

ERVIANA APOTHECARY

PROFIL

Licensed Pharmacist with experience in Quality Control within the pharmaceutical industry, seeking to transition into a Formulator (R&D) role. Experienced in reviewing analytical data, ensuring compliance with SOPs, and maintaining accurate documentation, with strong transferable skills in planning, coordination, and data management.

Possess practical understanding of product specifications, trial procedures, and formulation documentation through QC experience, which can be applied to preparing and verifying master formulas, finished product specifications, and trial schedules. Detail-oriented, analytical, and highly motivated to contribute to formulation development, trial planning, and accurate reporting of R&D activities.

WORKING EXPERIENCE

PT. Novell Pharmaceutical Laboratories | Feb 2024 - present

Quality Control Staff

- Coordinated and optimized QC analyst task assignments to address technical analysis challenges, supporting efficient laboratory workflow and timely completion of testing activities.
- Ensured 100% compliance with SOI/SOP by monitoring analyst practices and reviewing in-process analyses, contributing to consistent procedure implementation and reliable analytical data.
- Reviewed and verified analytical test reports and supporting documentation, and actively participated in the investigation of deviations, non-conformities, and test failures to support timely corrective and preventive actions (CAPA).

Kalbio Global Medika | Sep 2022 - Nov 2022

Quality Control Microbiology Staff Intern

- Conducted environmental monitoring using Total Plate Count (TPC) testing to ensure compliance with microbiological standards.
- Performed endotoxin testing using the Gel Clot method to support product safety and quality.
- Identified microorganisms using the BBL Crystal Kit as part of microbiological quality control and investigation activities.

ORGANIZATIONAL EXPERIENCE

Unit Kegiatan Mahasiswa Kerohanian Buddha | Dec 2018 - Dec 2020 Secretary

- Prepared proposals and planned activities to support accountability reports, improving reporting structure and ensuring 100% on-time submission.
- Managed and maintained complete administrative documents, reducing errors and enhancing operational efficiency.
- Created and ensured smooth execution of correspondence operations, facilitating timely and effective communication with internal and external stakeholders.

EDUCATION

Airlangga University

Apothecary
Aug 2022 - Aug 2023
3.36 / 4.00

Airlangga University

Bachelor of Pharmacy
Aug 2018 - Aug 2022
3.54 / 4.00

SKILL

- Analytical Testing: HPLC, UHPLC, GC
- Microbiological Testing: Total Plate Count (TPC), endotoxin testing (Gel Clot), microbial identification (BBL Crystal Kit)
- Quality Systems & Compliance: GMP, CPOB, GLP, regulatory guidelines adherence
- Investigation & Problem Solving: OOS investigation, deviation handling, root cause analysis, CAPA implementation
- Sample Management: Handling, storage, and traceability of in-process, and finished products
