PROFILE

An apothecary with strong interest in pharmaceutical industry such as Quality Control. Possesses strong analytical skills, high adaptability, and a strong eagerness to learn. Experienced in research projects involving acne patch formulation and evaluation, as well as nanoemulsion formulation with antioxidant activity testing. Served as a lecture assistant in Sterility and Pharmacognosy, with understanding of GMP, GDP, CPOB, CDOB, USP, and FI through the academic coursework and professional experience.

EDUCATION

UNIVERSITY OF JEMBER

Apothecary

GPA: 3.95/4.00 (Summa Cum Laude)

CBT UKMPPAI: 80.5/100

UNIVERSITY OF JEMBER

Bachelor of Pharmacy

GPA: 3.63/4.00 (Cum Laude)

Jember

Feb 2025 – May 2026

Jember

Aug 2021 – Jan 2025

PROFESSIONAL EXPERIENCE

PT. PFIZER INDONESIA

Quality Control Microbiology Compliance Intern

- Conducted Environmental Monitoring and utility trend analysis using a Microsoft Excel for 3 samples and 3 areas in Q3 2025. Result: Increasing review efficiency by 45%, minimizing manual data errors by 60%, and ensuring sustained GMP compliance.
- Developed job aids for 15 pharmaceutical excipients through direct coordination with microbiology analysts. Result: Reducing procedural misinterpretation by 35% and improving laboratory consistency.
- Monitored qualification, calibration, and preventive maintenance of 15 instruments through physical inspection of label completeness and condition. Result: Ensured 100% calibration traceability and compliance with GMP standards.
- Assisted audit for BPOM and Johnson & Johnson. Result: Ensured 100% traceability of documents.

Jakarta

Sep 2025 – Oct 2025

PT. TRI SAPTA JAYA

Pharmacy Intern

- Conducted inventory cycle counts. Result: Ensured 95% data matches between physical quantities and stock cards.
- Received purchase orders (SP) from outlets, and grouped sales invoices. Result: Maintaining complete documentation compliance and reduced SP related issues by 30%.
- Temperature mapping for product. Result: Ensured 100% daily recording compliance, supporting GDP standard and preventing temperature excursion incidents.

Surabaya

Apr 2025 – May 2025

ORGANIZATIONAL EXPERIENCES

Laboratory Assistant of Compounding Sterile Preparation

- Instructed 20 students across 4 shifts during practicum. Evaluated the laboratory journal before the practicum and ensured the comprehensiveness.

Jan 2025 – May 2025

Laboratory Assistant of Pharmacognosy**Aug 2024 – Dec 2024**

- Instructed 25 students on pharmacognosy practicum, including use of microscopes, analyzing chemistry such as histochemistry and thin-layer chromatography tests, and operating the UV Chamber.

UKMF KARISMA (Student Research)**Des 2023 – Des 2024****Advisory Board**

- Supervised 70+ members and administrators of UKMF KARISMA and provided recommendations to the Daily Management Board on management operations and curriculum development.

MENTOR**Sep 2023–Nov 2023****Galenica Mini Competition**

- Mentored 12 new students, leading them to achieve 1st place in the faculty level competition
- Conducted PKM (Program Kreativitas Mahasiswa) mentoring sessions and reviewed proposals and presentation materials, providing structured feedback to improve quality and clarity

LANGUAGE, SKILLS, ACHIEVEMENTS, AND CERTIFICATION

- **Languages:** Indonesian (Native proficiency), English (Limited working proficiency).
- **Soft Skills:** Attention to detail, leadership, problem solving, initiative, teamwork, communication, adaptability, analytical thinking,
- **Technical Skills:** Environmental Monitoring, Trend Analysis, Statistics, Ms. Word, Ms. Excel/Spreadsheet, Ms. PowerPoint, Canva.
- **Functionary Scholarship Awardee 2024:** Actively contributed to organizational development.
- **Top 4 Finalist Scientific Papers Competition Phacific at UNDIP 2024:** Contributed to innovative and well structured ideas to the team in complex problem solving situations.
Title: Napolion Innovation: Watermelon Seed Extract Lotion Nanoparticles (*Citrullus lanatus*) as a Drug Candidate for MPOX Disease
- **Recipients of the Village Student Service Program Grant 2024:** Contributed to the successful execution of the program event.
Title: GOKARI Program (Gerakan Kontrol Kalori) as Prevention and Wise Management of Diabetes Mellitus in Pakusari Village
- **PKM RE Funded 2023:** Actively contributed to project planning, implementation, teamwork, and commitment to achieving project success.
Title: Formulation of Acne Patch from Watermelon Rind (*Citrullus lanatus*) as an Antibacterial Against Acne
- **Certification:**
 1. Toefl Score: 607 (March 2025).
 2. Basic Student Management Skills Training (LKMM-TD): Grade A.
 3. Pharmaceutical Leadership Forum (PPLF): Grade A.

Viki Amelia Putri

Registered Pharmacist

Hi,

I am **Viki**, currently based in Sidoarjo, East Java.

Registered Pharmacist with a strong interest in clinical pharmacy and pharmaceutical research such as QA, QC, R&D, Production, and Responsible Pharmacist roles. Highly analytical, adaptable, and eager to learn in dynamic healthcare environments. Experienced in research projects, including acne patch formulation and nanoemulsion with antioxidant testing, and gained hands-on exposure through the Professional Pharmacist Practice Rotations in clinical pharmacy services and healthcare workflows. Served as a lecture assistant in Sterility and Pharmacognosy, with knowledge of regulatory standards such as GMP, GDP, CPOB, CDOB, USP, and FI.

[Click here to explore details](#)

Pharmacist in Primary Healthcare (Puskesmas)

- ✓ Performed prescription screening, drug preparation, labeling, dispensing, and patient education (KIE) to ensure safe medication use.
- ✓ Managed Once Daily Dose (ODD), IGD & VK floor stock, and conducted inpatient visits with SOAP documentation in CPPT.
- ✓ Provided TB patient counseling and supported promotive–preventive programs through GeMa CerMat about Pneumonia.
- ✓ Assisted SIMKES management.

Key Takeaways

- ✓ Importance of Medication Counselling and Treatment Adherence
- ✓ Quality Improvement in Primary Healthcare
- ✓ Community Health Education

Key Learning Experiences

Recognized the challenges of healthcare access in underserved communities and highlighted the value of free healthcare programs. This experience also reinforced the crucial role of pharmacists in educating patients, promoting the safe use of medicines, and preventing medication misuse.

Pharmacist in Government – Public Health District Scope

- ✓ Learned the pharmacist's role in coordinating the allocation and distribution of government funded medicines to primary healthcare centres (Puskesmas) including national health outbreaks.
- ✓ Learned the processes of pharmaceutical budgeting, medication procurement, distribution, and medicine disposal within the public healthcare system.
- ✓ Gained exposure to pharmaceutical reporting systems for monitoring medicine utilization and primary healthcare services.

Key Takeaways

- ✓ Importance of Pharmaceutical Policy and Program Implementation.
- ✓ Government Medicine Supply Chain
- ✓ Pharmaceutical Budgeting and Resource Planning

Key Learning Experiences

Learned how broad the impact of pharmacists beyond patient care, contributing to public health planning based on national health programs, urgent national health outbreaks, and allocating fair services to primary healthcare centres

Pharmaceutical Wholesale/Distributor Experience

Pharmacist Role in Pharmaceutical Distributor

Apr – May 2025

Pharmacist in Pharmaceutical Distributors

- ✓ Supported regulatory, sales, and tax documentation to ensure compliant distribution.
- ✓ Managed inventory: cycle counts, stock reconciliation, FIFO & FEFO storage, and temperature monitoring.
- ✓ Executed order fulfillment: picking, packing, and shipment grouping based on invoices and Purchase Orders.
- ✓ Handled receiving, storage, and distribution of medicines while maintaining product quality.

Key Takeaways

- ✓ Pharmaceutical Supply Chain Management
- ✓ Good Distribution Practice (GDP) and Cold Chain Management
- ✓ Regulatory Compliance

Key Learning Experiences

Recognized that maintaining medicine quality extends beyond manufacturing, requiring strict compliance with GDP, effective cold chain management, and continuous quality monitoring throughout the supply chain

Community Pharmacy Experience

Pharmacist Role in Community Pharmacy

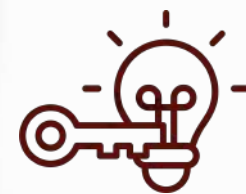

May – Jun 2025

Pharmacist in Local Community Pharmacy

- ✓ Screened prescriptions for stock availability, potency, and preparation accuracy.
- ✓ Compounded medications (powders, capsules, ointments) and performed basic extemporaneous preparations.
- ✓ Assisted in dispensing, including patient counseling on proper use, dosage, and side effects.
- ✓ Supported inventory management, including procurement, stock checks, and storage organization.

Key Takeaways

- ✓ Patient-centred Care and Clinical Communication
- ✓ Self-Medication and Minor Ailment Management
- ✓ Pharmacy Operations and Inventory Management

Key Learning Experiences

Learned the importance of effective communication and clinical judgment helping patients make informed decisions about their medications and self-care.

Pharmacist in Herbal Medicine

- ✓ Identified medicinal plants used in traditional herbal formulations.
- ✓ Assisted in processing herbal ingredients (washing and preparation).
- ✓ Supported quality control to ensure product safety and consistency.
- ✓ Participated in product testing to evaluate benefits and applications.

Key Takeaways

- ✓ Herbal Medicine Knowledge and Traditional Formulations
- ✓ Basic Quality Control and Product Evaluation
- ✓ Raw Material Handling and Processing Techniques

Key Learning Experiences

Gained understanding of herbal medicine development through plant identification, processing, and quality evaluation, while recognizing the importance of standardization and safety in traditional medicine products.

Sep – Oct 2025

Pharmacist in Quality Control Compliance

- ✓ Conducted GMP-related orientation training, including PGS overview, gowning, safety induction, and information protection.
- ✓ Performed environmental monitoring and utility trend analysis, including data processing, statistical analysis, interpretation, and reporting for multiple samples and areas.
- ✓ Developed job aids for pharmaceutical excipients and supported microbiology compliance through STP gap assessment and SOP updates
- ✓ Assited audits internal and external (BPOM and Johnson & Johnson)

Key Takeaways

- ✓ Good Manufacturing Practice (GMP) & Data Integrity Awareness
- ✓ Environmental Monitoring & Trend Analysis
- ✓ Documentation Control & Regulatory Compliance

Key Learning Experiences

Developed strong analytical and documentation skills through environmental monitoring and compliance activities, while gaining hands-on experience in GMP implementation, data integrity, and microbiology laboratory quality systems to ensure accurate and reliable pharmaceutical processes

Nov – Dec 2025

Pharmacist in Clinical Pharmacy Practice

- ✓ Conducted prescription reviews and SOAP (Subjective, Objective, Assessment, Plan) analysis to evaluate medication safety, dosing appropriateness, and inpatient therapy effectiveness.
- ✓ Performed medication reconciliation, while supporting ADR reporting and evidence-based drug information services.
- ✓ Practice handling cytostatic and non-cytostatic drugs according to safety standards.
- ✓ Supported hospital pharmacy operations, including sterilization procedures, inventory control, distribution, and documentation of pharmaceutical and medical devices.

Key Takeaways

- ✓ Patient-centred Pharmaceutical Care
- ✓ Clinical Decision-making Based on Evidence
- ✓ Importance of Safe Cytostatic Handling

Key Learning Experiences

Learned that being a pharmacist enes more medication knowledge, it also requires strong communication inter-professional teamwork, and clinical decision-making to provide safe, patient-centred care

Laboratory Assistant Experience

Laboratory Assistant of Compounding Sterile Preparation

Instructed 20 students across 4 shifts during practicum. Evaluated the laboratory journal before the practicum and ensured the comprehensiveness.

Laboratory Assistant of Pharmacognosy

Instructed 25 students on pharmacognosy practicum, including use of microscopes, analyzing chemistry such as histochemistry and thin-layer chromatography tests, and operating the UV Chamber.

ABSTRACT

Introduction: Acne is a chronic inflammation of the sebaceous glands due to increased sebum production, keratinization, inflammation, and bacterial infection in the hair follicles. Increased numbers and activity of normal flora such as *Propionibacterium acnes* can trigger inflammation. One natural ingredient that can be used as an antibacterial to kill *P. acnes* is watermelon rind. The alkaloid compounds in watermelon rind have the potential to inhibit the growth of bacteria, especially *P. acnes*. The development of a formulation of watermelon rind extract as an anti-bacterial against acne is very promising, one of them is an acne patch. **Methods:** Extraction was carried out using the ultrasonication method with ethanol 96% as the solvent. The phytochemical compounds (alkaloids, tannins, flavonoids, and saponins) were identified using the standard phytochemical screening method. The extracts were formulated into acne patch. Patches were prepared into two variations of solvent to dissolve HPMC and PVP, such as Patch 1 (HPMC-PVP-aquades) and Patch 2 (HPMC-PVP-ethanol). **Results:** The percentage yield of the extract was 31.145%. The results of phytochemical screening on the extract showed that the extract contained alkaloid compounds. Patch with ethanol as its solvent showed better results: transparent, slightly flexible, easy to peel off, and less oily. **Conclusion:** Based on this, acne patch preparations from watermelon rinds extract can be prepared with HPMC and PVP base and ethanol as its solvent.

Keywords: Acne patch, Watermelon rind extract, Ethanol

LEMBAR PENILAIAN PRAKTEK KERJA PROFESI APOTEKER (PKPA)
UNTUK PRESEPTOR (Penyuluh & Tugast Praktisi)

Nama : Viki Amelia Putri
 NIM : 242211131002
 Tempat PKPA : RSUD Bangil
 Waktu Pelaksanaan : 02 November s.d. 23 Desember 2025

PENILAIAN PELAKSANAAN PKP :

No.	Aspek Penilaian	Bobot (%)	Nilai (00-100)	Bobot x Nilai
1.	Penggunaan Materi	25	85	21.25
2.	Kemampuan Kerja	25	80	20.00
3.	Itikad dan Tata Nila (Orangtu, Kedisiplinan, Kejujuran, Integritas, Kepatuhan)	20	85	17.00
4.	Tugas	15	85	12.75
JUNILAN				85

REKAMTANG NILAI:

Menurut nilai dan skor yang terdapat dalam lembar penilaian terlampir berikut:

Haraf	Nilai	Angka	Kategori
A	85-100	90-100	Sangat Baik
AB	75-84	75 < AB < 85	Sangat Baik
B	65-74	65 < B < 75	Baik
BC	55-64	55 < BC < 65	Cukup Baik
C	45-54	45 < C < 55	Cukup
CD	35-44	35 < CD < 45	Kurang
D	25-34	25 < D < 35	Kurang
E	15-24	15 < E < 25	Sangat Kurang

Appl. : 27 Desember 2025
