Surabaya

Summary

I am a graduate of the Pharmacy Professional Study Program at the University of Surabaya with experience and dedication in providing quality pharmaceutical services. I possess skills in medication counseling, ensuring safe medication use for optimal health, and providing patient education through effective communication. I am skilled in standardized compounding and orderly inventory management, and am committed to improving service quality for patient health and satisfaction. I am also ready to advance in the professional world.

An apothecary graduate with a strong interest also in Quality Assurance, regulatory compliance, and pharmaceutical product development. Equipped with solid academic knowledge and practical exposure in pharmaceutical sciences, supported by extensive organizational experience that has strengthened both hard and soft skills. Recognized for strong critical thinking, high integrity, responsibility, and the ability to adapt quickly in dynamic environments. Highly motivated to learn, capable of working under pressure, and skilled in leadership, teamwork, and effective communication. Driven to grow professionally and contribute to delivering safe, high-quality pharmaceutical products.

Internship Experience

Staff QC-R&D-QA-Production

PT. Rama Emerald Multisukses, Gresik

Oct 2024 – Nov 2024

1. Performed Environmental Monitoring assessments in production areas (QC).
2. Conducted in-process quality checks at each production stage to ensure compliance with established specifications (QC).
3. Developed a Quality by Design (QbD) framework for Sitagliptin Film-Coated Tablets (R&D).
4. Prepared Product Quality Review (PQR)/Product Quality Evaluation documents for Ramoxyl Dry Syrup (QA).
5. Conducted Failure Mode and Effects Analysis (FMEA) for risk assessment in beta-lactam production rooms (QA).
