SUMMARY

Passionate graduate pharmacist from Universitas Indonesia with strong organizational and communication skills. Experienced in quality assurance, ensuring compliance with standards and procedures. A confident team player who thrives on challenges and is able to handle diverse and unexpected situations effectively.

EXPERIENCE

Pharmacist in Charge

05/2023 - 03/2026

PT Tempo

- Oversee all pharmaceutical operations to ensure full compliance with national regulations, Good Distribution Practice (GDP), and internal standards (SOPs, WIs)
- Serve as the responsible pharmacist for licensing, regulatory inspections, audits, and communication with health authorities
- Supervise personnel and provide training on regulatory compliance and safe handling of pharmaceutical products
- Review and approve documentation including transfer products, recalls, returns and complaints
- Ensure stock accuracy by conducting routine stock checks, reconciliation, and documentation review
- Implement and maintain quality assurance systems to minimize errors, expired stock, and regulatory risks
- Ensure all storage rooms comply with approved temperature standards through continuous monitoring, documentation, and corrective, preventive actions
- Monitor and verify customer and supplier compliance with relevant regulatory requirements

Pharmacist Staff

07/2022 - 02/2023

RSIA Stella Maris

- Conducted prescription screening for dosage accuracy, drug interactions, contraindications, and patient-specific factors
- Delivered medication counseling to patients, improving adherence and understanding of drug use, side effects, and storage
- Managed medication inventory, including storage, distribution, and monitoring of expiry dates and controlled drugs

Pharmacist Intern

11/2021 - 11/2021

PT Anugerah Pharmindo Lestari

- Learned and implemented CDOB in distributions process
- Maximized the features of company's software through Project Innovation Presentation

Pharmacist Intern

10/2021 - 10/2021

Apotek Roxy Poltangan

- Learned about pharmacy management such as performing stock-opname of drugs, organizing drugs, and ordering drugs from distributors
- Reviewed, dispensed prescription and practiced safe quality assurance control for patients

Pharmacist Intern

07/2021 - 08/2021

PT SOHO Industri Pharmasi

- Learned and implemented Good Manufacturing Practice (GMP) & Cara Pembuatan Obat yang Baik (CPOB) in productions process
- Identified and reported any potential delays and analyzed workload to determine the optimal manpower required
- Learned about the job and responsibility of other departments in the pharmaceutical industry such as QA, QC, Procurement, Warehouse and HSE

Organic Chemistry Laboratory Assistant

08/2019 - 08/2020

Faculty of Pharmacy, Universitas Sumatera Utara

- Assisted in undergraduate organic chemistry laboratory sessions involving organic synthesis reactions, including esterification, oxidation–reduction, substitution, and condensation reactions
- Ensured proper chemical handling, waste disposal, and documentation in accordance with laboratory quality and safety procedures
