I am a pharmacist who graduated from Universitas Airlangga, currently working in Quality Control (QC) with hands-on experience in pharmaceutical testing, analytical methods, and GMP-compliant processes. During my internship in a pharmaceutical R&D department, I gained exposure to formulation development, documentation, and quality management practices, including GMP, QA, and QC processes. I am adaptable and eager to contribute by leveraging my experience in Research and Development and Quality Control to support quality, efficiency, and continuous improvement in a professional environment.

Experience

PT Novell Pharmaceutical Laboratories – Bogor

Dec 2025 - Present

Quality Control Staff

- Ensure the quality and test results of sterile products comply with quality requirements in accordance with Standard Operating Procedures (SOPs), specifications, and applicable regulatory standards
- Perform, evaluate, and release test results for sterile products from the In Process Control (IPC) stage through finished products and ensuring all quality assurance testing activities are conducted consistently, accurately, and are properly documented
- Plan, organize, and schedule testing of sterile product samples from the production process through performing analysis using HPLC/UHPLC to ensure timely and efficient testing

PT Harsen Laboratories – Jakarta

Mar - Apr 2025

Research and Development Intern

- Actively participated in the trial processes of product formulation designs, contributing to the optimization and evaluation of pharmaceutical tablet prototypes following the principles of CPOB
- Engaged in laboratory-scale and pilot-scale production activities, including conducting In-Process Control (IPC) and End-Product Control (EPC) tests to ensure product quality and compliance with industry standards
- Conducted a New Product Development (NPD) project by designing and evaluating a scientific concept for floating Tramadol HCl tablets as a gastroretentive drug delivery system. The project emphasized excipient selection, buoyancy design, and dissolution control mechanisms
- Applied QbD principles to design and optimize a robust formulation of oral dispersible aspirin tablets. Conducted literature reviews, excipient selection, formulation design, and in-vitro evaluation planning based on Quality by Design (QbD) approach to enhance product stability, palatability, and manufacturability

Rumah Sakit Universitas Airlangga (RSUA) – Surabaya

Jan - Feb 2025

Pharmacy professional program internship

- Participated in various pharmacy units including inpatient pharmacy, logistics and procurement pharmacy, operating room (OR) pharmacy, intensive care unit (ICU) pharmacy, emergency room (ER) pharmacy, outpatient pharmacy, and UPTOPA
- Conducted therapy reviews to monitor and identify Drug-Related Problems (DRPs) in inpatient settings
- Provided medication counseling to both inpatient and outpatient, assisted in drug inventory management, and verified prescriptions to ensure appropriate dosing

PT Anugrah Argon Medica (AAM) – Surabaya

Dec 2024

Pharmacy professional program internship

- Actively involved in end-to-end pharmaceutical distribution operations, including procurement, receiving, proper storage, and dispensing of medicines, in accordance with Good Distribution Practices (CDOB) to ensure product quality and regulatory compliance.
- Participated in the process and verification of purchase orders in drug distribution according to Good Drug Distribution Practices (CDOB)
- Participated in qualification procedures for chillers and storage areas in compliance with Good Distribution Practices (CDOB), ensuring appropriate environmental conditions for pharmaceutical products.

Puskesmas Kalijudan – Surabaya

Nov 2024

Pharmacy professional program internship

- Actively participated in delivering pharmaceutical care services at community health centers, including providing Drug Information Services (PIO) and conducting patient medication counseling to support rational drug therapy use
- Conducted a health promotion program on DAGUSIBU (Get, Use, Store, and Dispose of Medicines Properly) at a community health

center through an educational video to raise public awareness on the proper use of medications

PT Kimia Farma Apotek (KFA) – Surabaya

Sep - Nov 2024

Pharmacy professional program internship

- Participated in pharmaceutical services within the pharmacy setting, including providing drug information, patient counseling, and dispensing medications
- Implemented health promotion activities focused on educating the community about the proper selection of medications for flu and cough, utilizing informative posters and leaflets to enhance public awareness and encourage responsible self-medication
- Implemented health promotion activities focused on educating the community about the proper selection of medications for flu and cough, utilizing informative posters and leaflets to enhance public awareness and encourage responsible self-medication

Lecturer's Research Project on Allergen Extracts – Surabaya

Nov 2023 - Jun 2024

Research Assistant

- Participated in a research project focused on developing allergen extracts from Indonesian House Dust Mites (IHDM)
- Assisted in the preparation and development of shrimp allergen extracts
