Fresh graduate S1 Pharmacy (GPA 3.49) combining expertise in laboratory analysis with experience in pharmaceutical services. Possesses experience as a laboratory assistant across various pharmaceutical disciplines including instrumental analysis (HPLC, UV-Vis, FTIR) and as an intern assistant pharmacist at a Community Health Center (Puskesmas), handling medication management and patient education. Backed by strong leadership and communication skills gained through organizational experience, ready to contribute professionally across various sectors of the pharmaceutical industry and healthcare services.

EDUCATION

Muhammadiyah Bandung University | 2022 – 2026

Bachelor of Pharmacy (S1)

GPA: 3.49/4.00

WORKING EXPERIENCES

Laboratory Assistant – Phytochemistry | (Oct 2025 – Feb 2026)

Muhammadiyah Bandung University

- Conducted and supervised extraction and phytochemical screening processes to identify secondary metabolites from natural sources.
- Identified compound classes based on characteristics and phytochemical test results.
- Assisted in interpreting test results and ensured analytical procedures were carried out according to established protocols.
- Reviewed journals and laboratory reports, and evaluated test results.

Laboratory Assistant – Instrumental Pharmaceutical Analysis | (Nov 2025 – Jan 2026)

Muhammadiyah Bandung University

- Carried out and guided analysis using UV-Vis, HPLC, and FTIR laboratory instruments according to work procedures.
- Assisted in the interpretation of analysis results and understanding the working principles of instruments for characterization of pharmaceutical materials/samples.
- Examined journals and practicum reports and evaluated the accuracy of procedures and analysis results.
- Ensured laboratory activities were carried out in accordance with work procedures and laboratory safety principles.

Laboratory Assistant – Pharmaceutical Technology of Solid | (May 2025 – July 2025)

Muhammadiyah Bandung University

- Guided the preformulation and manufacturing process of solid pharmaceutical preparations based on material characteristics and formulation objectives.

- Helped determine and evaluate dosage quality parameters according to specified requirements.
- Assisted in problem analysis during the formulation process and provided direction in solving problems.
- Examined journals and practicum reports and evaluated preparation test results.

Pharmacy Assistant Intern | (Aug 2024 – Sept 2024)

Wado District Public Health Center (Puskesmas Kecamatan Wado)

- Assisted in preparing and dispensing medications for patients according to prescriptions.
- Assisted with medication inventory management, including stock checking and monitoring.
- Assisted in proper medication storage according to applicable procedures.
- Provided basic drug information and instructions for medication use to patients.
- Participated in providing medication education to students at local schools.
- Maintained accuracy, organization, and compliance with pharmacy procedures.

Laboratory Assistant – Organic Chemistry | (May 2024 – July 2024)

Muhammadiyah Bandung University

- Guided the execution of reactions and the synthesis of organic compounds based on laboratory procedures.
- Assisted in the identification and characterization of reaction products and the interpretation of experimental results.
- Evaluated the accuracy of procedures and practical work results based on fundamental organic chemistry principles.
- Reviewed laboratory journals and reports, and evaluated experimental results.

ORGANIZATIONAL EXPERIENCES

Volunteer – Event Division | (Mar 2024)

Pharmacy Student Association, Muhammadiyah Bandung University

- Assisted in planning and organizing social service activities at a social institution.
- Coordinated with the team to ensure activities ran smoothly and according to schedule.
- Supported the implementation of activities and interacted with participants.
- Developed teamwork, communication, and organizational skills.

Volunteer & Mentor – Department Orientation Committee | (Oct 2023 – Nov 2023)

Pharmacy Student Association, Muhammadiyah Bandung University

- Served as a mentor to guide and assist new students during the department orientation program.
- Coordinated with committee members in preparing and conducting the event.
- Assisted in ensuring the activities were well organized and ran according to the schedule.
- Developed strong communication, teamwork, and leadership skills.

SKILLS

Languages: Indonesian (Native), English (Intermediate)

Software: Microsoft Office (Word, Excel, PowerPoint)

Hard Skills: HPLC, UV-Vis Spectrophotometry, FTIR, Solid Dosage Formulation, Phytochemical Extraction & Screening, Organic Synthesis, Drug Dispensing, Inventory Management, Good Laboratory Practice (GLP)

Soft Skills: Leadership & Mentoring, Patient Education, Analytical Thinking, Problem Solving, Team Collaboration, Interpersonal Communication, Event Coordination
