Date of birth : 05 July 2003 · Female

PROFILE

Laboratory professional with experience in physical and chemical analysis, routine instrumental testing, and laboratory support activities. Familiar with analytical instruments such as HPLC, GC, UV-Vis, and experienced in supporting product release, quality assurance, and laboratory readiness through proper sample handling, documentation, and coordination. Proven ability to maintain quality standards while working in compliance with GMP and laboratory procedures. Currently seeking opportunities as a Laboratory Analyst, Laboratory Technician, Assistant Analyst.

EDUCATION

Jendral Achmad Yani University
Chemistry

Expected Graduation in 2027

SMK-SMAK Bogor
Analytical Chemistry

Jun 2018 - Jun 2022

- Grade : 89.81 / 100

WORK & INTERNSHIP EXPERIENCE

PT Kalventis Sinergi Farma

Jun 2025 - Apr 2026

Quality Control Analyst

- Conducted conventional and analytical analysis on stability and semi-finished pharmaceutical products.
- Operated analytical instruments such as GC, HPLC, UV-Vis Spectrophotometer, and IR Spectroscopy.
- Worked on laboratory investigations by identifying abnormal test results, performing root cause analysis, and contributing to CAPA implementation.
- Monitored and coordinated instrument verification and maintenance activities to maintain performance.
- Maintain laboratory documentation in line with ISO and GMP standards.
- Performed environmental monitoring to track critical condition ensuring product safety, process integrity, and compliance.

PT Hexpharm Jaya Laboratories (A Kalbe Company)

Jun 2022 - Jun 2025

Quality Control Analyst

- Performed instrumental, chemical, and physical analysis on pharmaceutical semfinished goods.
- Operated advance laboratory instruments, including HPLC, UV-Vis Spectrophotometer, and IR Spectroscopy.
- Maintained laboratory records and ensured data accuracy and completeness in the Oracle system.
- Participated in developing and executing analytical method verification protocols for pharmaceutical products.
- Worked on instrument troubleshooting through autonomous maintenance.
- Managed reagent inventory, handling, and storage, while maintaining safety and compliance with documentation standards.
- Led a QC Cycle project focused on stability testing to improve product analysis efficiency and extend shelf life of reference standard (RS) while ensuring quality and compliance with industry standards.

PT Hexpharm Jaya Laboratories (A Kalbe Company)

Feb 2022 - Apr 2022

Microbiology Analyst

- Execute microbiological analysis of water samples, raw material, and finished pharmaceutical products in compliance with Standard Operating Procedures (SOP) to ensure quality and safety.
- Conducted Microbial Identification and Enumeration.
- Performed water sampling for microbiological and physical analysis.
- Participated in method verification for microbiological analysis of pharmaceutical materials to ensure the accuracy and reliability of test results.

CERTIFICATION

- Laboratory Safety - Trigonovate Sigma Indonesia | Jan 2026
- VAPRO Chemical Analyst Level III - VAPRO | Jun 2022
- Level III Qualification of Chemical Analysis - Indonesian Professional Certification Authority | Nov 2022
- TOEIC - Score: 785/990 | Jul 2021

SKILLS

Language: Indonesian (Native), English (Intermediate).

Hard Skill: Laboratory Instrumentation (GC, HPLC, UV-Vis Spectrophotometer, IR Spectroscopy), Quality Control (Pharmaceutical product, raw material, and stability testing, microbiology analysis, compliance assurance, sample preparation and handling), Environmental laboratory activities, HSEQ, Data Analysis (Report preparation, QCC project), Microsoft (Word, Excel, PowerPoint), G-Suite (Docs, Sheets, Slide).

Soft Skill: Discipline, Critical and Strategic Thinking, Problem-solving, Time Management.
