About Me

I am a graduate of the Bachelor of Pharmacy of the Indonesian Health Institute, currently I work as an employee of the administration (general) department at one of the companies that provide electrical parts. I have abilities in the areas of business process administration, *product sourcing*, price evaluation and conducting procurement processes. I am also experienced as a pharmaceutical engineering personnel who are responsible for clinical services and doctor's prescriptions, drug procurement, stock of medicines and consumables, purchase and destruction of expired drugs. During my lectures, I also actively participated in campus organizations to improve my leadership skills, work together, solve problems and evaluate the results of my work. I am also interested in the pharmaceutical industry in the field of formulation, regulation and QRM (*Quality Risk Management*).
