081312343989 | fitriamaulina08@gmail.com | www.linkedin.com/in/fitria-maulina-70847b311 | Tangerang, Banten

Fresh graduate pharmacist from Padjadjaran University with hands-on experience in pharmaceutical industry (PT. Meprofarm Pharmaceuticals) and regulatory laboratory (BBPOM) environments. Familiar with analytical testing workflows (HPLC), data interpretation, and GMP (CPOB) & GLP compliance. Experienced in supporting laboratory analysis, evaluating product quality, and ensuring regulatory compliance. Highly interested in pharmaceutical R&D, particularly in analytical method development, validation, and formulation.

Education

Padjadjaran University – Sumedang <i>Professional Pharmacist Degree</i>	Feb 2025 – Apr 2026
Jambi University – Jambi <i>Bachelor of Pharmacy, 3.77/4.00</i>	Aug 2020 - Jun 2024

Internship Experience

PT. Meprofarm Pharmaceutical – Bandung <i>PKPA QC, PPIC, Production</i>	Jul 2025 - Aug 2025
---	---------------------

- QC: Conducted trend analysis of environmental monitoring data (temperature and humidity) to evaluate laboratory conditions and support quality control decisions. Performed data integrity risk assessments using ALCOA+ principles to ensure accuracy and reliability of laboratory data. Reviewed and maintained GMP-compliant documentation to support quality system effectiveness.
- PPIC: Managed material request documentation and ensured data accuracy for production planning processes. Analyzed warehouse temperature monitoring data to ensure proper storage conditions and product stability. Maintained NIE control documentation to ensure traceability and regulatory compliance.
- Production: Performed detailed analysis of pharmaceutical manufacturing processes in accordance with GMP (CPOB) standards. Supported production activities in compliance with SOP and quality standards.

BBPOM Bandung - Bandung <i>PKPA Cosmetics Testing Laboratory</i>	May 2025
--	----------

- Observed and understood the end-to-end workflow of HPLC (KCKT-PDA) analysis, including sample preparation, instrument operation, and basic data interpretation.
- Assisted in sample preparation and sample introduction into analytical instruments under supervision.
- Conducted qualitative and quantitative analysis of cosmetic samples based on laboratory testing results.
- Interpreted analytical data to evaluate product safety and compliance with regulatory standards.

Immanuel Hospital - Bandung <i>Pharmacist Professional Internship</i>	Sep 2025 - Oct 2025
---	---------------------

- Evaluated medication therapy to ensure safety and effectiveness of drug use.
- Conducted prescription screening to identify potential drug-related problems.

Medika Antapani Pharmacy- Bandung <i>Pharmacist Professional Internship</i>	Jun 2025
---	----------

- Provided dispensing services and non-sterile compounding.
- Managed inventory using FIFO–FEFO system to ensure drug quality.

Certification

• Certificate of Training R&D Formulator Training in Cosmetics Industry (Skincare)	(2024)
• Certificate of Reading Chromatogram for Analytical Instruments	(2024)
• Certificate of Training Implementation of Halal Assurance System in Cosmetics and Pharmaceutical Industry	(2024)
• Certificate of Training in QA QC in the Pharmacy & Cosmetics Industry	(2024)
• Certificate of Training in Cosmetics Analysis for Safety and Quality	(2024)

Skills

Technical Skills:

- Analytical Testing (HPLC-basic exposure, laboratory techniques)
- Data interpretation & Trend Analysis
- GMP (CPOB) & GLP Compliance
- Data Integrity (ALCOA+)
- Laboratory Documentation & Reporting
- Microsoft Office (Word, Excel, Power Point)

Personal Skills:

- Attention to detail, effective communication
- Problem-solving skills
- Teamwork/individual work
- Responsibility and time management
