Tangerang City, Banten, Indonesia

Apothecary student at Institut Teknologi Bandung with interests in pharmaceutical manufacturing, GMP, and production operations. Experienced in pharmaceutical manufacturing, hospital, community pharmacy, pharmaceutical distribution, and regulatory internships, with exposure to quality systems, production planning, and process improvement. Skilled in analytical and chemometric data analysis using RStudio and MS-DIAL, and committed to contributing to efficient and compliant pharmaceutical operations.

## Work Experiences

---

### PT. KIMIA FARMA, TBK - Banjaran, Jawa Barat, Indonesia

Mar 2026 - Apr 2026

#### Production Intern

- Gained hands-on experience in end-to-end pharmaceutical manufacturing of tablet, granule, and herbal products, including weighing, granulation, compression, coating, packaging, in- process control (IPC), and equipment cleaning in compliance with Good Manufacturing Practices (GMP/CPOB).
- Gained exposure to GMP/ CPOB implementation through participation in line clearance, sanitation procedures, and production area monitoring.
- Conducted Overall Equipment Effectiveness (OEE) analysis to evaluate manufacturing performance and identify opportunities for process improvement.
- Gained practical experience in production planning and control activities, including Production Execution System (PES) and coordination with Production Planning and Inventory Control (PPIC).
- Participated in discussions on quality management systems, validation, Corrective and Preventive Actions (CAPA), and risk assessment tools such as Fishbone Analysis and Failure Mode and Effects Analysis (FMEA).
- Observed the implementation of environmental monitoring and facility controls in compliance with GMP/CPOB requirements.

### PT Anugrah Argon Medica - Bekasi, Indonesia

Jan 2026

#### Quality Assurance Intern

- Implemented Good Distribution Practices (GDP/CDOB) in document verification, temperature monitoring, and pharmaceutical product distribution activities.
- Conducted stock opname and locator verification to ensure inventory accuracy between physical stock and the Cosmos Warehouse Management System.
- Analyzed warehouse temperature data logger records and prepared storage condition monitoring reports to ensure compliance with distribution standards.
- Performed storage area qualification by monitoring temperature and verifying environmental conditions in accordance with GDP (CDOB) requirements.
- Managed Cold Chain Product (CCP) handling by preparing and organizing thermofreezer to maintain product quality during storage and distribution.
- Verified business partner documents, including specimen signatures and Pharmacy Responsible Person (PRB) records, to ensure regulatory compliance prior to product distribution.
- Maintained and updated business partner data within the company system to ensure database accuracy and support distribution operations.

### PT. Kimia Farma Apotek - Bandung, Indonesia

Feb 2026

#### Pharmacy Intern

- Assisted in preparing, compounding, and dispensing 30+ outpatient prescriptions daily, ensuring prescription accuracy, completeness, and compliance with pharmacy standards and procedures.
- Provided patient-centered pharmaceutical care, including prescription dispensing, self-medication services, medication counseling, and recommendations for appropriate non-prescription medicines based on patients' needs.
- Assisted in the procurement and distribution of pharmaceutical products through pharmaceutical distributors to maintain inventory availability and support pharmacy operations.
- Utilized the pharmacy Point of Sale (POS) system for prescription processing, inventory management, dispensing documentation, and daily operational activities.
- Applied effective communication skills to promote medication adherence, patient safety, and the rational use of medicines.
- Conducted a feasibility study to evaluate the operational efficiency and business viability of establishing a community pharmacy.

### RS Immanuel - Bandung, Indonesia

Nov 2025

#### Clinical Pharmacist Intern

- Conducted medication dispensing, including medication preparation, labeling, and dispensing at satellite pharmacy units in accordance with hospital standard operating procedures.
- Conducted medication reviews for 30 outpatient prescriptions, assessing administrative completeness as well as pharmaceutical and clinical appropriateness.
- Conducted Medication Therapy Monitoring (MTM) for hospitalized patients by evaluating indications, dosage, route of administration, and

potential drug interactions.

- Verified and prepared medications using the Unit Dose Dispensing (UDD) system to support accurate medication administration for inpatients.
- Documented pharmaceutical interventions and medication therapy monitoring results in patients' medical records.

#### **Balai Pengawas Obat dan Makanan Bogor - Bogor, Indonesia**

Oct 2025

##### *Inspection Intern*

- Conducted post-market inspections of pharmaceuticals, traditional medicines, cosmetics, and processed food products to assess compliance with quality and safety regulations.
- Performed audits of processed food manufacturers based on Good Manufacturing Practices for Processed Food (CPPOB).
- Verified product labeling and packaging, including marketing authorization, expiration dates, and mandatory labeling requirements, and documented inspection findings.
- Assisted in preparing inspection reports (Berita Acara Pemeriksaan/BAP) and entering inspection data into the Integrated Supervision Information System (SIPT BPOM).
- Supported the mapping of traditional medicine distribution facilities to identify potential risks associated with illegal herbal products containing pharmaceutical substances (BKO).

#### **Instrumental Analytical Chemistry Laboratory Assistant - Purwokerto, Indonesia**

Jul 2024 - Dec 2024

##### *Laboratory Teaching Assistant*

- Reviewed and verified practical modules for alignment with laboratory standards and relevant analytical methodologies.
- Prepared laboratory instruments, reagents, and materials for five practical modules, including instrumental analysis experiments.
- Provided guidance to around 150+ students, including introductions to laboratory tools and procedures of the modules.
- Provided guidance on the principles, operation, and applications of analytical instruments, including spectroscopic and chromatographic techniques.
- Developed pre-test questions, evaluated student performance, and assessed laboratory reports.

#### **Apotek Whotara Farma - Purwokerto, Indonesia**

Jun 2023

##### *Pharmacy Intern*

- Provided drug information and medication counseling to 15+ patients daily under pharmacist supervision.
- Prepared and dispensed 50+ medications and processed 10+ prescriptions daily in accordance with pharmacy procedures.
- Operated the pharmacy computerized system to support efficient cashier transactions and prescription processing.
- Participated in stock opname and inventory reconciliation to maintain inventory accuracy.
- Learned how to ordering and receiving medications from various pharmaceutical wholesalers and the storing method at Whotara Farma Drugstore

## **Education**

---

#### **Institut Teknologi Bandung - Bandung, Indonesia**

Aug 2025 - Present

##### *Bachelor of Apothecary, 3.93/4.00*

- Completed PKPA rotations in Pharmaceutical Industry, Hospital, Community Pharmacy, Pharmaceutical Distribution, and Regulatory Affairs.
- Developed competencies in pharmaceutical manufacturing, GMP/CPOB, and regulatory compliance.

#### **Universitas Jenderal Soedirman - Purwokerto, Indonesia**

Aug 2020 - Jan 2025

##### *Bachelor of Pharmacy, 3.11/4.00*

- Laboratory Teaching Assistant for Instrumental Analytical Chemistry.
- Conducted undergraduate research on nutmeg essential oil authentication using GC-FID, GC-MS, and chemometric analysis.
- Recipient of Student Creativity Program (PKM) funding.
- Completed internships in community pharmacy

## **Organizational experience**

---

#### **Student Legislative Council - Purwokerto**

Feb 2022 - Jul 2022

##### *Internal Affairs Staff*

Student legislative body at the Faculty of Health Sciences responsible for oversight, legislation, and representing student aspirations.

- Coordinated communication among members of the Student Legislative Council within the Faculty of Health Sciences.
- Assisted in organizing and implementing programs aimed at fostering collaboration and engagement among members.
- Served as a liaison between the executive board and members to facilitate the exchange of information, feedback, and organizational updates.

## Skills, Awards & Competitions

---

- **Program Kreativitas Mahasiswa (PKM)** (2023): Successfully secured national funding in the Student Creativity Program (PKM) organized by the Ministry of Education, contributing to proposal development, project implementation, and teamwork.
- **SINTESA (PKM FAKULTAS)** (2022): Achieved 3rd Place in the Faculty Student Creativity Program (SINTESA) by developing an innovative project, preparing the proposal, and presenting the work before academic reviewers.

## Certifications

---

- Good Manufacturing Practice for Pharmaceuticals (CPOB) – Indonesian Food and Drug Authority (BPOM) (2025)
- Good Manufacturing Practice for Cosmetics (CPKB) – Indonesian Food and Drug Authority (BPOM) (2025)
- Good Distribution Practice (CDOB): Corrective and Preventive Action (CAPA) – Indonesian Food and Drug Authority (BPOM) (2025)
- Pharmacovigilance – Indonesian Food and Drug Authority (BPOM) (2025)
- Risk Management System – Indonesian Food and Drug Authority (BPOM) (2025)
