

Ravi Samsani

Quality Assurance Coordinator

Profile

Outcome-driven professional with progressive experience in conducting quality assurance checks. Adept at guaranteeing strict adherence to quality standards by identifying root causes. Proven success in facilitating continuous improvement in quality processes by building culture of excellence and applying corrective actions. Instrumental in reporting findings to executives and keeping track of inspections, records, and documentation. Highly analytical and observant with capabilities in utilizing quality control tools and techniques and achieving accurate results. Team player, equipped with communication and leadership skills to meet highest standards of quality compliance and mitigate potential risks.

Employment History

QA Executive

Oman Pharmaceutical Products CO.L.L.C, Salalah, Oman, 2022 — Present

Carry out thorough reviews of batch manufacturing/batch packing records and log books with attention to detail. Verify critical quality assurance checks in BMR/BPR documents to ensure compliance with set standards. Respond promptly to customer and contract giver inquiries to nurture positive relationships. Validate completeness and accuracy of executed documents and approve batch release for further production. Scan and organize documents for seamless storage and retrieval. Perform comprehensive reviews of SOPs, BMR/BPR, and process validation protocols. Manage team as a shift leader, assign key tasks, and oversee operations for optimal efficiency. Analyze CGMP activities online on shop floor to guarantee strict compliance. Demonstrated expertise in end-to-end validation activities, with a strong focus on process validation, including independent preparation of validation and hold time protocols, execution of hold time studies, and comprehensive development, review, and compilation of validation and hold time reports, ensuring compliance with regulatory and quality standards.

- Established a streamlined document storage and retrieval system to maintain efficient data management.
- Led several audit processes, including Hamburg, Uganda, MOH Oman, and Gulf Health Council audits to minimize issues and improve shop floor operations.
- Conducted in-depth shop floor investigations and reasons for discrepancies for quick issue resolution.

QA Executive

Aurobindo Pharma Limited, Vizag, India, 2017 — 2022

Provided vigilant oversight of in-process quality assurance activities to retain adherence to rigorous standards across high-volume production environments. Leveraged analytical expertise to review batch manufacturing and log books. Employed Process Pad system to craft annual product quality reviews and assess product quality. Guarantee efficient line clearance during the production of various dosage forms, such as tablets, capsules, liquids, and sachets.

- Streamlined audit trail and alarm verifications to bolster operational efficiency.
- Promoted culture of continuous improvement through active participation in Kaizen Blitz and GAMBA WALKS.
- Managed internal and external audits, including MHRA, US-FDA, HEALTH-CANADA, GULF HEALTH COUNCIL, and WHO audits.
