PROFILE

A Bachelor of Industrial Engineering with experience in production planning and inventory control. Strong communication and interpersonal skills, able to work effectively in a team, and adapt quickly to new environments. Accustomed to structured and proactive problem-solving.

EDUCATION

Universitas Teknologi Yogyakarta

September 2019 – July 2023

Bachelor of Industrial Engineering | GPA 3.42

Dibimbing.id

May – December 2023

Data Science

WORK EXPERIENCE

PT Japfa Food Indonesia

December 2022 – June 2026

Production Planning and Inventory Control Staff

- Created reports on raw material, packaging material, and finished goods stocks for all company plants (Cikupa, Boyolali, and Wonoayu) to monitor actual stock updates.
- Monitored and controlled Days of Inventory (DOI) to maintain inventory levels and monitor the shelf life of raw materials and finished goods.
- Mapped raw material allocations to each plant, including creating delivery schedules based on ETA (Estimate Time of Arrival) and ETD (Estimate Time of Departure).
- Created supply and demand projection simulations as a reference for estimating the number of chickens cut, the ending balance, and the DOI at the end of the period.
- Created Master Requirement Planning (MRP) and Master Production Planning (MPP) to allocate production schedules to each plant.
- Monitor daily planning and actual production realization.
- Coordinate with relevant departments such as production, warehouse, sales, marketing, quality management, procurement, and logistics to ensure smooth operations.

PT Aksamala Adi Andana

November 2024 – September 2025

PPIC & Production Staff

- Ensure that the stock of materials in the production warehouse is sufficient for production use.
- Supervise and monitor production activities and ensure production runs according to plan.
- Coordinate with the procurement department for ordering RMPM and other goods related to production needs.
- Create monthly, weekly and daily production schedules based on PO, production capacity, buffer stock and shipping priorities.
- Make material requirement requests to the warehouse per day.
- Conducting analysis of production data, purchase orders and data related to production.
- Supervise 36 operators from 2 lines (mixing and filling)

ORGANIZATION

UKM Robotika

July 2021 – July 2022

Departemen Koordinasi Divisi dan Lomba

- Responsible for monitoring and making reports regarding research progress.
- Forming a team to participate in competitions, providing direction to the research division, and supervising the implementation of research.

Ikatan Mahasiswa Teknik Industri Indonesia Zona Yogyakarta

April 2021 – April 2022

Divisi Pengembangan Wawasan dan Keilmuan

- Carrying out research and development in the field of Industrial Engineering while facilitating student participation in academic activities.

TRAINING & COURSE

- Bootcamp Digital Marketing Fullstack MySkills
- Bootcamp Product Manager MySkills
- Bootcamp Data Science Dibimbing.id
- Bootcamp Data Science QarirGenerator
- Google Digital Garage Fundamentals of Digital Marketing
- Course Digital Marketing Digimind
- Certification Google Data Analytics
- Bootcamp Data Science Digitalent Kominfo

SKILLS

- **Hard Skills:** Odoo, SAP, Microsoft office, microsoft excel (vlookup, pivot, logical functions), spreadsheet, data analysis, python, SQL, bills of material (BOM), material requirements planning (MRP), master production schedule (MPS), inventory management,
- **Soft Skills:** Intrapersonal and interpersonal communication, analytical thinking, teamwork, responsible, problem solving, quick learning, collaborative team player and adaptability.
- **Sertifikat:** BNSP Digital Marketing, Google Data Analytics Professional Certificate.
