK

Integrated Chemistry Project

October-December 2024

Synthesis and Analysis of Probiotic Beverages from Pineapple Skin and Cinnamon Extract

A project that is held for last semester students of SMK-SMAK Bogor. The project includes innovating products by specific rubric, formulating, and analyzing the product based on the applicable standard. The analysis includes chemical, microbiological, physical, sensory, and business feasibility. The process of the probiotic production includes bacteria culturing, media preparation, incubation, and finished goods formulation referring to the product standard values based on the test and analysis.

ORGANIZATIONAL EXPERIENCE S

Persatuan Pelajar SMK-SMAK BOGOR

2022 - 2023

Member

Innovating and organizing programs in education, art, and sport categories by collaboration with various sponsorship.

PASKAL SMK-SMAK Bogor

2022 - 2023

Vice Leader

Coordinating and assisting the organization held many programs relating to religious activities for Christians and non-Moslem students.

Public Relation - SOC SMK-SMAK Bogor

February 2022

Staff

Tailoring and inviting sponsorships to contribute the event and managing financial flows coordinating with the treasurer by held an internal enterprise.

TRAININGS AND SEMINARS

- CAPA and Root Cause Analysis in Pharmaceutical Industry Training *January 2026*
- Cara Pembuatan Obat yang Baik (CPOB) Training *July 2025*
- HACCP, ISO 22000:2018, FSSC 22000 Training *July 2025*
- Authorized Gas Tester and Gas Detector - PT Surya Segara Hana *May 2025*
- ISO/IEC 17025:2017 Training *May 2025*
- Sampling in Industry - Guru Tamu Seminar - SMAKBO *May 2025*
- GMP - Guru Tamu Seminar - SMAKBO *May 2025*
- QHSE - Guru Tamu Seminar - SMAKBO *February 2025*
- Kaizen - Silver Expert - SMAKBO *December 2024*
- Validation and Calibration - Silver Expert - SMAKBO *December 2024*
- Achievement Motivational Training - SMAKBO *2nd - 5th October 2024*
