

NATASHA EVELYN TOSHY

+6289506618152 | tashatoshy20@gmail.com | <https://linkedin.com/in/natashaevelyntoshy>

Jember, East Java

Pharmacy graduate with hands-on experience in Quality Control within the pharmaceutical industry and strong academic background in formulation and excipient development. Experienced in GMP-based documentation, data integrity (ALCOA++), stability studies, and environmental monitoring during internship at a multinational pharmaceutical manufacturer. Demonstrated ability in physical modification of excipients and tablet manufacturing process through research activities. Detail-oriented, analytical, and adaptive individual with strong commitment to continuous improvement and regulatory compliance.

Work Experiences

Ferron Par Pharmaceuticals - Cikarang, Indonesia

Aug 2025 - Sep 2025

Quality Control Intern

- Reviewed and verified 60+ Laboratory Test Reports (LHU) to ensure analytical results complied with approved specifications and GMP testing procedures.
- Managed and supported 60+ stability study samples, including preparation, labeling, placement in climatic chambers, and segregation of completed samples for destruction.
- Recorded and recapitulated 100+ environmental monitoring and microbiological identification data based on cleanroom classification standards.
- Monitored and trended 100+ laboratory temperature and controlled area data points to ensure compliance with GMP requirements.
- Reviewed and optimized 5+ laboratory SOPs (microbiology & chemistry) to align with current QC practices and regulatory standards.
- Maintained QC documentation integrity by updating 60+ instrument and column usage logbooks in accordance with ALCOA++ principles and supporting reference standard inventory planning.

Millennium Pharmacon International, Tbk - Jember, Indonesia

Apr 2025 - May 2025

Pharmacy Intern

- Managed pharmaceutical and medical device inventory ensuring batch traceability and regulatory compliance.
- Performed verification of incoming goods (batch number, expiry date, NIE, quantity, product condition).
- Handled cold chain product storage and distribution following GDP standards.
- Maintained systematic documentation and archiving to support audit readiness.

Education

University of Jember - Jember, Indonesia

Feb 2025 - Apr 2026

Pharmacist, 3.80/4.00

- Clinical and industrial pharmacy rotations including pharmaceutical manufacturing and distribution settings.
- Trained in GMP, CPOB, GDP implementation and pharmaceutical documentation systems.
- Experienced in sterile compounding supervision and aseptic technique control.

University of Jember - Jember, Indonesia

Aug 2021 - Jan 2025

Bachelor of Pharmacy, 3.53/4.00

- Awarded competitive research grant for undergraduate thesis on natural-based excipient development.
- Conducted research on physical modification of excipients and evaluation of tablet manufacturing parameters.
- Completed laboratory-intensive coursework in Pharmaceutical Technology, Microbiology, Pharmaceutical Analysis, and Quality Control.
- Actively involved in community pharmaceutical education programs (DAGUSIBU & TOGA awareness).

Organizational & Leadership Experience

Sterile Compounding Preparation - Jember

Feb 2025 - Jul 2025

Laboratory Assistant

- Supervised sterile compounding practicum under GMP principles.
- Evaluated student laboratory journals and ensured aseptic technique compliance.
- Coordinated and assessed performance across 2 practicum shifts.

Phytochemistry - Jember

Aug 2024 - Dec 2024

Laboratory Assistant

- Conducted qualitative and quantitative phytochemical analysis.
- Assisted in extraction, purification, and isolation of bioactive compounds.

ISMAFARSI - Indonesia

Dec 2022 - Mar 2024

Education Professional Staff Expert

- Coordinated educational programs focused on patient counseling and student professional development.
- Delivered presentations on pharmacy student competency development across universities.

FORISMA - Jember

May 2023 - Jun 2023

Chief Executive of Pharmacy Goes to School

- Led and coordinated a team to organize a school-based drug education program.
- Assigned responsibilities to each division and ensured activities ran according to the planned timeline.
- Supervised the overall event execution to make sure objectives were achieved.
- Delivered educational sessions on proper and rational drug use to high school students.

Skills, Achievement, Professional Development

- **Technical Skills:** GMP & CPOB Compliance, Stability Study Documentation, Environmental Monitoring Trend Analysis, Data Integrity (ALCOA++), SOP Review & Documentation Control, Preformulation & Tablet Evaluation, Cold Chain Handling.
- **Soft Skills:** Analytical Thinking, Attention to Detail, Cross-functional Collaboration, Time Management, Adaptability
- **Achievements** (2025): Research Grant Awardee for Undergraduate Thesis
- **Professional Development** (2025): Webinar on Quality Control in Pharmaceutical Industry
