

SRI WAHYUNI RATIKA DINI

081359276195 | dhinidn12@gmail.com | www.linkedin.com/in/sri-wahyuni-ratika-dini-57b94243

Pharmacist graduate from Universitas Jember with a strong foundation in pharmaceutical quality control and analytical evaluation of drug formulations. Experienced in laboratory testing, data analysis, and experimental evaluation through academic research and professional practice. Possesses a solid understanding of Good Manufacturing Practices (GMP) and pharmaceutical processes, with strong attention to detail and commitment to data accuracy, documentation, and regulatory compliance. Demonstrates a systematic approach to work and is highly motivated to contribute to pharmaceutical industry roles, including quality control, quality assurance, production, and research and development.

EDUCATION

UNIVERSITAS JEMBER

2025 - 2026

Professional Pharmacist Program (GPA: 3.97/4.00)

UNIVERSITAS JEMBER

2021 - 2025

Bachelor of Pharmacy (GPA: 3.48/4.00)

Skripsi: Development of Co-Processed Excipient from Pregelatinized Harum Manis Mango Seed Starch (*Mangifera indica* L.) - Croscarmellose Sodium as an Excipient for Orally Disintegrating Tablet (ODT)

INTERNSHIP EXPERIENCE

PT Balatif – Malang

November – December 2025

Pharmacist Internship

- Performed physicochemical testing of raw materials and finished products using established analytical methods
- Conducted in-process control (IPC) during manufacturing and packaging to ensure product quality and process consistency
- Documented test results accurately in compliance with GMP and SOP, ensuring data integrity
- Assisted in identifying and reporting out-of-specification (OOS) results for further investigation
- Ensured products met established quality specifications and standards

Apotek Zora Farma – Jember

October – November 2025

Pharmacist Internship

- Conducted prescription screening and provided comprehensive drug information services, including patient counseling and education (KIE/PIO)
- Managed the receipt, storage, and distribution of pharmaceutical products in accordance with established pharmacy standards
- Ensured accuracy between physical stock and inventory records, and performed routine monitoring of medication expiration

RSUD R.T. Notopuro – Sidoarjo

August – September 2025

Pharmacist Internship

- Performed compounding and dispensing of pharmaceutical preparations across multiple hospital units (outpatient, inpatient, OR, ER, and HD)
- Conducted drug therapy and adverse drug reaction monitoring to ensure the safety and appropriateness of patient treatment
- Participated in clinical ward rounds and gained exposure to hospital pharmacy management processes

Pharmacist Internship

- Gained understanding of herbal processing from cultivation to standardized finished products
- Performed dispensing and compounding of herbal preparations in accordance with established procedures
- Observed raw material preparation and processing stages, including washing, drying, and handling of herbal materials

Pharmacist Internship

- Provided prescription services and patient counseling, including drug information (PIO)
- Assisted in compounding medications in accordance with prescriptions, ensuring accuracy and safety
- Participated in health promotion activities and basic health screening for the community

Pharmacist Internship

- Gained understanding of pharmaceutical storage and distribution processes, including cold chain products (CCP)
- Maintained inventory data and updated stock records within the system
- Verified shipment documents and ensured accuracy of outgoing goods

Pharmacist Internship

- Guided students in fundamental pharmaceutical concepts, including solubility, dissolution, micromeritics, and rheology
- Provided technical support and supervision during laboratory sessions
- Ensured adherence to laboratory safety standards and SOP

RESEARCH EXPERIENCE

Development of Co-Processed Excipient from Pregelatinized Harum Manis Mango Seed Starch (Mangifera indica L.) - Croscarmellose Sodium as an Excipient for Orally Disintegrating Tablet (ODT)

- Developed and evaluated co-processed excipient for ODT formulation
- Performed physicochemical characterization and tablet evaluation
- Analyzed data to assess excipient performance and optimize formulation

SKILLS

Hard Skills

- Physicochemical Testing
- Analytical Method Understanding
- Dissolution Testing
- Data Analysis & Interpretation
- Pharmaceutical Formulation Basics
- Good Manufacturing Practices (GMP)
- Standard Operating Procedures (SOP) Compliance
- Laboratory Equipment Handling
- In-Process Control (IPC)
- Documentation & Reporting

Soft Skills

- Analytical Thinking
- Attention to Detail
- Problem Solving
- Time Management
- Teamwork & Collaboration
- Communication Skills
- Adaptability
- Willingness to Learn
